IIR 52.0744)UX 000 Annual Report For the year ending December 31, 2000

UNITED STATES SHIP DUXBURY BAY AVP – 38

The USS Duxbury Bay was built in the Lake Washington Shipyard near Houghton, Washington. She was launched in October 1944 and commissioned on 31 December 1944. The Duxbury Bay was a Seaplane Tender. She was a small one as tenders went; 310 feet long with a beam of 41 feet 2 inches, the ship drew about 12 feet of water and displaced about 2,000 tons. Top speed was 18 knots but cruising speed was 12-13 knots driven by twin diesel engines. The onboard guns were really defensive in nature and some of them were removed early in the ship's life.

The naming of the ship was in keeping with the standard usage of the times. Seaplane Tenders provided safe haven and rest, just as protected bodies of water did for the aircraft. There were 34 other ships of the same class built near the end of the war and almost all got a similar naming treatment.

Duxbury Bay participated in the invasion of Okinawa and the subsequent occupation of Japan. Off Okinawa she fought off Kamikaze attacks and several air attacks. The ship serviced one entire squadron of seaplanes by itself. From 1946 to 1950 she served the U.S. 7th Fleet in China and Japan. An around-the-world cruise in 1949 found her conducting cold water operations in Halifax Harbor, Nova Scotia in the fall. This was her last deployment as a seaplane tender.

The next 15 years saw Duxbury Bay in the role of Command Ship and as a protocol platform from which the United States could practice diplomacy and "to show the flag" all over the Middle East, the Persian Gulf and the Indian Ocean. The standard Navy Grey paint was replaced with a solid white in deference to the climate in her new patrol areas, in which temperatures often exceeded 110 degrees. She became known as the Galloping Ghost of the Persian Coast as she slipped in and out of exotic ports all over the region. The ship would rotate back to Norfolk, Virginia regularly for refit and crew rest. Events of the Cuban Missile Crisis in October 1962 saw the Duxbury Bay at the Naval Base Guantanomo Bay, Cuba. There she was ordered to evacuate 341 dependent women and children with only a few hours notice. Enroute to Norfolk, she needed an underway replenishment of 40 gallons of fresh milk for the children.

During the 22 years Duxbury Bay served the nation, she transited the Pacific Ocean at least three times and the Atlantic at least 10 times. She was also quite at home in the Indian Ocean, Red Sea, Bay of Bengal, Mediterranean, Adriatic, Persian Gulf, Sea of Japan and just about every navigable body of water of interest to the U.S. Navy.

Eventually the ship wore out and the decision was made to send Duxbury Bay to the breakers. On the 29th of April, 1966 she was decommissioned. Sold for scrap to the high bidder for \$48,900, the ship was completely recycled. In honor of the decommissioning the Duxbury Board of Selectmen participated in "suitable services at the Long Bridge simultaneously" and the schools observed a minute of silence. The ship's bell is on semi-permanent loan to us and is on display at Town Hall.

IN MEMORIUM SERGEANT WILLIAM K. LAFLEUR, SR.

Police Sergeant Bill LaFleur faithfully served the Town of Duxbury for 33 years, retiring in 1993. Twenty-two of those years, he served in the capacity of Sergent on the midnight shift. Many young officers gained their first police experiences under Sgt. La La's guidance. He was a devoted friend and mentor to those under his command. He loved his work and was proud to be a police officer for the town in which he resided.

Sgt. LaFleur dedicated his life to his family, church, and community. He left a legacy of honorable public service and loyal friendship. We will miss that twinkle in his eye, his engaging laugh, and his practical jokes. Bill's memory will always be a proud part of the Duxbury Police Department's history.

First Nite

BOARD OF SELECTMEN

The year 2000 began with a wonderful First Nitto celebration and ended with another First Nite to usher in 2001. In the intervening months a lot happened in our town. One of the most significant events was the opening of the Ashdod Fire Station in June. Construction of Duxbury's first Senior Center began in July, and the building should be completed in May. Plans are currently being developed for major school construction. For all these projects, the Town has been fortunate to receive voluntary services from several citizens. Not only does the Town save money, but perhaps more important, the resulting projects have had the support of townspeople even before they have been voted on at Annual Town Meeting. Having our Board meetings televised has also helped to inform citizens on projects and issues affecting the town.

As a result of last year's Annual Town Meeting, three study committees were established: the Sidewalk Study Committee, the Recreation Facilities Study Committee, and the Comprehensive Plan Zoning Bylaw Implementation Committee (CPZBIC). All three committees worked diligently, meeting through the summer and often on a weekly basis. The Sidewalk Committee is working on a rating system to determine such criteria as population density, traffic volume, and street width to be used for determining which streets should have sidewalks and when they might be constructed. The Recreation Study Committee concluded that the town needs to construct additional athletic fields and help those citizens interested in an ice facility to find a suitable location. The Committee also recommended that the Town pursue a professional study of what facilities if any could be placed at North Hill without compromising the environment. CPZBIC spent the year studying every aspect of our zoning bylaw as the town faces growth pressures. The Committee plans to have actual zoning bylaw changes ready for implementation at a Fall 2001 Special Town Meeting.

The Board continues to focus on protecting our water supply. Several initiatives occurred this year, including proposals to buy land to increase protection of the aquifer. The Lower Chandler Mill and Island Creek ponds were successfully treated to remove vegetation that has been threatening both ponds. The Bay Road Shared Septic System is almost ready to be implemented, with construction planned for this spring. The Board has just recently received a recommendation from the Land Acquisition Task Force, a committee appointed by the Board, to accept and implement the recently passed state Community Preservation Act. This legislation allows towns to set aside money and receive matching state grants for open space acquisition, historic preservation, and affordable housing. The merits of this proposal will be debated at this year's Annual Town Meeting.

For several months the Board has been working with the Society of St. Margaret's to see if the Town could acquire the acreage in front of the convent on Washington Street for town use while St. Margaret's could support the convent with the proceeds from the sale of this land. A partnership was formed between St. Margaret's, the Wildland's Trust, and the Town. A "yes" vote at this year's Annual Town Meeting will mean that for the first time in its long history Duxbury will have a town green.

The Board takes pride in having cooperated to the fullest extent in helping Habitat for Humanity build its first house in Duxbury on a small parcel of town-owed land that voters agreed to deed to Habitat. We salute the many Duxbury residents who are volunteering to build the Habitat house, which is located close to the schools and library in a neighborhood suitable for a family.

The Board wishes to acknowledge 17 long years of dedicated service by John Ferguson, Town Collector and Treasurer, who retired last July. We note also the departure of Joanne LaMothe, our Library Director who so ably led the transition from the old library to the new. We wish her success in her new position as Director of the Weymouth Library. We also welcome Elaine Winquist, our new Library Director.

Finally, with sadness, we note the passing of William (Bill) LaFleur, retired police sergeant of the Duxbury Police Department (with 33 years of service to the town), LeRoy (Buster) Randall, retired foreman for the Highway Department (with 32 years of service to the town), and Larry Nickerson, an employee of the Highway Department.

Respectfully submitted, Margaret M. Kearney (Chair) Andre Martecchini John Tuffy

TOWN MANAGER

The Town's Annual Report provides a well-documented synopsis of the year's activities. As you review the Report you will develop an understanding and recognize a significant number of accomplishments achieved in the year 2000. Duxbury Town Government has a number of outstanding professionals and volunteers that are dedicated to keeping our community a great place to live, work and play!

Y2K - Year 2000

The year began with concern (preceded by significant preparation) about the Y2K "bug" and how it may impact the Town. The Town took appropriate and timely action and as a result, there was a perception the whole issue was "much ado about nothing." The year 2000 began without a glitch.

Customer Service Training

The Town's management staff participated in a full-day training session to begin to develop an active customer service program in the Town. While the department heads and all employees have generally done a very good job with customer service, everyone agrees there is always room for improvement. After the management staff completed the Customer service training, all other town employees participated in the same process. The next step will require the management staff to "blend" the information received from the staff training sessions and continue to make improvements as time and the budget allow.

Romanian Guests

The Town hosted Mayors and Finance Directors from several Romanian communities. The purpose of the State Department Program was to give insight to the Romanian local officials on how local government functions in the United States. The experience was mutually beneficial. The interaction with our Romanian guests taught each country a broad range of financial concepts and practices. In certain areas, we sensed our financial processes were comparable. However, it was also clear that the "pure democracy" (legislative process) was difficult for our guests to comprehend! A highlight of the visit was a social gathering that added to the experience. In both countries, families involved with local government struggled with the balance of family life and the job in local government. The Romanian guests left several gifts to remind us of the visit.

Roundabout

After a year in the design and build stage, the Roundabout project was finally completed (by December 31st 99% complete). The Roundabout Project is the small circle installed at the intersection of Lincoln and West Streets. The intersection, prior to the installation of the roundabout, was considered dangerous. The volume and speed of traffic adversely impacted the intersection. The purpose of a roundabout was to calm or slow traffic traveling through the intersection. Initial observations indicate the project is working well and the intersection has been successfully improved.

Purchase Order System

A new purchase order policy was developed and adopted. The Department Heads are geared to initiate a purchase order system. The intention of the Purchase Order system is to increase fiscal responsibility and accountability.

Biweekly Pay

After negotiations were concluded with the Town's five union organizations, the Personnel and Fiscal staff began preparations to institute a new payroll process. Once the new system is instituted, all municipal employees will be paid every other week.

Management Benefits Study

As a result of significant interest by the Town's Department Heads and all management staff, an independent municipal personnel expert conducted a comparative study. The study compared benefits in similar communities in the Commonwealth. This study enlightened the Town's staff and created an understanding of benefits in communities throughout the Commonwealth.

Methyl Tertiary Butyl Ethanol (MTBE)

The Town discovered a MTBE in our drinking water (in two wells) and began to share the information with all citizens. MTBE is a fuel additive that has been very successful cleaning up the air quality throughout the country. However, as a result of the burning process in the automobile, low levels of MTBE are discharged into the air and eventually settle onto the ground. A public forum was held and officials from the Department of

Environmental Protection participated, including the State's Chief Toxicologist. The Town will continue to monitor the levels of MTBE. The Town's results have been typically been very low and are publicly reported.

Five Intersections Proposed for Federal Assistance

The following list of streets was presented to the Regional Planning Commission (MAPC) for consideration to resolve problems and make improvements in each case:

Route 3A at Toby Garden and Chestnut; Route 3A at Depot Street; Route 3A at Route 139; Route 53 at Winter Street; and Route 53 at Franklin St and High Street.

Support, direction and assistance is required from the Commonwealth to improve each intersection. While the bureaucratic process is lengthy, the Town will continue to pursue improvements as a priority for these intersections.

Personnel Changes

John Ferguson Collector-Treasurer for 17 years retired this year. As part of the transition, Nancy Boulanger and Ann Marie Ellis-Stetson have been appointed "Acting Collector" and "Acting Treasurer", respectively. Both Nancy and Ann Marie have done an excellent job throughout the transition. Joanne Lamothe left after 16 years of service, most recently as Library Director. Elaine Winquist, who has worked in the Library as Technology Librarian, replaced Joanne.

Strategic Plan

The Board of Selectmen and management staff spent a day reviewing the status of our first 5-year strategic plan. The same day we completed components for the second five-year plan that will be finalized early next year.

These achievements represent a sample of the numerous accomplishments for the year 2000. The success and direction of the Town Government is attributable to an outstanding team of Department Heads, a great management staff and dedicated and conscientious employees. I am privileged and thankful to work with a great departmental team that includes Fay Hession, Rebecca Ford and Nancy Moody as part of the Selectmen/Town Manager's staff.

Respectfully submitted,

Rocco J. Longo, Town Manager

Article 11-Moved, seconded and carried to-indefinitely postpone (Conservation Commission-Land Acquisition)

Article 12-Wetlands Protection Bylaw-Moved and seconded that the Town vote to amend Chapter 9 of the General Bylaw "Wetlands Protection" by adding a new section to Chapter 9 "Wetlands Protection", "9.1.9 that reads:

9.1.9 Security-As part of a permit issued under this bylaw, in addition to any security required by any other municipal or state board, agency or official, the Conservation Commission may require that the performance and observance of the permit conditions imposed thereunder (including requiring mitigation work) be secured wholly or in part by one or more of the methods described below:

- A. By a proper bond or deposit of money or negotiable securities or other undertaking of financial responsibility sufficient in the opinion of the Commission, to be released in whole or in part upon issuance of a certificate of Compliance for work performed pursuant to the permit.
- B. By accepting a conservation restriction, easement, or other covenant enforceable in a court of law, executed and duly recorded by the owner of record, running with the land to the benefit of this municipality whereby the conditions shall be performed and observed before any lot may be conveyed other than by mortgage deed. This method shall be used only with the consent of the applicant.

and further, to amend section 9.1.8 of Chapter 9 "Wetland Protection" by striking the last sentence of the current section 9.1.8 and inserting in its place the following language; "The penalty for violation of any provisions of this Bylaw shall be \$100 for the first offense, \$200 for the second offense and \$300 for the third offense and each subsequent offense."

Motion carried

Accepted by the Attorney General-May 31,2000

to the Duxbury ad hoc Habitat Committee and the South Shore Habitat for Humanity for the purpose of building a three (3) bedroom family house for a Duxbury resident.

Moved the previous question to end debate. 2/3 vote required. Motion carried unanimously declared by the Moderator. Debate ended. A 2/3 vote required on the main motion.

Motion carried unanimously declared by the Moderator.

Article 28-Withdrawn before publication of the Warrant. (Dog Control)

Article 29-Moved, seconded and carried to indefinitely postpone.

Article 30-Moved, seconded and carried to indefinitely postpone.

Article 31- Public Safety-Door to Door Solicitation Moved and seconded that the Town vote to amend its General Bylaw by striking paragraph 7.17.1 and 7.17.2 of Chapter 7 Public Safety, Section 7.17 Door to Door Solicitation and substituting in its place the following:

7.17.1 License Required

It shall be unlawful for any solicitor or canvasser as defined in this Chapter to engage in such business within the Town without first obtaining a license therefor in compliance with the provisions of this Chapter. The provisions of this Chapter shall not apply to any person exempted under Chapter 100 or 101 of the General Laws.

7.17.2 Definition

"Solicitor or Canvasser": Any person who, for himself, or for any other person, firm or corporation travels by foot, automobile or any other type of conveyance from place to place, from house to house or from street to street taking or attempting to lease or take orders, for sale of goods, wares, merchandise, or services, including without limitation, the selling, distributing, exposing for sale or soliciting orders, for magazines, books, periodicals or other articles of a commercial nature, the contracting of all home improvements or services to be performed in the future whether or not such individual has, carries or exposes for sale a sample of the subject of such sale or whether he is collecting advance payment on such sale. For the purpose of this section solicitor and canvasser shall mean the same person.

7.17.3 Application

Applicants for a license shall file with the Chief of Police, on a form issued by the Police Department, a written application signed under penalties of perjury, containing, but not limited to, the following information:

- a) Name of applicant;
- b) Address of applicant (Local and permanent home address);
- c) Applicant's date of birth, height, weight, eye and hair color;
- d) Applicant's social security number;
- e) The length of time for which a license to solicit and/or canvas is desired and the dates, times and locations where solicitation or canvassing activities are intended;
- f) A brief description of the nature and purposes of the intended solicitation and/or canvassing, including but not limited to the type of business and goods to be sold;
- g) The name and address of the applicant's employer; if self-employed it shall state;
- h) A disclosure whether the solicitor receives any wage, salary, percentage of donation or any other remuneration for solicitation activities;
- i) A recent photograph of the applicant. The picture shall be supplied by the applicant and be a 2"X2" showing the head and shoulders of the applicant in a clear distinguishing manner;
- j) If using a motor vehicle, the year, make, model, color, v.i.n., registration number, state of registration and vehicle owner's name and address;

At the time of filing the application, each applicant shall pay a fee of twenty five dollars (\$25).

The Police Chief may waive said fee at his discretion.

1.17.4 Investigation : Public Hearing and Issuance of License

Upon receipt of the application, the Chief of Police, or his designee, shall investigate the applicant's reputation as to a criminal record or any other record which might demonstrate the applicant as a danger to the public.

After an investigation, but within seven (7) business days of the filing of the application, the Chief of Police shall endorse on such application his approval or disapproval. Failure of the Police Chief to act on said application within seven (7) business days of the applicant's filing shall constitute an approval.

If disapproved, the applicant shall have the right of appeal to the Board of Selectmen which shall be requested in writing within seven (7) days of the denial by the Chief of Police. The Board of Selectmen must act upon the appeal at one of their next two regularly scheduled meetings.

Failure to act shall constitute an approval. If the applicant is aggrieved by the decision of the Board of Selectmen, the applicant may appeal to the Superior Court pursuant to MGL Chapter 249 section 4.

Such license when issued shall contain the signature of the Police Chief or the Board or Selectmen and shall show the name, address, a recent photograph of the licensee, the date of issuance, an expiration date, and the license number.

7.17.5 Licenses and Exemptions

Each solicitor is required to possess an individual license. Solicitors, when engaged in business of soliciting or canvassing, are to display the identifying badge issued by the Police Department. The badge shall be worn on an outer garment or otherwise prominently displayed so as to be easily readable by any person facing said solicitor.

Any solicitor representing any charitable, civic, or political cause or purpose who receives any wage, salary, percentage of donation, or other remuneration, shall inform each person being solicited that the solicitation is a "paid solicitation." Further, that such solicitor's license shall display prominently the words: "Paid Solicitor"

No license shall be transferred

No license shall be required for officers or employees of the Town, County, State or Federal Government when on official business.

No license shall be required for minors under the age of eighteen unless in connection with commercial activity.

No license shall be required by any candidate for public office, or any person representing a candidate for public office.

Each solicitor is required to personally report to the Duxbury police Station prior to engaging in any solicitation each day that the solicitor intends to solicit. The solicitor shall present his or her license to the Duxbury Police and shall advise the Police of (a) the location(s) of the intended solicitation activity; (b) the times that solicitation will be conducted;(c) the identity and registration number of any vehicle(s) that will be used in connection with the solicitation.

7.17.6 Revocation of License

The Chief of Police and the Board of Selectman are hereby vested with, jurisdiction over the revocation of licenses. Any person aggrieved by revocation may request a hearing before the Board of Selectmen, in writing, within seven(7) business days, and a hearing shall be scheduled for one of its next two regularly scheduled meetings. Any person aggrieved by a decision of the Board of Selectmen may appeal to the Superior Court pursuant to MGL Ch 249, section 4.

7.17.7 Expiration of a License

Each license issued under the provisions of this section shall continue in force for a period to be determined by the Chief of Police, not to exceed one year-unless sooner revoked.

7.17.8 Renewal of License

A license issued under the provision of this section may be renewed by the Chief of Police upon request by the applicant. An applicant requesting a renewal of a license must apply in person for such license renewal, and provide such information as required by Section 3 to obtain the initial license and must pay a fee of twenty-five dollars (\$25).

7.17.9 Misrepresentation

No solicitor licensed or exempted from license, may misrepresent, in any manner the buyer's right to cancel as stipulated by Chapters 93,93A and 255 of the General Laws. No solicitor, licensed or exempted from license, may use any play, scheme or ruse which misrepresents the true status or mission of the person making the call in order to gain admission to a prospective buyer's home, office or other establishment for the purpose of making a sale of goods or services.

7.17.10 Trespassing

It shall be unlawful for any solicitor to enter the premises of a person who has displayed a 'no trespassing" or "no soliciting" sign or poster. It shall be unlawful for solicitors to ignore a person's no solicitation directive or remain on private property after its owner or occupant has indicated that the solicitor is not welcome.

Accepted by the Attorney General May 31,2000 with 7.17.11 deleted-see below and "Penalty" section will be re-numbered 7.17.11:

7.17.11 Solicitation/Canvassing Times

There shall be no soliciting or canvassing between 6:00pm and 9:00am.

7.17.11 Penalty (Formerly 7.17.12)

Any person violating any provision of this section shall be subject to loss of the solicitation license and may be arrested without a warrant and upon conviction, be punished by a fine of not less than fifty dollars (\$50) nor more than one hundred dollars (\$100) for each and every offense.

Motion carried

Article 32-Moved, seconded and carried to indefinitely postpone.

Article 33-Moved and seconded that the Town vote to amend its Protective Bylaw by amending Section 406 entitled "Aquifer Protective Bylaw Overlay Districts under Article 400-Use Regulations by adding language that will bring the Bylaw into conformance with the DEP Wetland Protection Model Bylaw specifically amending the following subsections: and to make the following corrections in the warrant:

deleting the word "existing" in the first and second sentence of subsection 2 of section 406.3:

Section 406.3 Use Regulations by adding a second subsection entitled "2. Floor drains" and inserting the following language so that the new subheading reads as follows:

"2. Floor Drains. Any floor drainage system in facilities in industrial or commercial process areas or hazardous material and/or hazardous waste storage areas which discharges to the ground without a DEP permit or authorization is prohibited. Any facility with such a drainage system shall be required to either seal the floor drain (in accordance with the State Plumbing Code 248 CMR 2.00); connect the drain to a municipal sewer system (with all appropriate permits and pretreatment); or connect the drain to a holding tank meeting the requirements of all DEP regulations and policies."

And section 406.5 Special Permit Uses by adding a fourth and fifth item each with the respective following language:

- "4. Storage of commercial fertilizer, as defined in MGL Chapter 128, Section 64 provided such storage is within a structure designed to prevent the generation and escape of contaminated runoff or leachate.
- 5. Storage of animal manure provided such storage is covered or contained in accordance with the specifications of the U.S. Soil Conservation Service."

And Section 406.7 Design and Operations Guidelines by adding a fifth subheading so that the new subheading reads as follows:

"5. Earth Removal. The removal of soil, loam, sand gravel, or any other mineral substance shall not be permitted within four feet of the historical high groundwater table elevation (as determined from monitoring wells and historical water tables fluctuation data compiled by the U.S. Geological Survey) unless substances removed are re-deposited within forty-five (45) days on site to achieve a final grading greater than four (4) feet above the historical high water mark, and except for excavations for the construction of building foundations or the installation of utility works."

A report was given by the Planning Board.

A hearing was held by the Planning Board.

2/3 vote required.

Motion carried unanimously

Accepted by the Attorney General May 19,2000

Article 34-Moved and seconded that the Town vote to amend the Protective Bylaw by amending Section 805.1 under Article 800 Procedures and Regulations for Planned Development and Residential Cluster Development by deleting the words "If an applicant elects to submit a site analysis, said..." and replacing them with the word "The" so that Section 805.1 reads as follows:

"The applicant shall prepare and submit the following information concerning the proposed development site at the same time and in the same form as the preliminary qualification information."

A report was given by the Planning Board.

A hearing was held by the Planning Board.

2/3 vote required.

Motion carried unanimously

Article 35-Moved and seconded that the Town will vote to amend the Protective bylaw Section 703.5 entitled "Neighborhood Access" under Article 700 Design Standards for Planned Development and Residential Cluster Development by inserting a period after the word "permitted" in the second sentence and deleting the rest of the sentence after the word permitted" so that Section 703.5 reads as follows:

"No development shall reduce vehicular access to an existing neighborhood. The extension of existing cul-desac streets to serve a planned development or residential cluster development shall not be permitted."

A report was given by the Planning Board.

A hearing was held by the Planning Board.

2/3 vote required

Motion carried unanimously

Accepted by the Attorney General May 19, 2000

Article 36-Moved, seconded and carried to indefinitely postpone.

Article 37-Moved, seconded and carried to indefinitely postpone.

Article 38-Moved and seconded that the Town vote to amend the Protective Bylaw of the Town by amending Section 502 entitled "Schedule of Intensity and Dimensional Regulations (Cont.) Footnotes under 500 Intensity and Dimensional Regulations by adding the text "of upland", to subsection #9 so that subsection #9 now reads:

"9. 1 acre = 40,000 sq. ft. of upland"

A report was given by the Planning Board.

A hearing was held; 2/3 vote required

Motion carried unanimously

Accepted by the Attorney General May 19, 2000

Article 39-Moved and seconded that the Town vote to amend the Protective Bylaw of the Town of Duxbury by amending Section 302 entitled "Definitions" under Article 300 Definitions of Terms by changing the language in the last sentence of the definition for Lot Area by adding the text "nor shall any portion of its perimeter be counted toward meeting the frontage requirements" before the word "unless" so that the definition for Lot Area reads as follows:

"The horizontal area of the lot exclusive of any area in a public or private way open to the public uses. Land under any water body, bog, wet meadow or marsh, as defined in MGL, Ch 131,S 40, and as determined by the Conservation Commission, shall not be included in the lot are required for zoning compliance. If the distance between any two points on lot lines is less than fifty feet, measured in a straight line, the smaller portion of the lot as divided by that line, shall not be included in lot area nor shall any portion of its perimeter be counted toward meeting the frontage requirements unless the two points are separated by less than 150 feet along the lot line."

A report was given by the Planning Board.

A hearing was held; 2/3 vote required.

Motion carried unanimously, as declared by the Moderator

Accepted by the Attorney General May 19,2000

CABLE ADVISORY COMMITTEE

The Cable Advisory Committee assists the Board of Selectmen in administration of licenses between the Town of Duxbury and the cable communication providers. It supports and advises the Town in the negotiations of these contracts, and works as a liaison between the Town and the cable supplier in day-to-day operations. The cable committee oversees the operation of the Town's Public Access Channel and advocates for the Town's Government Channel. The advisory committee is the subscribers' ombudsman in dealings with the supplier.

The telecommunication environment in Southeastern Massachusetts is rapidly changing. Duxbury's committee meets with other cable committees in the region to foster exchange of ideas and information. In April, Duxbury hosted the regional meeting of town cable advisory committees. A representative from the Massachusetts Telecommunications and Energy Department, Cable Television Division spoke on state resources available to town cable committees. As an extension of this regional coalition, committee members of Marshfield, Pembroke, Kingston and Duxbury attend neighboring towns' committee meetings and communicate frequently.

Options for licensors is as rapidly changing as other facets of the telecommunication industry. At the monthly Cable Advisory Committee meeting in May, an attorney specializing in cable contract review and negotiations addressed the committee.

The committee monitors Duxbury cable customer satisfaction in areas such as broadcast quality, programming and service. On committee recommendation, the town has contracted with the University of Massachusetts to conduct a scientific survey of cable subscribers. The university will conduct the interviews in early 2001, and will deliver the final report with analysis in spring 2001. At that time, the committee will conduct an open forum to review the results of the study. The committee thanks Adelphia for its contribution of funds to help defray part of the cost of the project.

Late in 1999, Adelphia Communications, Inc. instituted a new billing system for Duxbury. The system proved to be an unfortunate experience for customers and corporation alike. Adelphia' Customer Service phone system was overwhelmed by calls on billing errors. Subscribers, frustrated by incorrect bills and unable to contact the corporation for even standard service calls, reported the situation to the committee. The Cable Advisory Committee, in turn, contacted the Cable Television Division of the state for guidance. The committee thanks the state division for working with Adelphia to stabilize this unusual situation, and for the division's continued oversight. Adelphia assures the committee that problems relating to the billing system have been resolved.

The present license requires Adelphia to provide a local access channel, studio and staff. The committee monitors studio-user satisfaction, and advises on purchase and upgrade of equipment. In 2000, the studio acquired a new digital camera and editing system. The studio staff has adapted its classes to include the use of the new equipment. The studio has expanded its locally originated programming. The Channel 13 viewers are familiar with the popular Young Adults Group filmmakers' programs and Oscar Night. The Public Eye, a new local news and general interest series, joins Professionally Speaking, Talking Wrestling and The Baptist Church Service, long time favorites.

- The Cable Advisory Committee welcomes two new members, Nancy Shine and Mary Beth MacQuarrie.
- The committee looks forward to working with Nancy O'Connell, new Station Manager, and David Dondero, new Assistant Station Manager.
- The committee thanks *The Duxbury Clipper* for providing space for the committee's popular newspaper column written by Anne Sheehan.
- The committee is grateful to community volunteers for making possible the broadcast the majority of the Selectmen's Meetings and a few Planning Board Meetings on the Town Government Channel (Channel 15). Anyone interested in participating in the broadcasts of any town committee meetings is encouraged to contact the Office of the Selectmen.
- Comments and suggestions are welcome. Please contact the Cable Advisory Committee through the Office of the Board of Selectmen. Citizens are encouraged to attend Cable Advisory Committee Meetings on the third Tuesday of each month in the Merry Room of the Duxbury Free Library or as posted.

Respectfully submitted, Lynn Smith, Chairman William Holmes, Recording Secretary Charles Vautrain (ad hoc)

John Sweeney, Vice Chairman Ann Sheehan, Corresponding Secretary Mary Beth MacQuarrie Robert Knapp Nancy Shine Richard Miller

CONSERVATION COMMISSION

The Duxbury Conservation Commission ("Commission") continues to maintain both stewardship responsibilities and use its regulatory authority to protect Duxbury's sensitive environmental resources.

In the regulatory area, the Commission implements the Massachusetts Protection Act and the Duxbury Wetlands Bylaw. Under a Conservation Commission Enforcement Order, a developer successfully completed the first phase of wetlands restoration at Freeman Farms off Elm Street. This work was mainly tree and brush replacement in the wetlands and buffer zone, which he had previously wrongfully removed. The Commission will monitor the area for three years to insure the completion of the work. The significant increase in wetland delineations suggests that property owners may be considering activity on parcels that had previously been considered undevelopable.

The following table summarizes this activity and compares it to previous years. Each of the activities below required one or more public hearings.

		1996	1997	1998	1999	2000	Comment
Notices of Intent		50	66	71	57	47	These are formal permits to control activities within 100 feet of Duxbury's protected wetland resource areas or within 200 feet of a river.
Determinations Applicability	of	33	34	35	31	46	This is a less formal process, which determines that the proposed activity will not require a full permit.
Certificates Compliance	of	40	37	45	34	35	This is the process which closes a permit upon successful completion of all required activities, within 3 years after the permit is issued.
Wetland Delineations		22	17	28	24	34	These are field inspections by the Conservation Administrator to determine the location of the wetland boundary by those seeking permits.
Permit Extensions		4	0	2	6	3	
Amended Permits		4	4	1	3	7	
Enforcement Orders		5	4	8	5	2	These are field formal citations by the Conservation Administrator, usually for disrupting wetlands.

The Town currently owns 2,180 acres of conservation land.

The Commission is focusing more of its effort on land management. The Commission began implementation of a formal land management plan for the Camp Wing conservation area after a public hearing on September 12, 2000. The first work included creation of new public access with several parking spaces and one mile of walking trails off Franklin Street. For the first time the Commission hired interns, Ken MacKenzie, Emily Hall, Mark Cabana and Doug Hurley, to work on conservation lands. Over 1,800 hours of work were performed during the summer and fall of 2000, which was very beneficial.

The Commission worked with Aquatic Control Technology, Inc., ENSR, and the Island Creek Pond Association to implement an experimental seeding program in Island Creek Pond. This involved reintroducing native plant species in an attempt to control weeds without use of herbicides or cutting.

Three Commissioners completed the MACC Fundamentals for Conservation Commissioners course (8 units) - Brendan Halligan, Anne Hill & Friend Weiler.

The Commission continues to acquire new conservation land, including 9.1 acres with a pond, woodland and a small cranberry bog off Congress Street. With the cooperation of the Stookey family, the Commission was able to acquire a small parcel off Standish Street providing a view of Eagle's Nest Cove and Duxbury Bay. Several appraisals were performed for the Commission in support of possible future land acquisitions. In addition, the Commissioners worked with the Selectmen and the Wildlands Trust to acquire and protect the new Town Green on the St. Margaret's property off Washington Street.

The Commission received two generous gifts for the Conservation Fund during the year, and wishes to thank the donors, the Island Creek Pond Association and a private donor.

The Conservation Commission again wishes to thank the Department of Public Works, Wally Tonaszuck, Peter Buttkus, and Paul Balboni and their crews for all the maintenance work they have performed on town conservation land.

The membership of the Commission remained stable over the past year and Arthur Vautrain became Chairman in July.

Respectfully submitted,

Arthur Vautrain, Chairman Sam Butcher, Vice Chairman Molly Bartlett Friend Weiler Brendan Halligan Anne Hill Mark Mahoney

PERSONNEL BOARD

The year 2000 saw significant changes in the composition of the Personnel Board with the resignation of 19-year member and Chairman William Albritton who moved out of state and will be sorely missed, and the appointment and resignation of Dorothy Leary, who also relocated.

The Board continued to work closely with the Town Manager on a number of issues including the preparation of an Employee Handbook outlining personnel policy and procedures; the evaluation of jobs to maintain pay equity and competitiveness, and providing advice to the Town Manager on personnel issues and the interpretation of governmental regulations. The Board members also screened resumes for the position of Library Director.

Respectfully submitted,

Paul McDonough, Chairman Joanne Duffy Nan O'Neill Martin Campbell Wayne Heward

OPEN SPACE AND RECREATION PLANNING COMMITTEE

In keeping with the **1997 Open Space Plan**, the Open Space Committee focused its attention on the development of a management plan for Conservation and Town owned open space. Given the scope of this project, the Committee has been working closely with the Conservation Commission and drawing upon the expertise of a number of people to identify the best management practices for these properties.

Jim Spinale, who has been in the process of developing an extensive inventory of the wildlife and soil types on Conservation land, met with the Committee and made recommendations for the expansion of the trail network. The Committee also enjoyed a walk on the Trout Farm properties with forester Phil Benjamin, who reviewed the history of the property and gave his opinion on the management of that property. In February, the Committee had the pleasure of meeting with Jessica Schultz of The Wildlands Trust of Southeastern Massachusetts, who discussed the preliminary management plan for Camp Wing. As soon as more favorable weather appeared, the Committee visited The Wildlands Trust's Willowbrook Farm in Pembroke to get a firsthand look at the trail system and tower. Further discussion ensued on the best approach to developing a management plan and these discussions will continue into the following year.

In the spring, the Committee and volunteers thinned and cleaned up the scenic Swanson property. On a spectacular day in October, the Open Space Committee and the Duxbury Rural & Historical Society sponsored the Fall Foliage Fiesta at the East Street Cranberry Bogs. At least 60 people came out for this event and Stan Merry gave a colorful history of the cranberry industry.

David Hines was appointed to the Committee and assumed the dual role as chairman of the Land Acquisition Task Force. In the fall, David's committee produced an outstanding report with recommendations to the Selectmen, and again presented their findings to the public at the Duxbury Free Library. The Land Acquisition Task Force recommended that the Town adopt the Community Preservation Act as a means of generating revenue for the preservation of open space, historical structures and landscapes, and community/senior housing. The Open Space Committee looks forward to further discussion with David in early January.

The Committee wishes to thank former members Karen Grey and John Keogh for their numerous contributions and commitment to the tasks at hand during their tenure.

Lastly, the Open Space Committee commends Pat Loring for her outstanding leadership and invaluable contributions as Chairman since 1995. Pat led the Committee through the development and completion of the well-received 1997 Open Space Plan. In 1998, Pat orchestrated the Committee's support to the Conservation Commission for the successful acquisition of the Camp Wing, McArthur, and Swanson properties. The Open Space Committee looks forward to broadening the communication and collaboration that Pat has championed with the Board of Selectmen, the Planning Board, the Conservation Commission, and other government and non-government organizations for the protection of Duxbury's open space.

Respectfully submitted, Holly Morris, Chair Roger Erickson David Hines

Patricia Loring John Pechalonis Richard Rothschild

COMPREHENSIVE PLANNING/ZONING BYLAW IMPLEMENTATION COMMITTEE

The Committee operates under the auspices of the Planning Board and includes representatives from the Planning Board, Zoning Board of Appeals, Board of Selectmen, Conservation Commission, Board of Health, Design Review Board, and citizenry at large. The Committee has been charged with the following objectives:

- 1. To develop modifications to the Zoning Bylaw which will substantially reduce the final buildout density "built in" to the Zoning Bylaw.
- 2. To add controls for both neighborhood business district development and residential development that will make the Zoning Bylaw more consistent with the desires of the overwhelming majority of the citizens of Duxbury as reflected in the 1999 Comprehensive plan.
- 3. To use this opportunity to do a broad revision of the Zoning Bylaw as a whole, making it more internally consistent and more up-to-date.

The committee began meeting in June 2000. All members bring a lot to the table with our various backgrounds, and the discussions have been productive. We have reviewed materials and held in-depth discussions on the following issues:

- Density reduction and preservation of open space
- Water resource and wellhead protection issues
- Existing parcels zoned Planned Development and the attributes of each
- Housing diversification, including a presentation on affordable housing by Steve Dubuque from South Shore Housing
- Mansionization and tear downs, including participation by Jody Hall from the Historical Commission
- Conservation Subdivision Design as an alternative to conventional development
- Design guidelines in neighborhood business districts
- Site Plan Review

The future protection of water quality and quantity has been a key focus of our discussion and will provide the basis for our ultimate recommendations regarding reduced density. We are especially concerned with activity in the Aquifer Protection Overlay District. We seek to reduce density while mitigating impacts on existing housing stock and affordability as much as possible. New, creative approaches to diversified housing, as well as development designs that minimize sprawl are being explored. In January 2001 we will begin working with a consultant to develop proposals for changes to the Zoning Bylaw to be presented at a future Town Meeting. Meetings are held on alternate Tuesday and Wednesday evenings and are open to the public; we encourage all interested to attend.

Respectfully submitted,

Bridget O'Keefe, Chair Tom Broadrick, Ex-Officio Mark Mahoney Michael Okola Thomas Tucker George Wadsworth, Vice-Chair James Lampert Andre Martecchini Ruth Rowley Beverly Walters

William Billingham, Clerk Amy McNab Dennis Nolan Michael McShane

PLANNING BOARD

The Year 2000 was the fifth year of more than just "business as usual". In 1996 we revised the Rules and Regulations Governing the Subdivision of Land. In 1997 we began work on the first update to Duxbury's Comprehensive Master Plan since 1973. In 1998 we completed the Comprehensive Master Plan. In 1999 we adopted the completed Comprehensive Master Plan as the guiding document for development in Town. In 2000 we began work on its implementation.

The Comprehensive Master Plan spells out the Town's goals and policies for land use, housing, economic development, natural resources, open space, services, and traffic circulation. This formal statement of Duxbury's policies for planning, growth, and development relate to all Town Departments, defining a framework for reasonable growth while preserving and protecting the unique character and quality of the Town of Duxbury.

With the establishment of the Comprehensive Plan and Zoning Bylaw Implementation Committee (CPZBIC) we have begun the process of amending the Zoning Bylaw -- the key legal foundation of the Comprehensive Master Plan's implementation. This important committee was created by the Planning Board and Board of Selectmen with individual appointments made by major land use boards and commissions. The thirteen-member Committee made great strides in 2000 and with the help of Planning Board funds, will soon hire a consultant to assist with this major task. We repeat that with the arrival of the train from Boston, the next decade will be decisive for Duxbury's future. If we are to maintain the charming, semi-rural character of the Town, then our Zoning Bylaw and other Town regulations must be made consistent with the Comprehensive Master Plan. This is our key priority for 2001 and begins the second "five year" phase of the Planning Board's "More Than Just Business As Usual" agenda.

Of course, we did a great deal of business as usual in 2000 as well. We denied 3 preliminary subdivision plans with a total of 26 lots; approved 1 definitive plan creating 9 new lots; approved 1 modification and denied 1 modification to existing subdivisions; and determined that 12 plans (creating 25 new lots) were "approval not required" (ANR) plans as defined by Massachusetts Law. Plans denied included 1 submitted as ANR plan but which was found to be a subdivision and therefore require the full approval process. Finally, 1 ANR plan was withdrawn by the applicant.

As in the prior four years, the Duxbury Planning Board continued to enjoy an extraordinary spirit of teamwork and cooperation among our Members. While we do not all agree on every issue, we respect one other and enjoy working together. We look forward to working with all Town Boards, Committees, Commissions, and Town Hall staff toward implementation of the 1999 Comprehensive Master Plan.

The 2000 Town Election included only one contest for a five-year seat, which found incumbent David J. Matthews easily, re-elected. The Board again elected Peter F. Donahue as Chairman, switched George D. Wadsworth to Vice-Chairman from the Clerk's position and selected David J. Matthews as Clerk. Again we are pleased to note that this year marks the *second consecutive time in more than a decade* that the membership of the Board has remained identical to what it was the previous year. This degree of continuity gives the Board an understanding of the issues and processes necessary to continue with "Phase 2" of its "More Than Just Business As Usual" agenda.

Thanks to Chairman Peter Donahue's continued leadership; to the essential and much appreciated professional support of Duxbury Planning Director Thomas A. Broadrick, AICP and Assistant, Barbara Ripley; and to the active, concerned participation of all our Members, the Duxbury Planning Board enjoyed another year of exceptional achievement in 2000. We look enthusiastically forward to 2001 as well.

Respectfully submitted,

Peter F. Donahue, Chairman George D. Wadsworth, Vice Chairman David J. Matthews, Clerk Amy M. MacNab Ann S. Weld Robert G. Wilson William F. Zachmann

HISTORICAL COMMISSION

Established under Chapter 40, Section 8d of the Massachusetts General Laws, Local Historical Commissions function under the guidance of the Massachusetts Historical Commission and are part of a wider movement to preserve and protect our national heritage.

The primary responsibility of a local historic commission is the identification, documentation and protection of the community's historical resources. The Commission is mandated to work with other groups, both private and public, to foster Historic Preservation and alert them to issues that threaten local historic sites or character. Our goal is to increase awareness of the community's heritage and of the value of historic preservation.

In accordance with Section 609 of the Zoning Bylaws of the Town of Duxbury, the Historical Commission has received and acted upon six (6) applications for demolition of the following historic structures:

644 Washington St. (detached wooden garage);

670 Washington St. (the attached barn/garage portion of the "Cable House");

153 Surplus St. (covered porch and single story rear ell);

46 Standish St. (re-application for previously (1998) approved demolition);

197 Bay Road (side porch);

277 Parks St. (entire structure).

Of these six structures, a public hearing was held for 670 Washington Street.

The Historical Commission with the cooperation of the Director of Inspectional Services now reviews all demolition applications received by the Department of Inspectional Services. In the case of structures 75 years or older, the required Historical Commission demolition application is also reviewed and acted upon. This helps to ensure that no significant properties are demolished without our knowledge.

Members of the Commission have attended and participated in a variety of conferences and workshops dedicated to historic preservation. Patricia Loring, Chair of the Open Space Committee, attended a commission meeting to share information pertinent to our common interests.

The educational brochure the Commission is developing will be available in February 2001. The commission is also preparing a Preservation Forum to be held in February.

The Duxbury Historical Commission hosted a meeting of the South Shore Historical Commissions on March 18, 2000. Communities represented were Marshfield, Plymouth, Weymouth, Norwell and Rockland. The speaker was Charles Sullivan of the Cambridge Historical Commission.

In 1999, the Duxbury Historical Commission applied for and was awarded a grant by the Massachusetts Historical Commission for the purpose of surveying historic properties in the Town of Duxbury. The preliminary survey was completed in May of 2000 by preservation consultant Ned Connors. Karen Davis, Consultant, completed phase I. The preliminary list developed by Ned Connors was reviewed and modified. An initial report/property list was submitted by Ms. Davis in October and by November the remaining Phase I products were submitted, including a draft inventory form for the Tarkiln School; a draft area form for the Ocean Avenue cottages; the methodology; the working bibliography.

Respectfully submitted,

Josephine M. Hall, Co Chair, Duxbury Historical Commission

TOWN HISTORIAN

Over the course of the year 2000, there was a noticeable increase in local residents' interest and concern in preservation and conservation. As a result, I worked on a variety of inquiries, ranging from the town's changing attitudes towards horseshoe crabs to the story of the Chilean branch of the Delano family, descendents of Philip Delano, one of Duxbury's first settlers.

As in past years I was active with the Duxbury Rural and Historical Society as a member of the Publications Committee. I indexed the society's new editions of Dorothy Wentworth's fine town histories, Settlement and Growth of Duxbury and The Alden Family in the Alden House, a process which increased my already strong admiration of Mrs. Wentworth. At the present time the Publications Committee is working with the Duxbury Garden Club on a wildflower book to be published later this year.

I also served on the society's Library and Archives Committee and was pleased to assist the consultants working for the Historical Commission with locating helpful information. I was a member of the society's Strategic Planning Committee, working on goals and objectives for the society.

Respectfully submitted,

Katherine H. Pillsbury

FIRST NITE

The First Nite committee appropriated \$5,000 at the March 2000 Town Meeting in anticipation of making First Nite a community tradition. The second annual celebration featured over 50 concurrent hours of music and activities and included performances by the Tsuji Daiko Japanese drums, Center Stage Dance Troupe, New Sensation, and Partners in Crime. There were luminaries, athletic activities, movies, a "velcro" wall, a classical music series, a myriad of family activities, and a special guest appearance by Duxbury's jazz great, Rebecca Parris. The event ran smoothly and those who attended had a great time.

The committee enjoyed planning the event but, unfortunately, attendance was approximately 1,500 - compared with 3,000 last year. This decrease may have resulted from a much-hyped Nor'easter (that fizzled) or from reduced worries about leaving home (Y2k is over-it's safe to fly again), but the committee is unsure whether the event will be viable as an annual tradition.

Special thanks to: The Cornerstone Lodge, Jeff Goldman, Leslie Badger, the Pilgrim Skating Club, Duxbury Public Schools, South Shore Conservatory, Ed Sorrentino, Sarah Treisbergs, the National Honor Society, and the Plymouth Community Intermediate School (PCIS) 7th grade silver team as well as all those who helped out during the evening of the event. Thanks to Karen and Paul Mellen for joining us this year, and to Dana and Doug Southall for stepping up when we needed it most.

Respectfully submitted,

Barry Wirt, Chairman Sheryl Strother and John Badger, Entertainment Co-chairs

DUXBURY BEACH COMMITTEE

The Duxbury Beach Committee was created by Town Meeting in 1986 and increased from 9 to 12 members at the 1997 Town Meeting, (see Duxbury General by-laws, 6.6.1 and 6.6.2). Its principal charge is to advise the Selectmen, Town Manager, Finance Committee and other relevant agencies on matters pertaining to the leased portion of the Beach and the proper maintenance of the Powder Point Bridge. The committee must also prepare a Beach Management Plan for the state every five years. This is a requirement of the endangered species act, which is enforced by federal state and local environmental agencies. The Duxbury Beach Reservation has invested a considerable amount of time and finances in this effort and therefore we have what may be considered one of the best plans in the state. The successful application of this plan is carried out by our Harbor Master, Donald Beers, and his staff.

The Beach Committee has been represented on the Town Beach Sticker Team and the Town Beach Technical Committee. We also generated an emergency response plan, which involved collecting data from those involved in previous storm emergencies at the beach, in hopes of providing a useful reference in the event of future beach emergencies. We have also collected information relating to Coastal Oil Spills. This allowed us to generate a brief response guide which we hope will be helpful in the event of such a tragedy.

Three members of this committee served on the Town Manager's "Beach Sticker Team", along with town officials and other residents. This team tried to address some of the real and perceived concerns relating to the beach access and sticker sales. Recommendations were made to the selectmen and resulted in changes to beach policies this past summer. Mr. Longo did a masterful job in shepherding this volatile group to some useful conclusions.

Committee members will continue to develop data on the following subjects: Beach Technical Committee, Mass. Audubon, Plymouth Beach Committee, The Powder Point Bridge, State Eminent Domain Taking of Beaches, Emergency Response Plan, and Beach Maintenance.

The committee worked with our Harbormaster, Donald Beers, on upgrading the "Welcome to Duxbury Beach" list of regulations that is issued with the purchase of beach stickers.

The committee will miss Greg Auda and Kathy Brown. Personal time restraints were the cause of their resignations. Kathy was our Gurnet Road representative and kept us advised of the concerns of the residents of that area. Greg was one of our members who served on the Beach Sticker Team collecting useful data on area beaches. Kathy was replaced by Bill Benjes, and Greg was replaced by Stephen Woodworth. We are also pleased to welcome Molly Bartlett who will be representing the Conservation Commission at our meetings.

The Massachusetts Beach Buggy Association has been represented by Angela and David Coggon, although they are not members, they regularly attend our meetings and are a valuable resource.

The Duxbury Beach Committee:

Ex officio: Don Beers, Harbormaster; Molly Bartlett, Conservation; Mark DeLuca, Police Chief

Reservation: John Nash (Cochairman); Kay Foster; Michael Mclaughlin

Residents: Daniel Baker (Cochairman); Karen Butcher (Secretary); Bill Benjes (Gurnet Road); Harriet

Nichols; Susanna Sheehan; Stephen Woodworth

FIRE DEPARTMENT

The year 2000 was both exciting and challenging for members of the Duxbury Fire Department. During the year we responded to 1,642 emergency incidents. This was the fifth consecutive year that our emergency run total exceeded 1,600. We anticipate that trend to continue with the growth of our community.

There were several serious fires during the year, including a large brush fire on Birch Street that burned nearly 50 acres of brush and grass. Apparatus from as far away as Hingham, Rockland, Abington and Whitman were called to assist Duxbury crews with this very difficult fire. We also had several serious building fires during the year that challenged our crews and taxed our resources. Two of those building fires resulted in two Duxbury firefighters sustaining serious injuries.

Certainly the high point of the year was the opening of the Ashdod Fire Station on May 26, 2000. After ten years of being closed, this station now has two firefighters stationed there around the clock, staffing a fire engine and an ambulance. This project was brought to completion through the efforts of a citizen committee who worked tirelessly with Town officials to determine the best location for the station, assist with the design process, and helping to secure funding for the rebuilding of the station, and funding to hire additional personnel. The effort was highlighted by a grand opening ceremony at the new fire station on April 29, 2000 with several hundred citizens stopping in to see this facility.

The new ambulance that was approved at the 2000 March Annual Town Meeting arrived in December. It is now in service at the new Ashdod Fire Station. Also, the new Command Car that was approved at the 2000 Town Meeting was put into service in August. The addition of these two new vehicles provides a substantial upgrade to our fleet of smaller vehicles. This year we will be asking voters at the Annual Town Meeting to approve the purchase of a new pumping engine to replace a 1978 pumper.

I would like to extend our thanks to the citizens of Duxbury who support the fire department and its members throughout the year in so many ways. That support is appreciated by all of the members of your fire department. We will continue to provide quality fire protection and emergency medical services in an effort to maintain that support.

I would also like to thank all of the managers and employees of all other Town departments that we work so closely with during the year. My special thanks go out to the men and women of the Duxbury Fire Department who do such an outstanding job for our community each and every day.

Respectfully submitted,

William J. Harriman Fire Chief

HARBORMASTER

The weather this year was anything but cooperative during the peak season. However the spring and fall were great extending the season at both ends. The department had a very busy year in 2000.

The Harbormaster Patrol Boat Marine Unit 1, the 24 foot Coastal, had routine repairs and maintenance and launched on the first of April. She was hauled in mid December. Patrol Boat Marine Unit 2, the 21-foot outboard, was stationed at Mattakeesett Court last winter on a trailer and attached to a department vehicle. This enables an emergency response in a moment's notice during the off season. This vessel was launched in late March after general maintenance and repair and hauled for winter operations at the end of November and stationed at the waterfront. Marine Unit 3, the 16-year old 17 foot McKee Craft, had routine repairs completed in the spring and launched in April. This vessel was hauled in November. The new patrol boat approved at the annual town meeting arrived in August and was pressed in service. The new boat is an 18 foot ridged bottom inflatable out board. The new boat came complete with radar, GPS, radios and trailer. This vessel was hauled in late December and is now stationed at Mattakessett Ct attached to a department vehicle for a quick emergency response. All the patrol boats had a very busy season and operated without a flaw.

The department repaired, rebuilt and secured day marks, speed buoys, aids to navigation and swim buoys on location starting in early May into June, and were completely hauled in late December. The town floats were secured on location starting in April. With the exception of one float that is in for the winter, all were hauled out by late November. The town received 2 new tender floats in July as authorized by town meeting but remained at the boat yard for storage. It would have been much to disruptive to dismantle the waterfront during the peak season.

The schooner "Spirit of Massachusetts" visited Duxbury for the Memorial Day weekend. This event was sponsored by the Duxbury Bay Maritime Academy and included many waterfront activities, including tours of the ship and the opportunity to sail on her during the weekend event. Her berth for the weekend was the Town Pier and Float facility. As you can imagine, a visit from a vessel of this size and draft (125 feet L.O.A./Draft 12 feet) poses a lot of thought and consideration. All went very well and the weather cooperated all weekend long. We hope a tall ship visit can be an annual event. It's a great way to start the season.

The department was involved in countless search and rescue operations that included emergency medical responses, possible drownings, missing persons, capsized vessels, vessels taking on water, boat fires, overdue vessels etc. Departmental high visibility patrols, both on land and water, at all hours of the day and night, including outlying anchorage's, were very effective against any kind of theft or crime along our shores. These high visibility patrols were carefully coordinated with the Police Department. Many coastal communities are plagued with these incidents; however, we seem to be very fortunate. Violations of the Harbor Rules and Regulations, including State boating laws, were again very low this year. The department's high visibility patrols are very successful in keeping these activities in check.

Most of those encountered along Duxbury's coastline appeared to be enjoying this bountiful natural resource area and all she has to offer. The department personnel thank all the boards and committees, town departments and Duxbury residents for making this such a successful year.

Respectfully submitted,

Donald C. Beers, Harbormaster

BEACH OPERATIONS

The weather this year was anything but cooperative during the peak season. However, the spring and fall weather was great, extending the season at both ends. This division of the Harbormaster / Coastal Natural Resources Department had a busy year in 2000. This division's tasks and strategies are effectively in place, capitalizing on a well-coordinated effort along this shore and bordering waterways. Qualified and trained personnel are required to perform assignments inclusive to the entire department's operational goals and functions. Department shift strategies and the deployment of personnel and equipment are developed around access activities. All patrols, both on the shore of the beach and marine, are initiated at all hours of the day and night, and are carefully coordinated within our own ranks and the Police Department.

Other than public safety services, another primary task is to manage and orchestrate safe and reasonable access within the beach region. This guest access includes pedestrians, motor vehicles (parking lot and off-road), watercraft and riders on horseback. Access is encouraged year-round. Aside from peak season access with its obvious lure, the off-season is rather unique in all it has to offer. With mild off-season weather, this access becomes very popular. The off-season provides seclusion and privacy. It also shows the guest first-hand how this incredible summer recreation area turns abruptly into our natural breakwater in the never-ending transition to protect us from the Atlantic.

In 1993, the department developed the Endangered Species Protection Program. This program is funded in large part by a grant established by the Duxbury Beach Reservation, Inc., and is augmented by department personnel and equipment. The purpose of this program is to develop reasonable, safe and appropriate access, while in turn protecting the endangered species and their habitat. Endangered species on Duxbury Beach include the Piping Plover and Least Tern, which are protected by Federal and State laws. This unique management program is strongly encouraged by the Commonwealth to protect these threatened species because of the uses and types of access within this region. Without this unique and aggressive program, it is very likely that conflicts between use and access and the protected species would force severe restrictions and extensive closures within the beach region. Most beaches within the Commonwealth that do not have this progressive program are forced to close or severely restrict access and activities when endangered species are present.

The department is also working closely with the Reservations consultants, with an ongoing study of use and access, and the natural make-up of this barrier. Everything is being studied and continues to provide a very comprehensive view of the beach.

In 2000 we again had a mild weather pattern during the fall, winter and spring. This gave the beach region yet another year to gain some much-needed ground in preparation for future storms. Unfortunately the weather during the peak season was not perfect. However, spring and this fall were outstanding providing perfect off-season access. It was not unusual to find many guests on Duxbury Beach at night, enjoying this splendid summer access. Activities are a bit different from daytime in that they include more of a "cookout" atmosphere. This night access does created a trash and garbage issue that was solved by instituting department directives on trash removal and supplying the department with a trash container to service the beach and waterfront.

The beach region played host to the annual Fourth of July bonfire, and this year, fire works, sponsored by the Duxbury 4th of July Committee. Also, this year the Department was instructed to split the 500 ORV beach count to allow 250 resident and 250 non-resident vehicles. At first we were very concerned as to how it would work. However, it was accepted by the guest and worked very well. The department is very fortunate that our guests are very well informed and extremely appreciative and protective of the beach region and all it has to offer. It is very rare today to have any incidents that effect public safety or the quality or enjoyment of this magnificent natural resources area.

The department has a new Web site, <u>www.duxburyharbormaster.org</u>. The intent is to provide as much information as possible. Everyone is encouraged to use it.

I would like to thank the personnel of this department, other town departments, committees, boards, agencies, the Duxbury Beach Reservation and citizens that made 2000 so enjoyable and successful. We appreciate your continued trust, assistance and guidance with this department's endeavors.

Respectfully submitted, Donald C. Beers, Harbormaster

SHELLFISH CONSTABLE

The Shellfish Department was very busy in 2000. The attractiveness of Duxbury Bay and adjacent waters and its bountiful natural resources make our shores very popular. Residents and non-residents alike took advantage of monthly shellfish seasons. The outstanding condition and abundance of our shellfish resources make Duxbury a very important resource area in the Commonwealth

The mild winter of 2000 enabled increased harvesting access. The good weather, coupled with our plentiful shellfish resources, made this activity very popular. 2000 marked the forth year in a row that the Town was able to extend bonus seasons on both recreational and commercial harvesting of certain types of shellfish throughout the year. The recreational harvesting of soft-shelled clams (steamers) was extended beyond the routine annual seasons of April / May and September / October to include all remaining months.

Commercial harvesting activities were also extended to include seasons that ran concurrently with those of the recreational harvest. It is important to note that only <u>residents</u> of the Town of Duxbury are allowed to take part in commercial shellfish activities. Proper shellfish management includes the thinning out of overpopulated species, which have included soft-shelled clams (steamers). Soft-shell clams were at a high cycle, which requires thinning in order to lessen the likelihood of devastating diseases or blight that could reduce the numbers of these types of shellfish in years to come. The recreational harvesting of quahog, razor clam, mussel and sea clam was also very popular. Attaining one's limit is never a problem. Again the commercial landings of mussel and razor clam was low. Because of natural events and cycles, reductions in commercial and recreational landings and activities are common, and are likely to result in greater populations of other competing shellfish species. This is a normal and natural process that is anticipated as part of our shellfish management plan. In most cases, daily patrols and surveys indicate abundant populations of shellfish resources.

As expected, the sale of shellfish permits was high this year. Shellfish harvesting in Duxbury is a regionally popular activity. Shellfish violations were minimal. Shellfish violations include: digging out of season; harvesting without a permit or license; harvesting in closed or restricted areas; use of illegal tools; harvesting undersized shellfish and harvesting over bag limits. The Department's rigorous high visibility patrols and enforcement policies, coupled with well-informed harvesters, attribute not only to decreasing violations but an overwhelming concern for the resources.

The Department works closely with the Massachusetts Division of Marine Fisheries, the Duxbury Board of Health and the Conservation Commission to insure and improve Duxbury's coastal water quality. Presently, the Division of Marine Fisheries and this department are involved in a unique program that conditionally reopens large tracts of shores that were once considered permanently closed to shellfish harvesting. This program initiates shore surveys, aggressive water sampling and daily rainfall monitoring to enable reopenings when possible. This partnership of government agencies provides a tremendous effort to protect and utilize these very valuable natural resources.

With the provisions of our Shellfish Management Plan and the efforts of all involved, this wonderful natural resource will continue being a tremendous asset and tribute to this coastal community. It was a tremendous year for this department and for those we encountered on our shoreline. I would like to thank the citizens of Duxbury, and the Boards, Committees, Departments and Agencies that made 2000 so successful and enjoyable.

Respectfully submitted, Donald C. Beers, Shellfish Constable

SHELLFISH ADVISORY COMMITTEE

The Shellfish Advisory Committee had a busy year in 2000. The activities of the committee included advising the Board of Selectmen on many very important matters. They included but were not limited to:

- 1. Requesting approval of bonus shellfish seasons for the commercial harvesting of soft shell clams and quahog, including the harvest areas, quantity limits, method of access, etc.
- Requesting approval for bonus shellfish seasons on the recreational harvesting of soft shell clams.
 <u>Please note:</u> Both of these bonus season requests (commercial and recreational) continued throughout the year.
- 3. Reviewing the shellfish aqua cultural grant program including the rules and regulations and procedures. Please note: that the Board of Selectmen approved a moritorium on the issuance of Shellfish Aqua cultural Grants in Duxbury. This moritorium would allow the Shellfish Advisory Committee the opportunity to visit the Shellfish Management Plan, special shellfish rules, regulations and procedures to insure the best interests of the Town of Duxbury. The committee has met regularly and worked hard on this task. There has also been a tremendous amount of public participation. There is a lot of interest. It's been a good process.

The members of the committee look forward to the upcoming year and appreciate your support and guidance. Thank you.

Respectfully submitted,

Shellfish Advisory Committee

WATERFRONT ADVISORY COMMITTEE

The Waterfront Advisory Committee had a quiet year in 2000. The hard work of the committee in 1997 to review, amend and recommend to the Board of Selectmen the new Duxbury Harbor Rules and Regulations are in good standing. The committee did meet to create the town's new mooring service policy and procedures. This policy was created to insure the safety of our shore facilities and mooring fields. The committee further met to discuss mooring designs to help reduce moored vessel conflicts within the outside anchorage A-C rows. Certain wind and tide condition creates this situation. Mooring owners effected by this phenomenon were notified of the committees concern and investigation in to possible solutions.

The committee members look forward to the coming year and appreciate your continued support and guidance.

Respectfully submitted

Donald C. Beers, Harbormaster For the Waterfront Advisory Committee

HIGHWAY SAFETY ADVISORY COMMITTEE

The Highway Safety Advisory Committee completed another successful year in 2000. This year the construction of the new roundabout at Lincoln Street, West Street (Route 14) and Route 3 was substantially completed with the funding for the engineering and construction phases provided by the Massachusetts Highway Department. P.A. Landers, Inc. of Hanover constructed the improvements including the guardrails, retaining walls and signage to go along with the new pavements. The new intersection has brought a marked change to the driving habits of the travelers of this intersection, one that should improve the safety in this busy area of town. Initial feedback has been very positive. Final landscaping and lighting will be in place in 2001. What many drivers have labeled the most dangerous intersection in Duxbury can now be driven in a safer and much more efficient manner.

After an extensive study of the parking in and around the Powder Point Ave. and King Caesar Road area of town, the committee determined that the existing signage did not reflect the Rules and Orders of the town and that over the past 10 years, there have been no safety issues. After considerable discussion and public meetings, the Board of Selectman voted, with restrictions, to ban on-street parking in the area to include Powder Point Ave., King Caesar Road, and the interior streets of this area.

Traffic counts and speed tubes were set in various areas of town as needed and requested. Jeff Lewis continued to provide the technical effort in setting up the counter and acquiring the data to input our modem computerized base. Many streets and intersections have been surveyed with others to follow.

A sidewalk on Chestnut Street was another positive subject addressed in 2000. With Town Meeting appropriation in March 2000 and the diligent efforts of the new sidewalk committee, significant labor was put forth to study this busy street. Care and consideration were taken to design the sidewalk with minimal changes to the landscaping. The design is complete, trees have been removed and the work has started. Most of the drainage work was completed in the fall of 2000 with the balance of the work scheduled for the spring of 2001.

Other topics addressed this year by the committee include improvements to the intersections of Keene/Myrtle Streets (started in 1999), continued study at Bailey's Corner (Rt. 3A and Chestnut Street), Cox's Comer (Rt. 3A/Rt 139), Winter Street, St. George Street and Railroad Ave, Wadsworth Playground, and Lincoln and Temple Streets.

The Committee wishes to thank Town Manager Rocco Longo, The Board of Selectman, and the Police, Fire, and Public Works Departments for their continued assistance and cooperation for a very productive year. Officer Friend Weiler has replaced Officer Cully Rossi as the Police Department representative to the Committee. We wish to thank Officer Rossi for his years of professionalism and dedication to the town and the committee.

We look forward to a challenging 2001.

Respectfully submitted, Joe Shea, Chairman Linda Garrity, Clerk Jeff Lewis Diane Bartlett

Paul Brogna, Parking Hearing Officer Wally Tonaszuck, DPW Director Friend Weiler, Police Safety Officer William Harriman, Fire Chief

INSPECTIONAL SERVICES

The Inspectional Services Department offers this report for inclusion into the 2000 Town of Duxbury Annual Report.

Estimated construction costs of seventeen million dollars showed a decrease of two million dollars from last year's costs.

The statistical section of this report breaks down the types of construction. Twenty-seven new homes were permitted this year.

North Hill Country Club and the new medical building are close to completion and our new Senior Center is underway.

I would like to commend the Inspectional Services staff for outstanding work this year given the workload and demands during this economic boom and the support they give me, the Zoning Board of Appeals and the Board of Health.

Finally, to the Board of Selectmen and the Town Manager for the support given to the Inspectional Services Department which allows us to remain progressive and to continue to offer quality service to the public.

Respectfully submitted,

Richard R. MacDonald Director of Inspectional Services

BOARD OF HEALTH

The Board of Health consists of five members appointed for three-year terms by the Selectman. The Board of Health oversees the licensing, approval and inspection of septic systems, restaurants, semi-public and public swimming pools, and recreational camps for children.

This year the Selectmen re-appointed Rebecca Chin and Thomas O'Regan to three-year terms.

Engineering plans for the Bay Road septic project were submitted to and approved by the Department of Environmental Protection.

The Septic Management Loan Program received an additional \$200,000 interest-free loan for failed septic systems from the Commonwealth of Massachusetts. The Board of Health approved use of the loan funds for Hick's Point Road (West Side) and the Bay Road home at the corner of Hick's Point. The owners of these properties have not yet applied for loans from the program for their failed systems. These properties are the last of the level 1 properties of Bay Road Project. Loan funds not used by the Hick's Point Road Bay Road property owners will be available to applicants whose septic systems have failed. The amount available will be known in February, 2001.

The Board voted unanimously to support Article 47 at the annual town meeting in March, 2000, to stockpile Potassium Iodide for schools and shelters. The article passed overwhelmingly. Rebecca Chin and Tom O'Regan are the BOH representatives on the Nuclear Advisory Committee. They thank Fire Chief Bill Harriman for his leadership in this very important project.

Changes to Supplementary Rules & Regulation to Title 5 were implemented July 1, 2000.

The public expressed concerns this year about West Nile Virus. One dead crow found on King Phillips Path had the virus. The Department of Public Health will again advise this board and the town during the mosquito season.

Public "Flu Clinics" were held in November. After the clinics, the remaining vaccine was dispensed at the CURA offices in Plymouth at its regularly scheduled clinics.

The Board appreciates the support and assistance of the Board of Selectmen, Conservation Commission, Planning Board, the Board of Assessors and all town offices and agencies.

Respectfully submitted,

William Billingham, Chair Jerome Janousek Thomas O'Regan Rebecca Chin Darren Meyer

ZONING BOARD OF APPEALS

The Zoning Board of Appeals consists of five members: James B. Lampert, Chairman; Stephen Jones, Vice-Chairman; Elizabeth Lewis, Clerk; Jack Canty, and Thomas Tucker, with six (6) Alternate Members consisting of: Paul Kalous, Wendy Keleher, Thomas McClure, Mary Jo Pierce, Ken Shine and Sally Wilson.

The Zoning Board of Appeals accepted 14 petitions of which 3 were approved, 3 were denied, 1 petition was withdrawn, 2 petitions were continued into 2001, 4 petitions filed this year will be heard in 2001, one petition is awaiting the Planning Board's recommendation of "data complete" prior to the ZBA holding a public hearing, and one denial was appealed.

Respectfully submitted,

James B. Lampert, Chairman

SEALER OF WEIGHTS AND MEASURES

"One of the most important fundamental obligations of the municipality is the regulation of commercial weighing and measuring instruments and the exercise of reasonable control over the users thereof. There is no single individual in a community whose interests are not affected by these considerations, for weighing and measuring operations, to a greater or lesser degree, enter into the distribution of all the necessities of life, particularly food and fuel."

All required inspections have been performed on scales and motor vehicle fuel meters. The very few minor defects have been corrected and one scale has been ordered taken out of commercial service due to failure to meet the standards.

The Consumer and Merchant Protection Act of 1998 had as one component the establishment of a Certification program for all that would serve as Sealers of Weights and Measures in the Commonwealth. Last year was a year of study and testing for all Sealers and I am pleased to report I am now certified and may continue in my position. Ongoing education is now required, as well as attendance at conferences, in order for us to keep up with the technology changes.

I anticipate that all of the scanners in Town will be tested as part of an ongoing price verification program. This will be the first year for the program here in Duxbury.

Respectfully submitted,

Joe Shea Sealer of Weights and Measures

POLICE DEPARTMENT

The year 2000 reflected long awaited changes for the Duxbury Police Department. First and foremost was the conversion of the dispatching area. This ensured total confidentiality for all 911 calls. The next major change was the reorganization of the department. With the promotion of a third lieutenant, we now have an administrative commander, a services commander, and an operations commander. This change was implemented in order to be more effective in the areas of training, specialized programs, government grants, daily patrol operations and all public safety issues.

Two of our seasoned officers were selected to be certified in accident reconstruction. This mandated weeks of intensive training at the state police barracks in New Braintree. It enables this department to respond immediately to a motor vehicle crisis without the assistance of any other outside agencies. We are the only department on the South Shore to have this training.

Another new program established last year under the direction of Lt. Banfill is the Officer of the Month. This presents a challenge to the men and women involved in the daily patrol functions of this department. Motor vehicle citations, whether verbal or written, have tripled, arrests doubled and motor vehicle accidents have declined. This has resulted in a good balance ensuring the public's safety traveling on our roadways.

On the lighter side, a new image has been created for the department's cruisers. A panel of our officers selected a new color scheme. The feedback from the public has been quite positive.

The junior police academy was held last summer. The students involved ranged in age 8 through 11. They were introduced to the department's internal works and its many phases. The program ran for two weeks and included field trips to Boston Police Headquarters, Plymouth District Court, the Marshfield Rod and Gun Club, and the Plymouth County House of Correction. At the closing of the program, the students were issued diplomas.

The PAL program had many new members last year. A good percentage were senior citizens seeking out the computer courses offered. More sophisticated equipment was purchased and donated through the generosity of the community. The program now offers more diversified physical training. This has aroused the interest of many more high school teens. The response to this program has been overwhelming.

In conclusion, I would like to make note that the year 2000 has been overall quite productive. Credit must be given to not only the men and women in uniform, but also the consistent support of our town government and, of course, the many fine residents of our community.

Respectfully submitted,

Mark DeLuca
Chief of Police

ANIMAL CONTROL

As we enter the new Millennium, we want to take a moment to reflect on how far animal control has come in the days since dogs were tied to trees and cats were left to roam. Unfortunately, sometimes dogs are still tied to trees and cats are still left to roam, but here in Duxbury we have made tremendous strides in animal welfare. The year 2000 saw many new friends to the animals, and we lost a few old friends. Plans continue for the new shelter, which we hope to have built by mid 2001. We would like to thank everyone who donated funds, blankets, toys, food and other things to the animals. As we start fresh in this new Millennium, we would like to ask everyone to resolve to help reduce pet overpopulation by spaying or neutering your pets early, and remember...LOVE, LICENSE, ID, and LEASH YOUR PETS...THEY'LL LOVE YOU FOR IT!

Respectfully submitted,

Haley-Dee Parlin, Animal Control Officer

PUBLIC WORKS

Department of Public Works

Cemetery Department

Highway Department

Lands and Natural Resources

Water and Sewer Department

Water Advisory Board

DEPARTMENT OF PUBLIC WORKS

Duxbury continues to be recognized as a unique community with geographic amenities among the best on the South Shore. Demands for superior services continue to grow as the community grows and as lifestyles of our residents and visitors utilize the various facilities available. Included are the municipal buildings, the playing fields, the passive recreation areas and trails, the ponds and ocean, the boating, shellfishing, organized sports for participation and viewing, and other opportunities that appeal to various segments of our population.

The Town has a sizeable infrastructure that requires repair, replacement and expansion. The DPW plays an important role in the preservation and maintenance of the infrastructure. The men and women that make up the Department of Public Works seem to do more each year. The Town seems to sparkle more each year passing. Whatever the reason, I know Duxbury is significantly different than it was 10 years ago.

Each division of the Department of Public works has prepared a report of specific activities and achievements. These are our contribution to the Town and I think we help to make a difference.

Respectfully submitted,

Walter J. Tonaszuck, P.E. Director

CEMETERY DEPARTMENT

During the past year we have continued to make significant improvements in our efforts to upgrade the crematory and the cemetery grounds. In the crematory, two of the four retorts were completely rebricked and new burners were installed. This is a departure from the past when the units were refurbished in sections over a four-year period. This total reworking of the units seems to have increased the efficiency of the machines and has practically eliminated residual damage to the operational components of the units. In October, two new stainless steel stacks were installed on the other two retorts. This improvement seems to have increased the efficiency of these units as well as improving the general look of the building.

Featured among improvements to the cemeteries was the addition of nine new large-family plots off Forest Avenue in Mayflower Cemetery. These lots can accommodate up to twelve graves in a single plot. A stand of white pines and ornamental shrubs form an attractive background for this newly formed section of the cemetery. The cannon at the Old Burying Ground on Chestnut Street was scraped down and painted, as was the wrought iron fence along Tremont Street at Mayflower Cemetery. The Lands and Natural Resources crew assisted us in planting a row of spruce, donated by Martin's Tree Farm, behind the crematory. This should form a pleasant "natural buffer" screening the crematory from the street.

Our crematory had another productive year with cremations capping out at 2006, down slightly from last year. Interments were up slightly from last year, while the sale of graves was up nearly 40%.

Cemetery department foreman, John Borgeson, retired on December 1st. I would like to take this opportunity to thank him for his 14 years of service to the town and this department. I would also extend thanks to the entire cemetery crew and the DPW staff and crews for their assistance throughout the year and to the cemetery trustees for their guidance and advise.

Respectfully submitted,

Joseph A. Ziobro Superintendent of Cemeteries

LANDS AND NATURAL RESOURCES

The Town of Duxbury was awarded, for the ninth consecutive year, the Tree City USA Award by the National Arbor Day Foundation and the USDA Forest Service. The annual award is presented to cities and towns with outstanding urban forestry programs.

The Town's inventory of athletic fields continues to grow, largely due to the Department's continued partnerships with the Recreation Department, School Department and various user groups. In April, the Tarkiln Baseball complex was rededicated after a major reconstruction project was completed.

The Department also received a large athletic field mower, which has helped greatly with our ability to keep our complexes well maintained.

The Department of Lands and Natural Resources continues its efforts, working with other departments such as the Conservation Department as well as civic groups like the Duxbury Garden Club to insure that our public lands, open space, facilities and scenic ways stay pristine.

Respectfully submitted,

Peter Buttkus, Manager of Buildings and Grounds

HIGHWAY DEPARTMENT

This year has been similar to previous years. Highway crews have provided road improvements, drainage corrections and repairs, street sweeping, catch basin cleaning, street sign repairs, traffic painting and snow and ice control.

Even though last winter produced lower than normal snowfall, crews still had their hands full with ice conditions through the winter with 17 operation and 20.75" of snow.

Keeping up with the Road Rehabilitation Program, 4.9 miles of roads throughout the town received Type I-1 Bituminous Overlay and .9 miles of roads had fabric along with the overlayment of asphalt applied to them.

In addition to overlayment, Park Street was completely rehabilitated with drainage corrections and grade changes.

The Department of Public Works received the following new pieces of equipment that were instrumental in providing these services:

Highway Dept. - Front End Loader with an 11' main snow plow and detachable wing plow

Transfer Station - Trash trailer for trash pit

5 open containers for construction debris

Tub Grinder (This was a substantial addition which has reduced the number of loads of construction debris hauled off site)

Respectfully submitted,

Paul Balboni, Operations Manager

WATER & SEWER DEPARTMENT

WATER PUMPED IN 2000

Jan.	33,782,202	Apr.	33,477,083	Jul.	65,483,642	Oct.	37,908,424
Feb.	30,820,277	May	41,061,201	Aug.	45,887,127	Nov.	31,505,944
Mar.	32,661,497	Jun.	51,091,933	Sep.	44,946,199	Dec.	31,652,445

Total: 480,277,974 GALLONS

Peak Day: July 8, 2000 3,051,459 Gallons

Thirty-five water services were added to the system, bringing the total to 5,388.

Water mains were added to the Town's system at the following locations:

Amado Way Bay Farm Montessori Academy Sprague Farm Lane

IMPROVEMENTS TO THE WATER SYSTEM INCLUDED:

 Installation of 2.0 miles of new water mains to replace existing vinyl-lined asbestos cement water mains in the following streets:

Temple Street Colonial Drive
Torrey Lane Jeremiah Drive
Fordville Rd. Cordwood Path

- Installation of a new water main on Blodgett Avenue
- Renewal of all service connections and abandonment of the 6" water main in Temple St.
- Installation of new hydrants to the 12" water main in Temple St.
- Replacement of 9 damaged, broken or aged hydrants.

Voluntary outside water use restrictions were imposed on June 28, 2000 as a precautionary measure. The summer of 2000 turned out to be much wetter than normal, negating the need for restrictions.

MAINTENANCE OF DUXBURY'S SEWER SYSTEMS INCLUDED:

- A leaking section of sewer main in Gurnet Road was repaired.
- Several operation problems were experienced at the High School complex sewer treatment facility this year. Preliminary planning to replace this aged facility has begun.

Respectfully submitted,

Carl Hillstrom Water/Sewer Superintendent

WATER ADVISORY BOARD

The Water Advisory Board continued its review begun in 1998 of the Water Department's current rules and regulations. We also reviewed the draft of the Dufresne-Henry Engineering Study of the Duxbury Water Department with the consultants and the Superintendent. The report examined and clearly showed the pressure differences throughout Town. These differences were caused as a result of the historical development patterns in Town. Early development was placed near the shoreline, and the utility was designed appropriately. The Captains Hill storage tank was designed to service nearby development which was close to sea level because the West Duxbury development was largely farms and small houses served by their own wells. In time, the utility expanded to the west to serve properties which resided in much higher elevations. The water pressure to serve these were modest but adequate until the demand for water increased significantly. Dufresne-Henry is proposing a solution which involves two pressure zones for the Town. We expect that we will be involved in future discussions regarding this design.

Dufresne-Henry has also advised that new water supply be pursued. Damon Well #1 was constructed many years ago but not completed as our attention turned to the iron removal plant at the Evergreen Wells. In year 2000, the Water Department and its consultants ran a pump test for Damon #2 for approval purposes, and is currently testing its yield while simultaneously pumping Damon #1 in order to determine whether one is affecting the other. Although this site looks to be a productive well field, the finding of MTBE at significant levels at Damon #2 along with Mill Brook #2 down stream has caused the Water Department to have significant concern for this aquifer. Recent testing is suggesting that the concentrations may decrease in time.

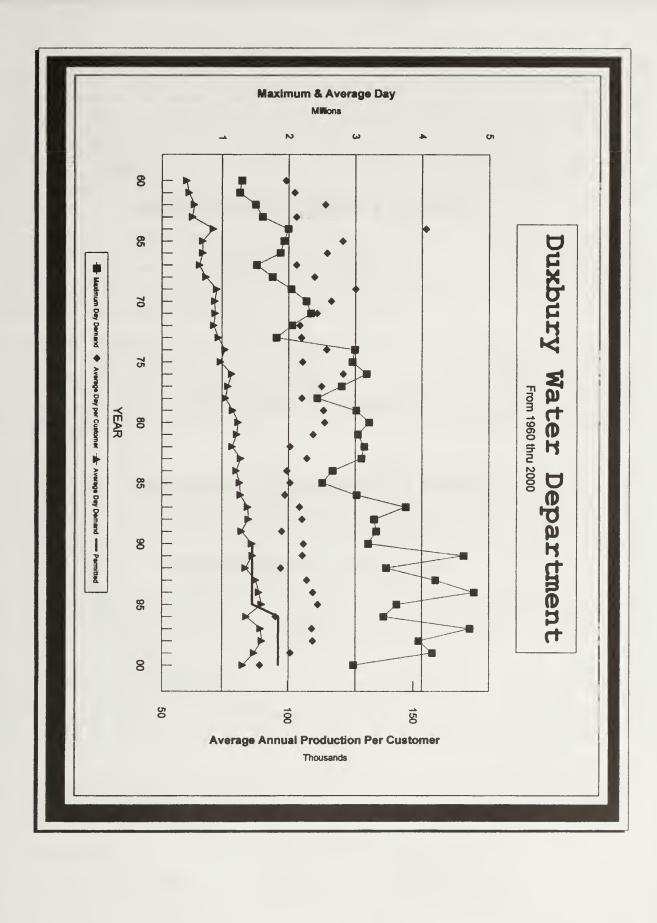

We also must note that vinyl lined AC water mains on 6 streets representing 10,803 feet were replaced in 2000 for a total to date of 41 streets representing 50,621 feet. Levels of PCE are now below detection levels in the majority of the remaining areas.

The warm and dry days of 1999 were replaced with the cool, cloudy and dry days of 2000. Production dropped to levels in the late 1980s with the peak day during the summer being slightly less than 1987.

We are attaching a graph showing maximum day, average day demand and annual production per customer since 1960. The permitted average day production is shown as a solid line adjacent to the average day graph illustrating that average day production has remained well below permitted levels. These limits are expected to remain at the current level until 2010, although they may be reviewed from time to time. As noted in previous reports, the 1990 through 1994 data is inaccurate reflecting metered production at too high a level for several wells and has been adjusted accordingly. Current estimates are suggesting that we should continue to be in compliance until 2010 despite the upward trend over the years. Our maximum day demand which is also shown drives the system design because we need to meet that demand on that day. The increase in that over time is clearly steeper, suggesting the need for new water supplies now, although this year is at a low level unmatched for the last thirteen years. Despite this year's meager water demand we believe that the Water Department needs to aggressively add withdrawal locations in order to meet future demand. And finally, our annual production per customer data is shown as a traditional line graph, and clearly illustrates that we are demanding water at levels equivalent to forty years ago, and that this year is unmatched for the last forty years.

Respectfully submitted,

George D. Wadsworth, Chairman Robert K. Keagy, Clerk Freeman Boynton, Jr.

LIBRARY AND RECREATION

Duxbury Free Library

North Hill Advisory Committee

Recreation Department

DUXBURY FREE LIBRARY

The first year of the millennium saw major staffing changes at the Duxbury Free Library. After sixteen years of service as reference/technical services librarian including eight years as library director, Joanne Lamothe moved on to become director of the Weymouth Public Library. In December, the Board of Library Trustees appointed Elaine Winquist as new director. Ms Winquist came to Duxbury in 1998 as reference/technology librarian after ten years at the Westwood Public Library as Head of Technical Services. Janice Neubauer, reference librarian and former director, retired after thirty-two years of service. Ms Neubauer devoted a large portion of her time to cataloging and processing historical materials in the Duxbury Room. Her hard work has made this unique collection available to everyone. Senior library technician Joan Gazin retired after thirty-one years, and is back as a volunteer in the Technical Services Department.

This year the Board of Library Trustees appointed a committee to develop a long-range plan for the library. Chaired by trustee, Carl Meier, the committee included Deborah Bornheimer, Joanne Lamothe, Mary Ann Offer, Tom Broadrick, Peg Lougee, Jan Schwartz, Patrick Browne, Ted Lougee, Jamie Therrien, Fran Doran, and Corinne Woodworth. Approved in September, the *Duxbury Free Library Long-Range Plan 2000 – 2004* serves as a guide to evaluate and improve library services. The goals and objectives included in the plan will be met through activities designed and carried out by the director and her staff.

Library programs for adults included a number of author readings and book signings in conjunction with Westwinds Book Shop. The library implemented a monthly poetry circle, a monthly book discussion group, and a monthly writers' group — all led by members of the staff. Our popular Book Group Convention of 1999 was expanded into Book fest 2000, a day-long event featuring many local authors including mystery author, Philip Craig, and Boston Globe columnist, Brian McGrory. The highlight of this year's programming was author Elizabeth Berg, reading from her newest work, Open House, just after being selected by Oprah Winfrey for Oprah's Book Group.

Young Adult services this year included the popular evening coffee houses for teens, formation of the Digital Doritos (teen techies) who meet regularly at the library, and teen book discussion groups. This summer saw teens and adults at the beach for an evening of stargazing with astronomy buffs from Silver Lake High School. The annual South Shore Video Contest was a huge success with over a dozen films receiving awards at "Oscar Night at the Library." Young Adult librarian Ellen Snoeyenbos worked with the Duxbury schools providing book talks, reference, and online research training to individual classes. With the Reference Department, she hosted an afternoon of training for Social Studies teachers.

The Children's Department has provided activities and story times for all ages, including the annual sand castle contest, the Library Pet Show, book illustrators, magicians, and authors. The summer reading series, *Open Books, Open Frontiers*, had a record number of 729 young readers. The department sponsored a teacher workshop on the latest children's literature and its relationship to the curriculum.

The Library continues to offer meeting rooms for community and civic organizations, in addition to quiet study areas, a comfortable periodicals reading room, word processors, and Internet stations. The reference department has introduced regularly scheduled classes on using the Internet. The library web site, duxburyfreelibrary.org, continues to be a strong tool both for library staff and for our users at home and in the library. Produced by members of the staff, the web site provides information about library programs and services, special and ongoing events, links to reference tools, and other useful or fun information.

In addition to its hard working staff, the library owes its success to the ongoing support of the Friends of the Duxbury Free Library and the Board of Trustees of the Duxbury Free Library, Inc. We look forward to forming partnerships with town government and with other Duxbury cultural institutions to provide an even higher level service to the community.

Respectfully submitted,

Elaine W. Winguist, Library Director

Board of Library Trustees:

Ted Flynn Carl Meier
Jack Hill Lynne Walsh

Peg Lougee Corinne Woodworth

RECREATION

The Duxbury Recreation Department enjoyed a successful 2000. Many capital projects were completed and thousands of residents participated in our programs.

One particular highlight we are most proud of was the rehabilitation of the Keene Street tennis courts. This new recreation facility is now renamed the Walter Kopke Park. The location of two tennis courts, which were in horrible condition, is now home to a new playground and new tennis court. A generous gift from the Newcomers Club of Duxbury helped to complete the restoration of this facility.

An exciting improvement to our field inventory was the grand opening of the newly renovated Tarkiln Field. This project, led by The DPW Manager Peter Buttkus combined with the efforts of the Recreation Department and a generous gift from Duxbury Youth Baseball was completed May of 2000, with the dedication of Jerry Dewing Field.

The Percy Walker Pool continues to be a focal point of our residents' leisure time. In 2000 over 125,000 people utilized this facility which is open to the public over 100 hours per week.

At North Hill Country Club the big news was the completion of a new clubhouse. This long awaited project began one year ago when the Recreation Department demolished the old cow barn, which served golfers for many years.

Our new clubhouse is fully ADA compliant and is complete with a new Title V septic system which also serves the 4 bedroom farmhouse. The clubhouse features a beautiful wrap-a-round porch, handicap accessible mens and ladies room, a state of the art kitchen, a beautiful function room, expanded pro-shop and many other exciting additions for our community to enjoy.

I would like to thank my staff, the DPW Department, especially Peter Buttkus; Building Department' especially Richard McDonald; the Recreation Activities Committee and North Hill Activities Committee and Town Manager Rocco Longo for all their help in making 2000 a great year for Recreation in Duxbury.

Respectfully Submitted,

Gordon H. Cushing Recreation Director

NORTH HILL ADVISORY COMMITTEE

The highlight of this year was the completion of the clubhouse at North Hill. Johnson Turf Management did an outstanding job and the town now has a clubhouse facility that will serve the community well for the foreseeable future. It should be noted that Johnson added approximately \$100,000 of value to the project at no cost to the town. Gordon Cushing, the town's Recreation Director, was superb in making sure that this project was accomplished properly.

The course itself continues to improve. During the year, cart paths were built, traps have been renovated, and Johnson Turf Management continues to do an excellent job of maintaining the condition of the course.

The North Hill Committee was very pleased with the recommendation of the Recreation Facilities Committee. We obviously hope that the town approves the expenditure of funds to study North Hill. It is the considered opinion of the committee that North Hill is the recreational jewel of Duxbury. We strongly feel that the site should be fully developed as a total recreational facility for the benefit of the entire community.

One final note: golf course revenue was slightly down this year, due to the lack of a clubhouse facility until December 2000. Also, the weather was a factor. We have enjoyed increased play every year prior to this and we expect that this year's results will be reversed in 2001 with the addition of the new clubhouse.

Respectfully submitted,

William C. Dixon, Chairman North Hill Advisory Committee

COUNCIL ON AGING

The year 2000 has been filled with a great deal of support from the Duxbury Community for the soon-to-open new Senior Center! The project is moving forward with an anticipated grand opening in summer 2001. There are many people to thank for their tireless dedication and selfless commitment to this project. We wish to express our gratitude and appreciation to the Community at large for their ongoing support. We also owe a sincere thank you for all of the generous donations the Friends of the Council on Aging has received on behalf of the furnishings.

The architectural firm of John Catlin and Associates of Boston is responsible for the "Seaside Community" design of our new building. Neil Murphy, the General Contractor who lives in this area, is working hard to meet deadlines and ensure that Duxbury seniors have a beautiful center that they have waited so long to call "home". We are fortunate to have Bill Campbell serving as our Project Manager. Another local couple, Susan and Wesley Horton, have also donated their talents by helping us select the furnishings for the new center. We are grateful to all these people for their time and talent.

In the last year, volunteers delivered approximately 10,400 meals to homebound Duxbury seniors. Drivers provided rides for medical appointments for 550 seniors. The Van provided transportation for grocery shopping, hair appointments, post office, paying bills, voting, shopping trips to various malls, to Adult Day Programs, bowling, Supper Club, the Senior Club meetings, congregate meals, flu shots, and a variety of weekly local day trips. Programs continue to flourish with new seminars and offerings being added both at the center and, due to our present space problem, at other locations in the community.

The 2000 Census shows a continued growth of the senior population in Duxbury. This growth is expected to continue and it is now anticipated that the new Center will enable many more people to be served, and will provide a community resource for lifelong learning. Remaining both physically and mentally active has long been proven to not only extend life but to improve on the quality of life. We look forward to increasing the number of activities currently available to seniors and the community when the new Senior Center opens.

We would like to acknowledge the dedication of the Council on Aging Staff and thank them for their selfless dedication to the seniors. They are: Clerk Julie Cordiero; Senior Van Drivers Phillip Barnes and Jackie Alden; Meals on Wheels Coordinator Cynthia Smith; Activities Coordinator, Veda Ullathorne; Offsite Programs Coordinator, Joan Doscher; Outreach Worker, Karol Burgos; Senior Aid/Volunteer Coordinator, Anna Wallace; Assistant Director, Donna Pizura; and Executive Director, Kristen Andrews.

Respectfully submitted,

Susan Hammond, Chairperson Woody Woodruff, Chair-Elect Henry Milliken, Chair-Elect Father Joseph Mozer, Secretary Patricia Ryan Tom Chapman, Advisory Board Alec Clement Michael Vidette, Esquire James Taylor Anita Haffey Marge McLean, Advisory Board Mary Ann Reid, Advisory Board

DUXBURY CULTURAL COUNCIL

The Duxbury Cultural Council (DCC) awards funds from the Massachusetts Cultural Council (MCC) to support cultural endeavors in the community. Duxbury Cultural Council received 36 applications by its Mid-October deadline. At its public granting meeting on October 26, 2000, the council awarded the following 23 applicants a total of \$7650.*

Recipient	Project	Amount
Alden School	LCC_TheatreworksUSA	\$300
Alden School Creative Arts Council	David Polansky, Classroom Cabaret	700
The Art Complex Museum	Japanese Cultural Exposure / Tea Ceremony	250
The Art Complex Museum	Public Art Collaboration / Retroformation	250
Brockton Symphony Orchestra	53rd Symphony Season	200
Children's Museum of Plymouth	Theatrical Workshops	50
Choral Arts Society	Choral Concerts	200
Duxbury Art Association	Midsummer Arts and Craft Show 2001	500
Duxbury Art Association	Rotating Art Exhibit @Ellison Center for the Arts	400
Duxbury Art Association	Winter Juried Show 2001	500
Duxbury First Nite Committee	New Year's Celebration for All Ages	400
Duxbury High School Assembly Committee	Theatre Espresso, Justice at War	300
Duxbury High School Assembly Committee	Theatre Espresso, Lincoln's Final Hope	300
Duxbury Historical Commission	Historic Preservation Public Forum	350
Duxbury Middle School PTA Creative Arts	Mythmasters	500
Ann Heywood	Woman Artists: Their Images	200
Wiesy MacMillan	Family Workshops Creating Pageant Puppets	300
North River Arts Society	NRAS Festival of the Arts 2001	250
Plymouth Philharmonic Orchestra	85th Anniversary Season	500
John Root	Senior Citizens' Concert	250
Snug Harbor Community Chorus	Holiday Concert	350
South Shore Art Center	SSAC 46th Festival on the Common	200
South Shore Conservatory	Amahl and the Night Visitors	400

(* The total reflects the MCC 2000 allotment of \$4500 plus \$3150 from expired grants of previous years.)

It was a busy year for our local cultural council. Throughout the year, cultural council members processed reimbursement requests from grantees. In June, the Duxbury Cultural Council prepared and conducted a town-wide survey to establish local priorities for the arts. In September, the council conducted a grant writing session with potential grant applicants to review town priorities and application procedures. Mid-October marked the deadline for applications for the up-coming year. The council awarded the above listed grants to successful applicants in late-October. In December, all successful applications and supporting material were submitted to the MCC.

All DCC members attended training seminars this year. In addition, several members of the committee attended additional informational seminars on topics of special interest conducted by the MCC. In November, the Massachusetts Cultural Council designated the Duxbury Cultural Council as a "streamlined council." This designation is given to cultural councils whose members have completed required training courses given by the state and who have demonstrated a history of sound judgement in granting practices.

The members of the Duxbury Cultural Council are pleased to support this important part of community life and encourage inquiries and applications from organizations and private citizens. The next grant writing seminar will be held in September 2001. Respectfully submitted,

Olga Rothschild, Co-Chair Lynn Smith, Co-Chair Allison Cowen, Treasurer Lyell Franke, Clerk

Nicki Kispert Janet Ritch Christine Swem

HOUSING AUTHORITY

During 2000, we completed the installation of the air conditioning in the Community Room at Duxburrough Village. However, for a myriad of reasons, we have not been able to begin modernization work at our property located at 748 Union Street. Final bid specifications have been developed by Thomas A. Driscoll, AIA and have been sent to the Department of Housing and Community Development (DHCD) for their final approval. We expect to solicit new bids during February or March 2001. If this can be accomplished, we will begin the modernization of this home in May and complete the project within one hundred twenty-five days from the award date.

The Board of Appeals has approved the plans and specifications for a new parking lot at our elderly complex. With the help of the Town Department of Public Works, we hope to complete the project by early spring. This new parking lot will provide approximately twenty more parking spaces and will alleviate the need to park on the roadway within the complex. This will make it easier for emergency vehicles entering and leaving the complex.

The wait list for apartments at our elderly complex continues to grow. At the present time, a total of one hundred twenty-five names are on the lists for Elderly/Handicapped, Family, and the Massachusetts Rental Vouchers Program (MRVP).

We continue the operation of the fifty-two-unit elderly/handicapped complex at Duxborrough Village plus eight units at Merry Avenue for individuals with special needs. In addition, we administer thirteen Federal Section Eight Vouchers, three MRVP Certificates, and own and maintain six scattered site units in the Town of Duxbury, which serve the needs of low-income families.

We want to thank the voters and the various Boards and Committees of the town for their continued support of our efforts to meet the housing needs of the town. We must give special thanks to the Fire, Police and Highway Departments for their dedication and outstanding service to our elderly and handicapped individuals who reside at Duxborrough Village.

Respectfully submitted,

Allen Carleton, Chairman George Shamma, Vice Chairman Alice Canty, Member Diane Bartlett, Member Linda Garrity, Member

Donald Ducharme, Executive Director

MUNICIPAL COMMISSION ON DISABILITY

The Town of Duxbury adopted the provisions of G.L. 40§8j, and appointed a Municipal Commission on Disabilities (MCD) in 1993. The Commission must consist of a majority of members who deal directly with disability issues, and a municipal employee who is the ADA (Americans with Disabilities Act) Coordinator. The Commission's role is to advise the town on challenges which impact individuals with disabilities and to help the town comply with state and federal laws, including the Americans with Disabilities Act. In addition, the Commission's role is to assist the private sector regarding disability issues.

The MCD has met formally on a monthly basis during the calendar year 2000, except for July and August. We continue to work on an established priority list of key issues. In addition, we continue to receive many specific inquiries regarding areas which may impact individuals with disabilities. These activities include the opening of the Ashdod Fire Station and the Nathaniel Winsor, Jr. House; the development of the Duxbury School Master Plan; planning for new accessible playgrounds; planning for development of accessible outdoor areas by the Conservation Commission; the construction of the new Senior Center, and availability of assistive listening devices for town events. In addition, presentations were made by the Duxbury Bay Maritime School, the Disabled Persons Protection Commission, and the Playground Committee.

We continue to work with municipal and private organizations, including Inspectional Services and DPW on various projects, focusing on increased accessibility. We extend our thanks to the Selectmen, Inspectional Services, the Fire Department, and many other key members of the town for their continuing efforts to involve the Commission where appropriate.

We have identified many new areas where the Commission can provide advice and assistance. We also continue to attend national and state meetings regarding issues impacting individuals with disabilities, which update us on new developments on a statewide and national basis.

The year 2000 was the tenth anniversary year of the signing of the Americans with Disabilities Act. The National Council on Disability, the organization that first proposed the ADA, scheduled regional meetings to share recommendations and plans for the next decade, for federal enforcement of disability rights. The Massachusetts Office on Disability issued a 2000 Municipal Access Survey, which showed a marked progression towards accessibility over the last ten years.

The MCD's current members are: Tina Bruce, Patty Cristoforo, Rocco Longo, Ian MacKay, Eleanor Murray, Bridget O'Keefe, Pat Randall, Joe Shea and Nancy Shine.

Respectfully submitted,

Nancy Shine, Chairperson

PLYMOUTH COUNTY COOPERATIVE EXTENSION

The role of UMass Extension, Plymouth County is to deliver research-based information to specific groups of people through nonformal methods. The local staff work in concert with UMass Amherst faculty and staff on behalf of the United States Department of Agriculture to provide valuable information in Extension's four program areas. The Extension System is supported by County, Federal and State funds, and operates under Federal and State laws and agreements. Educational programs focus on four major program areas: Agroecology; Natural Resources and Environmental Conservation (grant funds); 4-H youth, volunteer and family development; and federally funded Nutrition Education initiatives. Volunteer advisory groups work with staff on developing specific programs. Programs include: Pruning demonstrations; Pesticide applicator trainings and licensing exams; The Annual UMass Extension Garden Calendar; Educational resource materials; Training and resources for agencies serving youth; Accredited overnight summer camps; Teacher workshops and resources; and Food Safety Certification Courses. Local citizens, appointed by the County Commissioners, serve as County Extension Trustees, directing the overall program. New research findings are translated into practical applications and shared with people and communities through workshops, conferences, field demonstrations, technical assistance, newspaper articles, radio and television. Publications such as regular newsletters and booklets, fact sheets, and home study courses, bring information directly to those who need it.

In Plymouth County, the Extension outreach office is located on High St. Hanson. There is a satellite office in the City of Brockton, for the grant-funded Family Nutrition Program. In Southeastern Massachusetts regional programs are often conducted. UMass also operates the Cranberry Experiment Research Station, located in Wareham. Currently the Plymouth County field staff consists of a County Director, two 4-H Youth Development Specialists, a Food Safety/Family Development Specialist, and a Landscape/Nursery Specialist. For a more detailed program brochure on Cooperative Extension programs contact the county office at Box 658, Hanson, MA 02341. (781)293-3541 or 447-5946 or e-mail plycty@umext.umass.edu (also info on the Web http://www.umass.edu/umext/)

Board of Trustees oversees the work of Cooperative Extension. They are as follows:

County Commissioner Robert J. Stone - Whitman (term expires 3/31/02)

Valerie Dennehy - Kingston (term exp. 3/31/00) Jere Downing - Marion (term exp. 3/31/02)

Claire Jesse - Plymouth (term exp. 3/31/02)

Dominic A. Marini- E.Bridgewater(term exp. 3/31/01)

Wayne Smith - Abington (term exp. 3/31/02) Janice Strojny - Middleboro (term exp. 3/31/01) Chris Wicks - Middleboro (term exp. 3/31/02)

Town Directors:

M.G.L. Ch. 128 outlines the Cooperative Extension System functions. It allows for Town Directors to serve in the capacity as a local liaison. These towns contribute additional funds to assist Cooperative Extension programs. Annual Cooperative Extension reports are published in their town documents. Director for Town of Duxbury is Lindsay Blake.

Members of the County Staff:

Mary M. McBrady, Director Amy McCune, 4-H Youth/Family Development

Betty Ann Francis, Executive Assistant Robert O. Mott, 4-H Youth/Family Development Carol Junkins, Part-time Clerical Support Deborah C. Swanson, Landscape and Nursery Team

Mary "Liz" O'Donoghue, Family Development and Food Safety Programs

Staff funded by Federal or State Program Grants:

Andrea B. Gulezian, Nutrition Education Program Supervisor

Maria Pique, Nutrition Educator Joyce Rose, Nutrition Educator

Faith Burbank, Water Quality & Natural Resources Anita Sprague, Senior Clerk (2 days/wk)

For information on 4-H programs call 1-800-374-4446; to contact the Nutrition Education Program in Brockton call 508-427-0008.

OLD COLONY PLANNING COUNCIL AREA AGENCY ON AGING

The OCPC-AAA is responsible for planning, coordinating and funding elder services under the Older Americans Act in the 23-community region served by the program. The OCPC-AAA, in conjunction with input from the 23-community Advisory Committee, has focused its efforts on developing a network of services and programs to serve the unmet needs of elders from throughout the region. In fiscal year 2000, the OCPC-AAA provided grant funding to various service provider agencies for the following types of programs and services:

- *Multi-Purpose Senior Center Services
- *Mental Health Services
- *Services for Disabled Elders
- *Legal Services
- *Nutrition Education & Counseling
- *Congregate and Home-Delivered Meals
- *Long-Term Care Ombudsman Program
- *Outreach
- *Personal Care and Respite
- *Transportation
- *Emergency Intervention Service
- *Senior Aide Employment Program

The OCPC-AAA Advisory Committee Delegates and Alternates play a key role in the development and support of elder services and programs in the region. Committee members from each of the 23 communities assist the AAA in assessing elder needs in the region, recommending funding priorities, and recommending sub-grantee funding awards to the Planning Council. The support and cooperation of the Delegates and Alternates and their respective communities is acknowledged with gratitude by the Old Colony Planning Council Area Agency on Aging. The OCPC-AAA also wishes to extend sincere thanks to Chairwoman Phyllis Hancock of Brockton and Vice-Chairwoman Josephine Hatch of Pembroke for their leadership during the past fiscal year.

Respectfully submitted,

Marjorie McLean, Delegate Kristen Andrews, Alternate

VETERANS' SERVICES

The year 2000 has been an active one for the Veterans Services Department in the Town of Duxbury. The Town participated in three Veterans Administration Health Fairs, consisting of all the services provided by the Veterans Administration Health Care Facilities. I attended the many conferences sponsored by the VA throughout the state.

On the Federal level, this office seeks benefits in such areas as medical/hospital treatment, Veterans Administration compensation and pensions, education, on-the-job training, home loans, substance abuse treatment, and vocational rehabilitation. On the State and local levels, we assist in securing benefits including financial assistance, medical treatment, fuel assistance, tax abatement, housing, employment and counseling. The Federal programs are at no cost to the community. State benefits are reimbursable at a rate of 75% to the town.

I wish to thank the members of the American Legion Post #223 and their auxiliary for their generous support to the community, and for the help provided this office by the personnel in the Town of Duxbury.

Respectfully submitted,

Robert Lyons, Director/Agent, Veterans Services

Once again, we are reminded of the brutal aggression perpetrated against the United States by the unprovoked attack on the USS COLE. Let us honor those who gave their lives and offer our gratitude to those who served and those who are now serving in the US Military.

REPORT OF THE DUXBURY PUBLIC SCHOOLS

Eileen C. Williams Superintendent

DUXBURY PUBLIC SCHOOLS

It is my pleasure to submit to the community the annual report on the accomplishments of the Duxbury Public Schools. We continue to be challenged by the implementation of the Education Reform Act and the achievement of the objectives of our annual Action Plan in support of our mission. That mission is to provide an educational program of the highest quality to enable all students to develop to their full potential.

We continue to be very proud of our competent, dedicated and professional faculty. Once again the regulations regarding recertification have raised the standard. As of this fall, each of our faculty members, nurses and administrators were required to develop a five year professional development plan designed to address the goals of the school system and the improvement of instruction. Each plan was submitted to that person's evaluator for approval and meetings will be conducted at the end of the second and fourth years to assess progress and to update the planned activities. At the end of the five year period, the educator will submit his or her completed plan to the Department of Education to qualify for renewal of the teaching certificate. This process formalizes what our faculty and administration have always done, participate on an ongoing basis in activities which enhance their skills and knowledge in order to better serve our students.

Respect and responsibility remain a focus for our school system. This year we joined with the town government in making Duxbury a "No Place to Hate" community. The Duxbury Education Foundation has funded activities at the high school and in the Duxbury Free Library in support of these efforts. All of our high school students have attended assemblies where the Anti-Defamation League presented information to promote thoughtful dialogue within our school community on the issue of discrimination. Thirty-two of our students and one teacher have received leadership training in conjunction with this World of Difference program so that they may help their peers to understand the issues and find constructive ways in which to change inappropriate behavior in our schools and our community. We are pleased to be working with the Interfaith Council and other groups within the community to promote understanding and respect.

A major focus for last year was the development of a Master Facility Plan for the Duxbury Public Schools, which was approved by the School Committee on March 15, 2000. Time is of the essence in implementing this plan as we have an immediate need to relieve overcrowding in the Chandler, Alden and Middle Schools. We also need to complete the approval of our projects by June 30, 2001 in order to secure the current 67% reimbursement rate from the state which will decrease for our community after that date.

The plan was the result of a comprehensive study of projected enrollment and programmatic needs. Public presentations were made by the New England School Development Council (NESDEC) during this process in order to gather input from the community and to share findings. The Master Plan has been designed to face issues including increased and increasing enrollment, class size and full day Kindergarten as well as other needs. Both the NESDEC Report and the Master Plan are on our website (www.duxbury.k12.ma.us).

Funds for architectural design were approved at the Special Town Meeting in June 2000. We then conducted a selection process and hired the firm of Drummey, Rosane and Anderson (DRA) to design additions to the Chandler and Alden Schools and a performing arts center to meet the educational needs of our students within the entire campus complex and the cultural and governmental needs of the community.

Since school began in September, the architects have met frequently with the School Building Committee (SBC) and our administrators and faculty to review the data collected from interested parents, community members and school staff last spring. Our thoughts are in the process of becoming plans for construction for which funding will be sought at the Annual Town Meeting in March 2001.

The general goals for the projects are: provision of space to support high quality education; completion of projects on time and on budget; continuation of the collaborative effort already begun in the pre-design process; and resultant buildings that work and are easily maintained. The issues being explored include the accessibility and safety of the facilities, providing a welcoming environment for the community, provisions for air quality issues during the project construction period, and site considerations related to the occupation of the schools during construction.

In addition to hiring the architects, the SBC has completed other tasks including: conducted studies of wastewater treatment at both sites and selected appropriate alternatives; selected Woodard and Curran to design the wastewater treatment alternatives; hired a Project Manager; developed initial schematics for both sites; assessed the Chandler and Alden Schools to determine the scope of renovation to the existing buildings; and conducted a site survey to flag wetlands on the Alden site.

We have had much discussion of the project and met, where appropriate, with the Director of Inspectional Services, Conservation Administrator, Health Agent, Department of Public Works Director, Recreation Director, Lands and Natural Resources Director, and Fire Chief. We have also conducted a building needs conference with the staff of the Department of Education, School Building Assistance Unit (SBA). As a result of our work to date and this conference, we have received approval from SBA of the selected sites.

It has once again been a busy and productive year. Our continued success is due to the dedication of our faculty, staff and administrators. The commitment of these people to our students is what continuously moves the school system forward.

As always, we depend on the extensive support and commitment provided by parents and community to our students and staff. Individual volunteers, PTA and PTO, Music Promoters, athletic booster groups, the Duxbury Education Foundation, local businesses, and many others support our programs and services on a daily basis. School Council members spend many volunteer hours in writing the yearly School Improvement Plan and overseeing its accomplishment. The cooperation of other town departments is essential to us and we appreciate their assistance.

We wish a healthy and happy retirement to some dedicated members of our school community, Debby Brooks, Bonnie DeOrsay, Paul Francis, Avice Lindstrom, Pauline Mulcahy, Don Nelson, Caro Peterson and Marie Ryan, representing 221 years of service to Duxbury students. These committed educators have touched the lives of many children in a positive manner and have earned our gratitude and admiration.

Finally, I would like to express my appreciation to the School Committee for its constant commitment to children. Their leadership and support of our mission have enabled us to meet the needs of our students and families.

Respectfully submitted,

Dr. Eileen C. Williams Superintendent of Schools

ASSESSING DEPARTMENT

Calendar 2000 was an eventful year. Included among its notable activities, the Assessing Department:

- Devoted considerable time and effort to conducting the necessary research to respond to the less than five-percent of the Town's property owners who filed abatement applications in the aftermath of the FY 2000 State-certified revaluation.
- Commenced a major upgrade of its computerized real and personal property assessing systems as well as undertaking a much-needed modernization of its office. These measures are designed to bring about more efficiency and productivity as we proceed into 2001.
- Cooperated with representatives of several other Town departments to begin the formulation of a
 detailed plan to develop the capability to display a wide range of Town information on maps by
 means of a "Geographic Information System" ("GIS").
- Produced an updated informational brochure entitled "Duxbury Taxpayer Information;" and sent it to every property owner in the Town.
- Sponsored a warrant article increasing the tax exemption that is available to certain elderly property owners.
- Joined with the Board of Health to produce a guest editorial regarding the relationship between the Assessing Department's bedroom count data and The Board of Health's Title V regulations.
- Conducted a review and an upgrade of the administrative procedures relating to the Forestry, Agricultural and Recreational ("Chapter Land") land use programs.
- Met with the representatives of *Habitat for Humanity* to discuss assessing procedures in relation to its new single family home property in Duxbury.

Notable Assessment Statistics

Assessment Data	FY 2001	FY 2000
Taxable Real Estate	\$2,027,631,754	\$1,716,529,292
Personal Property	\$18,818,640	\$17,836,700
Total Taxable Assessments	\$2,046,450,394 \$364,700	\$1,734,365,992 \$309,000
Average Single Family Assessment	\$304,700	φ309,000
Budget and Tax Data	FY 2001	FY 2000
Total Amount Raised	\$42,069,628.67	\$39,777,597.21
Non Tax Levy Sources	\$15,117,876.99	\$14,039,605.88
Total Tax Levy	\$26,951,751.68	\$25,737,991.33
Average Single Family Tax Bill	\$4,796	\$4,586

Respectfully submitted, Board of Assessors

W. Neal Merry, MAA, Chair June E. Albritton, MAA, V. Chair J. Thomas Marquis, Clerk

FINANCE COMMITTEE

The Finance Committee's primary responsibility is to carefully examine and make recommendations with respect to the annual budget and any warrant articles submitted for town meeting approval.

As of July 1, 2000, the amount of funds held by the Town and certified as 'free cash' by the Massachusetts Department of Revenue is \$2,035,284. Certified free cash includes sums in excess of projections, local receipts, new growth (both new construction and renovation), any remaining prioryear free cash balance and returns of unexpended appropriations.

Also, available funds for water purposes in the Town's Water Enterprise Account are certified in the amount of \$1,219,310. Other reserves include the Pension Reserve Fund, which helps meet the Town's pension obligation, and the Stabilization Fund, the Town's 'rainy day' fund. The Pension Reserve Fund and Stabilization Fund had balances as of June 30, 2000 of \$1,579,489 and \$1,219,573, respectively.

The Town's current financial condition is sound, as indicated by the available funds shown above, and an Aa2 bond rating enables the Town to borrow at reasonable rates of interest. The Finance Committee recognizes that there is a need for the Town to maintain a reasonable free cash balance and adequate reserves, and to obtain maximum value for each dollar spent as necessities for continued financial good health.

Budgetary pressures during the next two years will loom large. Health care costs are projected to rise significantly. Future funding for cities and towns is uncertain given the recent state income tax rate rollback. The Senior Center is now under construction while FY2002 will be its first full year of operation. Construction costs may have a significant impact on the new school construction and renovations currently under design. Large equipment purchases to replace old equipment may be necessitated. The current Police Headquarters will need to be renovated and expanded or replaced.

Meeting the myriad needs of the Town, as always, will require careful planning, establishment of priorities, understanding of limitations, and finally, the cooperation and good will of every department, committee, employee and citizen of the Town. The Finance Committee will do its part!

Respectfully submitted,

Donald E. Butler, Chairman

FISCAL ADVISORY COMMITTEE

The Fiscal Advisory Committee reviews the town's capital budget and fee structures, and also monitors long-term revenue and expense trends.

The capital budget for Fiscal Year 2002 will be voted at the Annual Town Meeting commencing on March 10, 2001.

This year we will be considering capital items required for the necessary upkeep of our town's infrastructure, such as technology purchases, recreation improvements and public works acquisitions and projects. Public safety improvement will also be an issue, with the proposed acquisition of new fire apparatus.

The school construction and renovation project, one of the largest projects proposed in recent years, will require the input, cooperation and scrutiny of many town committees, officials and citizens.

Duxbury has a strong credit rating for long-term debt and a reasonable level of debt service. The goal of maintaining the foregoing should remain a priority as spending and borrowing levels increase.

Respectfully submitted,

William F. O'Toole Chairman

INFORMATION SERVICES

It has been my great pleasure in the calendar year of 2000 to have had the privilege of assisting the departments within the Town of Duxbury in the enhancement of the their technological capabilities. These enhancements were accomplished using various methods. Some enhancements were achieved as a result of training. Others were a result of hardware updates and others were realized with the introduction of new technology.

The most important technological advancement was the introduction of the Internet, which also includes Internet email to the Town Hall. By increasing our ability to communicate within the community of Duxbury, access to the Internet, along with Internet email, should advance the mission of the Town of Duxbury - "providing excellent services to the community in the most responsible and innovative manner".

The Assessing Department's computer hardware for the Mass Appraisal (CAMA) and Administrative Software for the Assessor's Office was upgraded in the calendar year of 2000. This hardware will support the software upgrade of the Mass Appraisal (CAMA) and Administrative Software for the Assessor's Office in January 2001.

In addition to updating the Assessor's hardware, other departments received new computer equipment. The additional hardware allowed those departments to be more effectively networked. By improving the networks within the Town of Duxbury, the use of the Town's resources are appropriately allocated.

Computerization without training does not lead to greater efficiency. Therefore, in the month of August, computer-training classes were provided to any Town employee using a computer. The classes were held in the Duxbury High School's computer lab and were very well attended. As a result of these classes, several tasks were computerized and job performance enhanced.

I have enjoyed the opportunity to assist in the advancement of the technological services offered throughout the Town of Duxbury and I look forward, with anticipation, to the many opportunities that will arise in 2001.

Respectfully submitted,

Mary E. MacQuarrie

COLLECTOR

This past year has seen many changes in the Collector's Department. The most significant change was the retirement of John N. Ferguson, Treasurer/Collector. I have had the pleasure of working with John for many of the 17 years he has been the Town's Treasurer/Collector. We wish him good health and much happiness in his retirement.

The Collector's Department has had some changes in personnel during the year. Ann Kay, a ten year veteran of the department, is also enjoying retirement. Gail Bell is working alongside her husband in a family business. We wish them both well. Joining our department is Joyce Stretton. Joyce comes to us from the Department of Public Works.

All of the Collector's staff has had an opportunity to attend computer classes and seminars to further our knowledge and enhance our computer skills. During the year we have replaced all manual applications with computer spreadsheets.

Also, thanks to our Information Specialist, Mary Beth MacQuarrie and Town Accountant, Sheryl Strother, we are electronically processing over two thousand Real Estate tax payments each quarter. Along with our Lock Box, this is a significant savings in time versus manual posting. We look forward to further utilization of our Lock Box for other receivable collections.

I personally wish to thank the Town Manager, Board of Selectmen and Department Managers for their confidence and support during this time of transition. Thank you to Ann Marie Ellis-Stetson, Acting Treasurer, for her assistance and cooperation. Also, a special "thanks" to all of the Collector and Treasurer staff for their assistance, loyalty and a genuine showing of real "team work".

Respectfully submitted,

Nancy G. Boulanger Acting Collector

REPORT OF THE TOWN COLLECTOR

TREASURER

During this year of 2000, the Treasurer's office has experienced many changes. To start, Collector/Treasurer John N. Ferguson retired on July 3rd, after many years of dedicated service. Nancy G. Boulanger, Deputy Collector was appointed Acting Collector. Ann Marie Ellis-Stetson, Assistant Treasurer was appointed Acting Treasurer.

There have been new faces added to our team. Ann D. Kay retired earlier in May after 10 years of Senior Clerk service. Trudy Boc was hired to bring us her skills to fill the vacant position. Gail Bell worked in the office part-time and had decided to work with her husband in his new business venture. We are happy to report that Joyce J. Stretton transferred from D.P.W. to bring to us her experience. Best of wishes to Annie and Gail. Welcome to our new team members.

The office facelift was a change that has been long awaited. No longer will you see the old "battleship gray" desks and furnishings. The walls have a new coat of paint and the floor a new rug, creating a welcoming feeling of warmth. The new office furnishings are updated file cabinets and low rise partition desks. We are very thankful, and invite you to stop by and see for yourself.

Changes have come in the form of updating the Beach and Transfer Sticker system, too. We are looking forward to utilizing the new database come February, in hopes of expediting your sticker sale, The new database will enable the office to have multiple users processing the mail and walk-in applications at the same time.

Last year's goal of attaining laser equipment for payroll and warrant check printing has been successful. We have a new look to our checks, new equipment, adding to the updated feeling of the office.

While we look forward to what the new year may bring us, we would like to thank everyone for their kindness and patience during this year of change. With your help, we were able to achieve our success. Thank you!

Respectfully submitted,

Ann Marie Ellis-Stetson Acting Treasurer

REPORT OF THE TOWN TREASURER

Receipts and Disbursements for Fiscal year July 1, 1999 through June 30, 2000

Balance July 1,	1999	\$19,053,452

TRUST FUNDS

Intent and Purpose

Balances may be found in the Accounting records

JONATHAN AND RUTH FORD TRUST FUND

"Net income only, of said funds, is to be paid by said Town from time to time each year to or for the benefit of those residents of said Town who are, in the sole discretion of said Town, financially unable to secure badly needed medical and/or nursing care, supplies, hospitalization, operations, x-rays, and/or assistance (including dental work) deemed necessary by said Town in any case."

LUCY HATHAWAY TRUST FUND

"Income to be 'applied for the purpose and in the proportion hereinafter specified':

- (a) One-fourth of said income to be applied to the care and improvement of the public streets in said Town of Duxbury;
- (b) One-eight of said income to be applied to the care of shade trees within the limits of the public highways in said Town of Duxbury;
- (c) One-sixteenth of said income to be applied to the care and improvement of Mayflower Cemetery in said Town of Duxbury;
- (d) One-fourth of said income to be applied to the support of the public schools in said Town of Duxbury;
- (e) One-sixteenth of said income to be applied to the purchase of books for the public library in said Town of Duxbury;
- (f) One-eight of said income to be applied to the care and maintenance of the public landings in said Town and the approaches thereto;
- (g) One-eighth of said income to be applied to the maintenance and care of public bridges in said Town."

KING CAESAR POOR AND HOSPITAL FUND

"To provide for relief of the poor and elderly citizens of said Town; and to assist any citizen of said Town who is, in the judgment of the Selectmen, otherwise unable to pay in obtaining proper medical, dental, psychiatric and nursing care by establishing, equipping and maintaining, through the Plymouth Community Nurse Association or otherwise, a program or programs of preventative medicine and a clinic or clinics for furnishing such care at convenient and accessible locations in said Town and by other appropriate means. Within 90 days following the payment to the Selectmen, they shall submit to the trust a written report as to the objects or purposes for which said payment has been or is to be expended.

MYLES STANDISH HOMESITE FUND

"Annual Meeting, Town of Duxbury 3/1/30 - Article 15 - Voted unanimously that the Town accept the homesite of Myles Standish at Standish Shore and send thanks to the Trustees of the Standish Monument Association.

Annual Meeting, Town of Duxbury 3/7/31 - Article 30 - Voted unanimously that the Town accept the gift of \$1,133.16 from the Standish Monument Association, the income from this amount to be used for the care of the lot at Standish Shore where the original Myles Standish house was located.

Annual Meeting, Town of Duxbury 3/12/60 - Article 21 - Voted to authorize the Town Treasurer to accept from time to time any and all money which may be donated to the Myles Standish Monument Fund."

THOMAS D. HATHAWAY FUND

"Income to be expended annually in the purchase, planting and replanting of shade and ornamental trees and shrubbery on and in the several Town ways and highways in said Town of Duxbury and in the care of the same, but should the Selectmen of said Town in any year or years think there was more money from said income than could be well expended for the foregoing purposes they may expend a portion of said income as shall seem to them expedient in improving the sidewalks in said Town of Duxbury."

WILLIAM PENN HARDING LIBRARY FUND

"Income to be paid by the Town Treasurer to the trustees of the Public Library of said Town, sometimes called the "Wright Memorial Library" to be expended by them in the month of May each year, in the purchase of recent books on Science, Art or Travel of a popular and instructive character, which books shall be place in said library for general circulation. Said bequest shall be designated as "William Penn Harding Library Fund" which designation shall be printed or written in all books so purchased when placed in said Library."

BRIDGE PROJECT

"Gift to assist in renovation of Powder Point Bridge".

ISABELLE V. FREEMAN POWDER POINT TRUST

"Income to be expended under direction of the Selectmen for Ambulance Services only".

ESTATE OF GERTRUDE B. COFFIN

"Gift of Use of Duxbury Library in Memory of Ida Burleigh"

"Gift for Addition to Emergency Fund Duxbury Fire Department"

AGNES E. ELLISON FUND

"The income to be used for the under-privileged children in need of medical attention, particularly to alleviate blindness and deafness."

MARIETTA F. RUSSELL SCHOOL LIBRARY FUND

"Received from the Estate of Marietta F. Russell, check for \$1,500.00 bequeathed to the Town of Duxbury by said Marietta F. Russell, under and in accordance with the provisions of Paragraph 14 of her Will, in memory of her parents, Edward B. Russell and Katherine A. Russell, to be held in Trust, and the income therefrom to be used annually for the purchase of books for the Library of the Duxbury High and Elementary Schools."

MARIETTA F. RUSSELL SCIENCE MATERIAL FUND

"Received from the Estate of Marietta F. Russell, check for \$500.00 bequeathed to the Town of Duxbury by said Marietta F. Russell, under Paragraph 34 of her said Will, the income therefrom to be used for the purchase of science materials for the Elementary and High Schools."

HARRY C. & MARY E. GRAFTON MEMORIAL SCHOLARSHIP FUND

"To establish two one-year scholarships for needy Duxbury High School seniors who plan to continue their education. The Trustees contemplate that this will be an annual award, and that each recipient will be supported for up to four consecutive years (at \$1000 per year upon satisfactory completion of the prior year) for college, or vocational training. Thus, future grants from the Grafton Trust to the Town for this purpose could be increased to a total of \$8,000 in a given year".

MARY E. CARR NEPTON SCHOLARSHIP FUND

"Terms of Will- Clause 6. All the rest, residue and remainder of my estate, both real and personal, I give, devise and bequeath to my Trustee hereinafter named, in trust as follows:

- (a) To establish a fund to be called "The Mary E. Carr Nepton Scholarship Fund of the Town of Duxbury".
- (b) The said fund to be held by the Town Treasurer of Duxbury, Massachusetts, as a trust fund, the net income therefrom to be used from time to time for the payment of a part or all of the tuition of needy male students at a recognized college or other institution of higher learning."

ANNIE DREW DUNHAM SCHOLARSHIP FUND

"Under term of Will (Accepted ATM 3/14/64, Art. 45)

Article Sixteen: (b) Three-fourth thereof I give to the Town of Duxbury, in trust, nevertheless, to invest, reinvest, and from time to time to change the investments at the discretion of said trustee, and annually (January first to December first) to pay the net income therefrom derived in a scholarship to, or on behalf of, a student selected as hereinafter provided, in furtherance of his or her education in any branch of learning which such student prefers, and which student is a resident of Duxbury who is graduating from, or has graduated from, Duxbury High School (or if Duxbury no longer shall have its own high school, then the regional or district high school of which Duxbury is a participant). Selection of such student (preferable one in the then-current graduating class)

shall be made before June first of each year by a group made up of the following members:--The Superintendent of Schools of the Town of Duxbury (or if Duxbury shall no longer have its own school superintendent, then the superintendent of the regional or district school of which Duxbury is participant); the Principal of the Duxbury High School(or if Duxbury shall no longer have its own school principal, then the principal of the regional or district school of which Duxbury is participant); and the members of the Duxbury School Committee.

Should the group hereinbefore provided, or any of them, be unwilling to accept the responsibility of selecting students, to receive such scholarships, the Town of Duxbury, may, at any regular or special Town Meeting, appoint alternates for said principal, Superintendent, and members of the School Committee, and such alternate or alternates may substitute for the person or persons unwilling or unable to participate in such selection.

The fund hereby created shall be known as "The Annie Drew Dunham Scholarship Fund", and the scholarship shall be known as "The Annie Drew Dunham Scholarship."

HARRIETT S. CROZIER SCHOLARSHIP FUND

"Under term of Will - 22nd, A. Scholarship Fund of the Town of Duxbury, Massachusetts, in memory of my late sister, Marion A. Crozier".

BENJAMIN M. FEINBERG TRUST FUND

"I give and bequeath to the inhabitants of the Town of Duxbury, Massachusetts for educational purposes the sum of fifteen hundred (\$1,500) dollars. Said sum shall be held in trust by the Town of Duxbury and the Principal thereof shall be invested so that the members of the School Committee of said Town may make an annual award to a member of each year's graduating class of the high school, who intends to pursue his or her education further, either in a college, university, trade school or other institution of higher learning. It is my desire that preference be given to a student who may be in need of financial assistance. The amount of such award shall be determined by the Trustees and shall be paid out of the annual income or out of the undistributed income of the Fund."

"The term "Annual Income" shall be the "net income" as herein defined, for the "fiscal year" of the Fund which ends prior to the date of graduation for which such award is to be made. The term "net income" as herein used shall include income received from all sources, other than gains from sales or exchanges of property, held by such Fund, after deducting all expenses property chargeable against income. Any gains or losses from sales or exchanges of property held by such Fund shall be regarded as an addition to or as a charge against Principal. The fiscal year of such Fund shall be the twelfth-month period commencing with the first day of the month in which such fund shall be created."

LUCY E. EWELL TRUST FUND

"Income to be paid over" annually to the authorities in charge of the 'Upper Cemetery' on Keene Street in the part of the Town of Duxbury called ASHDOD, to be expended by them for the care, improvement and embellishment of said cemetery."

EDWARD P. HOBART SCHOLARSHIP FUND

As per Will of Ruth C. Hobart-

"Article Fifth: I give and bequeath unto the Town of Duxbury, a municipal corporation within said County of Plymouth and Commonwealth of Massachusetts, the sum of Ten Thousand dollars (\$10,000), IN TRUST NEVERTHELESS, the net income to be paid in annual scholarships to be determined by the amount of income available for distribution in each year. Any excess over the amount necessary to make one or more full scholarships of Five Hundred Dollars (\$500.00) each shall be paid in conjunction with income earned in the year following, or subsequent years, to aggregate a full Five Hundred Dollars (\$500.00) scholarship."

"Such scholarships shall be known as EDWARD P. HOBART SCHOLARSHIPS and shall be paid in furtherance of the education of each recipient in any branch of learning chosen by such recipient. Students receiving this scholarship shall be deserving male or female graduates of Duxbury High School, or in the event that Duxbury shall discontinue having its own public high school, then male or female graduates of the public Regional High School in which Duxbury is a participant, recipients to be selected only from among those in need of financial assistance who are residents of the Town of Duxbury, and shall be designated annually by the Principal of such school".

"In any year in which, due to circumstances, any scholarship awarded is not paid, or any part of the Five Hundred Dollars (\$500.00) from such scholarship is not fully expended, or the student subsequently fails to use the scholarship aid after its award, such sums are thus turned back or available through failure to use the same, shall be returned to income for payment in conjunction with other current income or accrued income for the scholarship fund for current or subsequent years."

ARTHUR D. EATON CEMETERY FUND

Last Will and Testament of Arthur D. Eaton - Article Tenth:

"All the rest, residue and remainder of my estate to the Town of DUXBURY, a municipal corporation within said County of Plymouth, and Commonwealth of Massachusetts, IN TRUST NEVERTHELESS, the income therefrom to be expended annually by the Cemetery Trustees of said Town, insofar as may be necessary for the perpetual care of said Eaton Lot, so-called, being Lot #1259 in Mayflower Cemetery, wherein is buried the body of my late Mother, Edna L. Eaton, and in which my body is to be buried as aforesaid, and for flowers and the placing thereof annually in front of the monument on said lot on Memorial Day, and for a wreath and the attaching thereof, annually, to said monument on Christmas Day, the balance of said income in each year to be used for the general care, improvement, and the embellishment of the 'old portion' so-called, of said Mayflower Cemetery: said fund to be known as the "Arthur D. Eaton Fund".

LADIES UNION FAIR ASSOCIATION OF DUXBURY TRUST FUND

Accepted at Annual Town Meeting, March 14, 1964, Article 32. Income to be used for the general care of the old section of Mayflower Cemetery.

NELSON T. SAUNDERS MEMORIAL TRUST

Special Town Meeting held April 28, 1990, Article 9, moved and seconded that the Town vote to approve the establishment of the Nelson Saunders Memorial Trust Fund of which the principal and interest may be used for shellfish propagation and cultivation for the Town of Duxbury as approved by the Board of Selectmen on the advice of the Shellfish Advisory Committee.

MARGERY S. PARCHER MEMORIAL TRUST FUND

Special Town Meeting held November 23, 1987, Article 18, it was moved and seconded that the Town vote to approve the establishment of the Margery Parcher Memorial Trust Fund, said Fund to be used to enhance the Town of Duxbury's Annual Fourth of July activities as directed by the Board of Selectmen on the advice of the Fourth of July Committee.

EDMUND A. DONDERO SCHOLARSHIP FUND

Special Town Meeting held May 5, 1986, Article 5, it was moved and seconded that the Town appropriate and transfer \$1,000.00 from Free Cash to establish a scholarship fund, in the name of and to honor Edmund A Dondero, the income from which is to be used toward the payment of college tuition and expenses for a deserving student interested in pursuing a career in government service, with the scholarship funds to be administered and applied under the Board of Selectmen.

WILLIAM P. ELLISON CHARITABLE TRUST

Special Town Meeting held March 11, 1984, Article 4, moved and seconded that the Town vote to accept a gift from the estate of William P. Ellison and authorize the Board of Selectmen to establish procedures and decide upon uses of said gift that are to be for exclusively public purposes. The Board of Selectmen voted March 27, 1989 to approve the use of the Ellison gift for lights at Chandler Field.

RICHMOND D. WIGHT FUND

Annual Town Meeting held March 11, 1989, Article 36, moved and seconded that the Town accept a gift from the Estate of Richmond G. Wight and authorize the Board of Selectmen to establish procedures regarding the use of said gift in accord with the provision of the Will of Richmond G. Wight. "The gift to the Town of Duxbury is in trust, the income, current and accumulated, to be used in the discretion of the Selectmen or such other persons as may be designated by the Town to exercise such authority, for those proposed beneficial to the Town and its inhabitants for which adequate public funds are not available. Preference shall be given, but not limited, to uses related to the history of the Town, the preservation of historical places and buildings, and the encouragement of all forms of art and artistic appreciation and endeavor within the Town. Payment may be made to charitable organizations for such purposes.

EBEN H. ELLISON TRUST FUND

"Annual Town Meeting, April 28, 1990, Article 36, moved and seconded that the Town vote to accept a gift from Eben H. Ellison Trust and authorize the Board of Selectmen to establish procedures regarding the use of such gift in accordance with Article 36 of the warrant:

"To see if the Town will vote to accept a certain sum of money from the Eben H. Ellison Trust to be invested by the Treasurer, in which no more than one-half the income derived there from shall be disposed of for the support and maintenance of the William P. Ellison Playgrounds, and the remaining income to be used for a worthy Town need or project.

All funds are to be allocated at the discretion of two Trustees, Elton F. Drew and Clarence W. Walker, or their successors.

All funds not so expended in any given year shall be reinvested by the Treasurer. The sum of Five Hundred (\$500.00) dollars, Two Hundred Fifty (\$250.00) dollars per trustee per year, from the income shall be paid to the Trustees."

HERITAGE FUND

The Board of Selectmen voted to adopt the following motion at their meeting of July 9, 1990:

"Moved the the Town Accountant be authorized to transfer \$14,000 from the Excess and Deficiency (E & D) Fund to Duxbury Heritage Fund to be established by the Town Treasurer. Said action being consistent with the Motions adopted under Article 14 of the Special Town Meeting of March 1988, and Article 2, of the Special Town Meeting of November 1988.

The Duxbury Heritage Trust Fund shall be for promotion of the Town of Duxbury's natural, historical and cultural heritage. The Board of Selectmen shall enact rules and regulations to govern the Fund and may accept contributions to the Fund and may expend investment earnings of said Fund. Said Fund is established with the \$14,000 contribution given to the Town on behalf of the Town's 350th Anniversary Celebration.

The Town Treasurer shall each year submit to the Board of Selectmen a written account summarizing the assets, contributions and expenditures of said fund. The Selectmen may appoint a committee to advise and asist the Board in the administration of said Fund."

HELEN DELANO HOWE SCHOLARSHIP FUND

"Twenty-sixth: I give and bequeath the sum of One Hundred Twenty-Five Thousand (\$125,000) to the Town of Duxbury to establish in this Massachusetts town, a separate fund to be known as the Helen Delano Howe Scholarship Fund, the income of such fund to be awarded annually on an objective and non-discriminatory basis, in one or more scholarships, to students residing in said town who desire to continue their education after high school in an educational institution, as defined in Section 170 (b) (1) (A) (ii) of the Internal Revenue Code of 1986, as amended (the "Code"), with preference to those students intending to enter the teaching profession. Said scholarships are to awarded and administered by the process usually employed in the selection of scholarship candidates in named Town. Such awards may be made to students upon their graduation from high school and the recipients thereof shall continue to be eligible for annual awards, providing that student remains academically and personally qualified and worthy, in the discretion of the awarding authority until the student has received the bachelor's degree."

MOLLY HOPKINS TAFT LIBRARY SERVICE SCHOLARSHIP AWARD

"To provide a living memorial and at the same time to encourage academic excellence by Duxbury High School students, and especially those who are active in school library activities.

Basis for Selection of Recipient:

Academic excellence is required. If there is a Library Service Club, or equivalent student activity in assisting with the maintenance of library systems, selection should focus on a college-bound student who has participated in such activities. Demonstrated knowledge of library access procedures and unusual familiarity in

the use of reference material could aid in selection in lieu of library service although library service is preferable. Performance, not "need" is to be prime consideration. Special consideration is to be given to a student who qualifies well in the two foregoing conditions and has been accepted by Wellesley College, Molly's alma mater.

In the event the student who is thought to most nearly meet the above described conditions elects to not accept this award it should be allowed to accumulate that year, since it is intended that the recipient be selected on academic excellence and library service or unusual facility with and knowledge of reference material accession. Also, in the unlikely event that there is no suitable candidate the fund should be allowed to accumulate.

The award is to be made to reach recipient only one time; it is intended for college expenses during the first year. In the event that the designatee cannot attend a school of higher learning in the same calendar year in which the award was made -- for whatever reason--the amount awarded is to be held in the Fund for up to three years for that person's use when electing to go forward with his education. If not claimed by the end of the three year period, the award is voided and amount of the award reverts unconditionally to the Fund.

If there is a direct descendent of Molly Hopkins Taft (Molly Malvina Taft) who wishes to participate in the selection of the recipient, that person will, after obtaining School Department recommendations, have the right to determine who will be selected for the award, since it is believed that such person is more likely to understand the intent of this Fund."

WESTON-THOMPSON FUND

"To the Town of Duxbury, Massachusetts, the sum of Ten Thousand Dollars, to be held and administered by the Town Treasurer, with the advice and consultation of the Trustees of Trust Funds, as an endowment to be known as the "Weston-Thompson Fund". The income from said endowment shall be used to provide scholarships for graduates of Duxbury High School who wish to pursue their education in the vocations, such as, but not limited to, carpentry, plumbing, electrical work, auto mechanics, and electronic services, and who would, without financial assistance, be unable to advance in their chosen fields. The selection of the recipient or recipients of this award each year shall be made by the principal of Duxbury High School and the superintendent of the Duxbury school system.

ACCOUNTING

Certified free cash totaled \$2,035,284 as of June 30,2000. This represents a significant decrease from last year (33%) and resulted from using \$2,298,833 at the 3/11/2000 Town Meeting. Although the current balance is healthy, free cash will continue to be stressed by expanding local services and limited revenue growth. There is also evidence of national economic slowing, which could impact revenues. The Town is fortunate to have a \$1.3 million (at 6/30/2001) stabilization reserve, but should begin to make difficult budget decisions now. The Water Enterprise Fund had \$1,219,310 in free cash; \$900,526 in general free cash and \$318,785 earmarked for systems development.

We continued to make improvements in streamlining the Town's financial functions.

Thanks to the efforts of the Information Systems Administrator, the Collector can now apply 2,100 real estate payments each quarter with the press of a button (vs. hand posting). The sticker program is being further streamlined. The Treasurer/Collector's office has been reorganized and new workstations have been installed. Mooring collections have been transferred to the Receptionist and a record number of payments (over \$70,000) were collected as a result of a new program implemented by the Harbormaster. The annual audit was completed earlier than ever and old comments were cleared. We eliminated duplicate keypunching of the warrant between the Town and the Schools (which had existed for many years) by interfacing the account structures. Ann Marie Ellis-Stetson and Nancy Boulanger have been excellent in their capacities as acting Treasurer and acting Collector, respectively. Many of these changes would not have been possible without their thoughtful input and cooperation.

Government Accounting Standards Board (GASB) Statement 34 remains a key issue facing municipalities. GASB 34 requires a new format for the annual financial statements and requires governments to present the cost of fixed assets, infrastructure, and depreciation on their annual statements. Most medium to large cities and towns in the Commonwealth are moving toward adopting GASB 34 and many have appropriated funds to assist in the valuation of fixed assets and infrastructure. Duxbury will have to value assets as of June 30, 2002. There are two small budget requests for fiscal 2002 to address fixed assets.

One of the more memorable events of 2000 was the September visit by a group of governmental representatives from Romania. The troupe, which was comprised of mayors, finance directors, legislators, translators, and its leader, former Deputy Assessor Alan Ferguson, spent 2 weeks traveling to various municipalities to learn about local government. They spent a day in Duxbury learning about the budget process, cash flow planning, fiscal philosophies, and the Town Manager's team-oriented management approach. The conversation became lively as they noted differences in management style and fiscal projecting between the two countries! At the end of the trip, I was fortunate to host the farewell dinner, which was also attended by our Board of Selectmen, Town Manager, and families. The evening's highlight was Romanians and Americans dancing together on the deck to traditional Romanian folk music! I hope they enjoyed their visit as much as we enjoyed hosting them!

Respectfully submitted, Sheryl Strother Town Accountant

Moody's Rating

Issue Rating

General Obligation Bonds Aa2

Sale Amount \$2,708,000 Expected Sale Date 06/07/00

Rating Description General Obligation, Limited Tax

MOODY'S ASSIGNS Aa2 RATING TO DUXBURY, MA'S \$2.7 MILLION G.O. BONDS \$13.3 MILLION IN DEBT SECURITIES AFFECTED

Opinion

Moody's has assigned a Aa2 rating, with a stable outlook, to the Town of Duxbury, Massachusetts' \$2.7 million General Obligation Bonds. At this time, Moody's also affirms the Aa2 rating on \$10.6 million in general obligation debt outstanding. These bonds, which are supported by a limited tax pledge, finance school renovation projects, reconstruction of a fire station and replacement of water lines. The Aa2 rating reflects the town's growing, affluent tax base, well-managed financial operations with increasing reserves, and favorable debt position.

AFFLUENT RESIDENTIAL SUBURB OF BOSTON

Moody's believes Duxbury will continue to enjoy robust growth in assessed valuation and attract residents with very high wealth levels. Duxbury serves as a bedroom community for residents who work in the Boston (rated Aa3) metropolitan area 30 miles south. The town's taxbase has grown at a rapid pace in recent years, averaging annual assessed value growth of 8.5% since FY95 as the completion of commuter rail links in nearby Kingston (rated A1) has spurred residential development. Additional land remains available for further commercial expansion as well, but town management intends to implement a comprehensive plan to re-zone areas to control growth, and preserve waterfront properties and open space. Residential wealth levels are well above state norms and full value per capita is strong at \$102,786.

TREND OF INCREASING RESERVE LEVELS

Moody's anticipates Duxbury to continue to operate with ample financial margins, given a commitment to maintaining healthy reserve levels. General Fund reserves increased for

the fifth consecutive year, hitting \$6.5 million in FY99, the equivalent of 19.7% of operating revenues, while Stabilization Fund reserves also increased, reaching \$1.1 million over the same period. Town officials expect to maintain these reserve levels going forward. Additional flexibility is derived from unused taxing capacity of approximately 6.1% of the levy limit, which has steadily increased as planned. Current tax collection experience remains very impressive at 99%.

FAVORABLE DEBT POSITION WITH LIMITED FUTURE BORROWING PLANS.

Moody's expects the town's debt position to remain favorable given a low debt burden with a rapid payout. Net of adjustments for self-supporting water debt and state school construction aid of 67%, the town's debt burden is below average at 0.7%. In addition, principal is retired at a rapid rate of 81.9% in ten years. The current issue retires \$1.8 million in BANs and permanently finances renovations to Duxbury Elementary School and Lower Alden School, as well as construction work for the fire station and the water system. The current offering, as well as \$6.9 million in outstanding debt, is subject to Proposition 2 1/2 limits. While the town has just approximately \$3.0 million in authorization for miscellaneous projects, management plans to present to voters, a \$33.0 million referendum for additional school construction projects. Should the referendum pass and be exempted from Proposition 2 ½ limits, management plans to issue this debt within the next 2 years.

KEY STATISTICS

1998 Population (estimate): 15,353

2000 Full Valuation: \$ 1.6 billion

2000 Full Value Per Capita: \$102,786

Unemployment (2/00): 2.2%

Debt Burden: 1.0%

Adjusted Debt Burden: 0.9%

Payout of Principal (10 years): 81.9%

FY99 General Fund Balance: \$ 6.5 million (19.7% of General Fund revenues)

In Memory Of ...

In 2001, the Town of Duxbury lost a larger than usual number of citizens and employees who, over the years, have given their time and energy to make Duxbury a better place to live and work. Among those who passed away this year, we remember the following individuals:

William Burgoyne, Duxbury Police Department. Billy began his career with the Duxbury Police Department as an intermittent officer in 1976, came aboard full time in 1982, and was later promoted to Sergeant and Detective Sergeant. A member of the Honor Guard, he was enthusiastic about his profession, serving as a role model for the younger officers who served under his command. While his laughter often filled the station, his demeanor was reserved when dealing with important and critical issues involving public safety. He was overwhelmingly generous, and had a strong sense of integrity.

John "Jack" and Alice Canty. Sadly, Alice and Jack, both long-time residents, left us this year. Alice had been active in the Duxbury Housing Authority since 1992 until her passing in April. Jack, a professional engineer by trade, served the town in a multitude of ways. He served for over forty years on the Waterfront Advisory Committee; provided the Zoning Board of Appeals with his special expertise for more than 25 years, chairing the board many times, and participated in three different School Building Committees. In addition, he was a member of the Council on Aging Building Committee, the Designer Selection Committee, The Duxbury Roof Committee, and the Strategic Planning Task Force. Jack's invaluable knowledge and support to many town departments and committees will be missed. He loved golfing and woodcarving, and both he and Alice enjoyed sailing and spending time at their vacation home in Florida.

G. Arthur Horn. Originally a summer resident living in the Henry Wadsworth House on Washington Street, Arthur eventually retired to Duxbury and contributed to both the Town Buildings Committee and the Duxbury Energy Committee. His graduate degree in construction from MIT, extensive building experience, strong business principles and keen sense of logic helped him to contribute much to the betterment of the Town. Arthur and his family were members of the Duxbury Yacht Club for nearly 50 years and enjoyed seaside living.

Canon Robert E. Merry. A Duxbury native, Canon Merry left his teaching career to become an Episcopal priest, serving in Maine, New Jersey, Pennsylvania and New York, before retiring and returning to Duxbury. His contributions to the town included his nostalgic column in the Duxbury Clipper and his work in helping to develop a series of walking trails in town-owned conservation land. Canon Merry was an enthusiastic outdoorsman and enjoyed sailing Duxbury Bay in his hand-made Thistle-class sailboat.

Dr. Donald Muirhead. His background as a U.S. Naval Officer and later as a successful pediatrician contributed to both Dr. Muirhead's interests in waterfront activities and his membership on the Duxbury Board of Health, which he also chaired. Dr. Muirhead was an avid preservationist and was founding chairman of Project Bug and Gurnet Lights, Inc., and belonged to the Massachusetts Audubon Society, the Duxbury Rural and Historical Society, and the Wildlands Trust of Southeast Massachusetts. His love of the water was evident by his sailing activities, both as a member of the Duxbury Yacht Club and the Duxbury Bay Maritime School. He also enjoyed skiing, fishing and duck hunting. He was noted for his great sense of humor and his hard work, volunteerism and community leadership.

Clarice "Clare" Robbins. Clare was a latecomer to Duxbury, having moved here after retiring from a career at Yale University. She quickly became active in the community, joining the Duxbury Rural and Historical Society and serving as a docent at the King Caesar House. She was a weekly volunteer at the Thrift Shop and as a long time board member at the Duxbury Council on Aging, where she served in the office of Secretary. She was also an active participant and member of the Executive Board of the Senior Club. Upon her passing, her family donated her baby grand piano to the new Senior Center, where it holds a place of honor in her memory.

Elden Wadsworth. Ten generations of Wadsworth family have lived in Duxbury prior to Elden's arrival some 94 years ago, and he remained a resident his entire life. As the owner of his own painting and restoration business, as well as a furniture restoration and refinishing shop, he left his mark on many historic homes in Duxbury, including the King Caesar House and the Bradford House. When not restoring homes or furniture, he enjoyed the outdoors, and contributed to the Forestry, Conservation, Lands, and Green Belt Committees. He was also a member of the Odd Fellows and the Duxbury Rural and Historical Society. He is fondly remembered for sharing his love of shellfishing and Duxbury history, including local artifacts, Indian arrowheads, and other historical items, with local schoolchildren.

Board of Selectmen

2001 was a year filled with achievements and memories. The year was highlighted by the opening of the spectacular new Senior Center which will allow the Council of Aging to operate out of its first permanent home. With its many new classrooms, kitchen facilities and craft rooms, it will become popular with our Senior citizens and its meeting rooms will be well utilized by the rest of the community during the evenings and weekends. Duxbury was also one of the first communities in the Commonwealth to be designated by the Anti-Defamation League as a "No Place for Hate" community. This distinction was achieved through the efforts of the Duxbury Interfaith Council, school and town officials.

Another major achievement was the purchase of the new Millennium Town Green on Washington Street from the Sisters of St. Margaret's Society. A true public/private partnership, the project preserves a beautiful scenic vista from future development while providing land for Duxbury's first Town Green. The space will be used for Town gatherings such as the lighting of the holiday tree and various forms of passive recreation. The project was spearheaded by Pat Loring, who was later awarded "Conservationist of the Year" for her efforts, and was made possible by the Wildlands Trust as well as a tremendous fund raising effort by hundreds of citizens who raised \$300,000 to make the purchase possible.

Work began on several prominent new projects in Town, including new sidewalks on Chestnut Street, the Bay Road shared septic system, new playing fields on Keene Street and a major school expansion project. Based on recommendations made by the Selectmen-appointed Sidewalk Study Committee, the Chestnut Street project represents Phase I of a long range sidewalk installation program to improve pedestrian safety. The project, to be completed in the Spring of 2002, involves installing a new sidewalk from Tremont Street to Hall's Corner. The Bay Road shared septic project finally began construction in the fall with a second contractor after the original contractor declared bankruptcy. This important project, scheduled for completion in the spring of 2002, is the third and final phase of work to help clean Duxbury Bay from leaking septic systems. A total of 30 homes will be hooked to the system. Several new ball fields were constructed on Keene Street under the direction of the DPW. The much needed fields will be ready for play in 2002. And finally construction of new building additions at the Chandler, Alden and Middle Schools are well underway. The project will also include a new Performing Arts Center.

The Comprehensive Zoning Bylaw Implementation Committee (CZBIC), appointed by the Selectmen and Planning Board, is continuing its review of the zoning bylaws. The committee expects to present its recommendations for zoning changes at a spring 2002 special Town Meeting. There has also been much activity in the area of Affordable Housing. A beautiful new house was completed by Habitat for Humanity on land donated by the Town. The project, entirely funded by private donations and constructed with volunteer labor, was so successful that a second home is being planned. The Affordable Housing committee appointed by the Selectmen, together with the Duxbury Housing Authority, are studying ways to proactively provide more affordable housing units in town. Currently there are two controversial Chapter 40B housing developments being proposed for Duxbury.

It is with great sadness that we note the passing of several prominent citizens who worked tirelessly on behalf of the town as volunteers or employees, including William Burgoyne III, Alice and Jack Canty, Arthur Horn, Robert Merry, Donald Muirhead, Clarice Robbins, and Elden Wadsworth. We will truly miss these dedicated individuals.

But perhaps the events that we will most remember in 2001 occurred outside of Duxbury - the September 11 terrorist attacks on the World Trade Towers and Pentagon and the subsequent anthrax scares. These tragic events certainly affected everyone in Duxbury. From those who knew people who perished or were injured in the attacks, to those whose businesses were directly or indirectly affected, to those who felt persecuted because of their religious beliefs or ethnicity, or to those who were uncertain of how these events would affect future life in the United States – each of us were in some way touched by these tragic events. But despite the tragedy, fear and uncertainty, the people of Duxbury responded positively and with compassion. Hundreds of people came to a very moving community vigil for peace and healing on

the new Town Green sponsored by the Duxbury Interfaith Council; several impromptu prayer vigils were held at local churches on the night of the attacks; children and adults raised thousands of dollars to aid the victims of the attacks; and everywhere you turned the American flag flew proudly. The people of Duxbury as well as people all around the nation demonstrated that the American spirit is alive and well, and that not even direct attacks against us could change our fundamental principles. It was a time to reflect on the joys and blessings we share, our families and friends, and the importance of our community.

Respectfully submitted,

Andre Martecchini, Chair Margaret M. Kearney John J. Tuffy

Town Manager

Introduction

The Town of Duxbury as an organization had a productive year and accomplished many goals that are noted throughout this report. However, the notable event of the year, and probably of our lifetime, was the World Trade Center tragedy of September 11th. As this report is being written, we still struggle with the deaths that resulted from this tragedy and the impact of this catastrophic event. As an organization, we are all challenged to gauge the impact of the September 11th event in the weeks and months to come. We pray for a peaceful conclusion.

In this report I will focus on a few of our local accomplishments looking back at the year 2001.

No Place for Hate Program

The No Place For Hate Program (NPFH) was initiated in 2001 and the Town of Duxbury became one of the first 13 communities in the Commonwealth to become recognized as a No Place For Hate Community. The gist of the NPFH program is a statement that our community will not accept any form of hate or discrimination and we will be proactive in this effort. The NPFH Program is a very significant and positive joint effort by the Town and School organizations and the community as a whole. Mr. Harry Katz was the person responsible for packaging the Town's program application and working with the Town, School and Interfaith Council. His effort in Duxbury was so impressive that the Anti-Defamation League recognized Mr. Harry Katz with a statewide award (The Tishner Award) for his work, commitment and diligence within the Town of Duxbury. Harry's successful effort, with support of the Interfaith Council, was adopted and endorsed by the Board of Selectmen. The No Place For Hate Program will become an integral part of Town Government. In December, the ADL staff participated in a Department Head meeting and offered Diversity training for the management staff. The NPFH Program activities will be a routine part of Town Government and community outreach in the years to come.

Bond Rating Improvement

For many years, the Town of Duxbury sustained a credit rating of AA(2) by Moody's Financial Services. The rating is a very high rating and the Town traditionally received excellent interest rates when bonding. The Town's Fiscal Team, which includes the Town Accountant, the Collector-Treasurer, the Deputy Assessor and the School Business Manager, developed a program about the community's fiscal wellness. Our Information System Administrator contributed to this project as well. We decided to engage both Moody's and Standard and Poor's to review our bond rating. The program was a very thorough review of the Town's financial picture. The presentation to each entity took the greater part of a day.

At the conclusion of the effort, Moody's decide to maintain the Town's AA(2) rating. However, Standard and Poor's decided our bond rating should be improved a step to AA(+)! Standard and Poor's rating is one step below AAA.

As previously noted, a rating of AA(2) is very good but a rating of AA(+) is even better! The Team effort was enriching, rewarding and hopefully beneficial to our organization and the community.

Workplace Violence Training

Several members of the Town's management staff were trained to address workplace violence issues. We participated in this training with the Towns of Plymouth, Mashpee and Falmouth. There have been a significant number of workplace issues throughout the nation in both the public and private sectors. The training will help the Town staff to recognize potential problems before they evolve, promoting preventative action. Several case studies were presented, examined and evaluated to help learn from past experiences. I am very grateful for the commitment of the Fire Chief, Library Director, Conservation Administrator, the Director of the Council on Aging as well as the Lieutenants in the Duxbury Police Department for participating in this training. I am pleased we have a number of conscientious, knowledgeable managers who understand the nature of this problem. Their collective effort will help lead the organization and be proactive in addressing any potentially serious issues which may arise from time to time.

Our challenge, looking to the future, is to make the entire workforce knowledgeable about all facets of workplace violence.

Town of Duxbury - Web Page

During the year, Town Departments worked diligently to develop a Web site with the leadership, direction and support of the Information Systems Administrator. After taking the time to learn the basics of the Web Site planning, we finalized the site near the year's end. The site was activated early in the calendar year 2002.

Duxbury Senior Center

The Senior Center construction was completed by the year's end and finally opened. The opening celebration was a memorable and successful community event.

The architectural design is phenomenal and the quality of construction is second to none! Many citizens, as volunteers, were an integral part of this successful effort. The Town of Duxbury now has an outstanding facility that will serve our community well.

Summary

There are a significant number of milestones achieved this year. The effort, dedication, energy and enthusiasm that exist in our organization are unmatched. It remains a privilege to work in an organization with such outstanding and competent professionals and volunteers. I am proud to be affiliated with outstanding employees, Department Heads and Board of Selectmen. I am especially indebted to Karen, Fay (who retired this year) Becky and Nancy, all of whom have made my job much easier. I am especially grateful for the partnership with Town Counsel, whose success with this year's legal action was extraordinary.

Rocco J. Longo Town Manager

Reports of the Town Clerk

Annual Town Meeting

March 10, 2001

The Annual Town Meeting was held on Saturday, March 10, 2001 at 9:20 am, recessed at 9:32 am until the adjournment of the Special Town Meeting sine die at 2:45 pm and recessed at 5:30pm until Monday, March 12, 2001 at 7:30 pm and adjourned sine die at 10:32 pm. All were held at the Duxbury Middle School, the T. Waldo Herrick Memorial Gymnasium, St. George St., Duxbury, MA.

The Meeting was called to order by the Moderator. The meeting joined in a Pledge of Allegiance to the flag with the Duxbury Police Color Guard. It was moved, seconded and carried to permit non-voters to speak when necessary. The meeting joined in welcoming all the young residents that became American citizens on Feb. 27, 2001 due to the passage of the Delahunt bill.

Article 1-Moved and seconded that the Town Moderator and Board of Selectmen be authorized to appoint the officers not chosen by ballot.

Motion carried

Article 2-Moved and seconded that the Town vote to receive the reports of its Town Officials, Boards, Committees and Commissions as printed in the Annual Report for 2000.

Motion carried

Article 3-Moved and seconded that the Town vote to fix the compensation of the Elected Officials for the twelve month period beginning July 1, 2001 as set forth in the column entitled "Finance Committee Recommend" and raise and appropriate the sum of \$65,160 for the purposes of this article (the Town Clerk salary \$55,120).

Motion carried

Article 4-Moved and seconded that the Town vote to accept any sums of money that may be available from the State Highway Fund and such additional sums as may be made available from other county, state or federal agencies for highway related work and to further authorize the Board of Selectmen to borrow in anticipation of receipt of said funds in accordance with Massachusetts General Laws Chapter 44, sections 4, 6, and 6A.

Motion carried

Article 5-Motion 1-Moved and seconded that the Town vote to raise and appropriate the sum of \$1,479,600 for General Government for the purposes and in the amounts designated in the column titled "FY 02 FIN COM" in Article 5 in the warrant, with the following changes, the Conservation expense line should be \$7,250 instead of \$12,250 making the Conservation Budget total \$80,794:

Funds to be expended under the direction of the School Superintendent.

Motion carried

It was moved and seconded that the meeting be recessed at 5:50pm until Monday, March 12, 2001 at 7:70pm this place.

Motion to recess carried

The meeting reconvened at 7:35pm on Monday, March 12, 2001

Article 7-Personnel Plan-Moved and seconded that the Town vote to amend the Town Bylaw known as the Duxbury Personnel Plan, originally accepted March 12, 1955 and last amended March 11, 2000 by replacing it with the revised bylaw which is on file at the Town Clerk's office and as set forth in the handout's entitled "Article 7 Duxbury Bylaw Changes" to become effective July 1, 2001 and to appropriate the sum of \$110,000 for the purposes of this article and to meet this appropriation to raise and appropriate the sum of \$107,770 and transfer from Water Revenue the sum of \$2,230.

Motion carried

See appendix A.

Article 8-Collective Bargaining- Moved, seconded and carried to indefinitely postpone.

Article 9-Duxbury Beach Lease-Moved and seconded that the Town vote to raise and appropriate the sum of \$150,000 to be expended under the direction of the Town Manager for the purpose of leasing Duxbury Beach, being that portion of land in the Towns of Duxbury and Plymouth owned by the Duxbury Beach Reservation, Inc. South of a line running approximately east to west along the northerly edge of the northerly parking area, at the east end of the Powder Point Bridge (subject to the Migratory Shore Bird Refuse at High Pines and excluding the land at High Pines leased to a third party) and authorize the Board of Selectmen to execute a lease in the name and on behalf of the Town for the period beginning July 1, 2001 and ending June 30, 2002 on such terms as may be approved by the Board of Selectmen.

Motion carried unanimously

Article 10-Merry Land Acquisition-Moved and seconded that the Town vote to authorize the Board of Selectmen to acquire by purchase for Conservation purposes pursuant to General Laws Chapter 40, section 8C, and Water supply purposes, a parcel of land consisting of approximately 14.219 acres of land with buildings thereon, as shown on a plan on file at the Town Clerk's office, and to appropriate the sum of \$596,000 for the purpose of this article, including incidental and related costs, and to meet this appropriation the Treasurer, with approval of the Board of Selectmen is authorized to borrow \$359,000 pursuant to the provisions of General Laws Chapter 44, section 7(3), and to borrow \$102,000 pursuant to Chapter 44, section 8(3), accept a gift of \$35,000 from the Wildlands Trust of Southeastern MA, for a total of \$596,000, and to authorize the Town to take an easement for Water supply purposes to be held under the care, custody and management of the Board of Selectmen, acting as Water Commissioners.

2/3 vote required

Motion carried unanimously

Article 11-Conservation Com. Revolving Fund-Moved and seconded that the Town vote to authorize a revolving fund pursuant to General Laws Chapter 44, section 4, section 53E 1/2 and to credit all fees for consulting services established pursuant to the authority granted under the Town of Duxbury Wetlands Protection Bylaw and set forth regulations established thereunder to such fund in an amount not to exceed \$30,000; funds to be expended without appropriation and under the direction of the Conservation Commission.

Article-12-Petition to the General Court-Serge Roy Land Swap-Moved and seconded that the Town vote to authorize the Board of Selectmen to petition the GENERAL Court to transfer and exchange a certain portion of real estate, off of Franklin Street, containing approximately 0.31 acres, more or less, shown as Parcel "A" on a plan entitled "Plan of land, 580 Franklin Street in Duxbury, MA." on file at the office of the Town Clerk, acquired by the Town for Conservation purposes, in exchange for a certain parcel of land, containing .60acres, more or less, shown as parcel "B" on the aforementioned Plan and to authorize the Board of Selectmen to file a petition in substantially the same form as set forth in this vote with the General Court as well as to take any and all necessary acts to effectuate the purposes of this article.

2/3 vote required.

Motion carried unanimously

Article 13-Conservation Commission-Conservation Fund-Moved that the Town vote to raise and appropriate the sum of \$75,000 to be added to the Conservation Fund for the purposes authorized by General Laws Chapter 40, section 8C; said funds to be expended under the direction of the Conservation Commission.

Motion carried

Article 14-Conservation Com. Preservation Act-Moved, seconded and carried to indefinitely postpone.

Article 15-Conservation Commission Community Preservation Act Committee-Moved and seconded that the Town vote to amend the General Bylaws, of the Town by adding a new section, Numbered 6.12, to Chapter 6, as printed in the warrant, entitled "Community Preservation Committee," said amendment to the Bylaw to be contingent upon approval by Town voters of a Ballot question at the Annual Town Election to be held on March 24, 2001, said Ballot question to ask voters to adopt the Community Preservation Act.

- 1. A vote to move the question and stop debate on the main motion. 2/3 vote required failed by a vote of Yea-145 and No-86.
- 2. An amendment to increase the board to nine members, changing the at-large members from 2 to 4, appointed by the Moderator-appointed for staggering terms. Failed by a tie vote of Yes-112 to No-112.

Main motion carried

Article 16-St. Margaret's Acquisition-Moved and seconded that the Town vote to authorize the Board of Selectmen to acquire, by purchase, on terms deemed in the best interest of the Town, a parcel of land shown as Lot 1 on a Plan of Land dated November 22, 2000 entitled "Disposition Plan" on file at the office of the Town Clerk and to appropriate the sum of \$95,000 for the purposes of this article and to meet this appropriation, to authorize the Treasurer to borrow the sum of \$95,000, pursuant to the provisions of Chapter 44 of the Massachusetts General Laws and further to authorize the Board of Selectmen to apply for and receive any and all state, federal, private or public grants and to receive any gifts for the purpose of this article and further to authorize the Board of Selectmen and the Conservation Commission to approve Conservation Restrictions on the parcels of land shown on said "Disposition Plan" in substantially the same form as shown on draft restrictions on file at the office of the Town Clerk.

2/3 vote required

Motion carried unanimously

Motion 17-Easement King Caesar Rd-Moved and seconded that the Town authorize the Board of Selectmen to grant, on terms the Board deems in the best interest of the Town, an easement for utilities through King Caesar Rd. to Greg Hunter as shown on a Plan on file at the office of the Town Clerk. 2/3 vote required.

Motion carried unanimously

Article 18-Easement Harrison Street-Moved and seconded that the Town authorize the Board of Selectmen to grant, on terms the Board deems to be in the best interest of the Town, an easement for utilities through Harrison Street to Duxbury Yacht Club as shown on a Plan on file at the office of the Town Clerk. 2/3 vote required.

Motion carried unanimously

Article 19-Massachusetts Technology Park Corporation (MTPC) Grant-Shared Contract with SEMASS for solid waste.-Moved and seconded that the Town authorize the Board of Selectmen to accept Grant funds from the Massachusetts Technology Park Corporation in accordance with General laws Chapter 40J, section 4E and to apply and transfer the funds to offset fees incurred with SEMASS Partnership Contract.

Motion carried

Article 20-SEMASS Contract-Moved and seconded that the Town vote to authorize the Town Manager with approval of the Board of Selectmen to negotiate the extension of the existing SEMASS Partnership Contract for solid waste disposal for a period up to 12 years.

Motion carried

Article 21-Dept Public Works-Land Acquisition-previously covered-Moved, seconded and carried to indefinitely postpone.

Article 22-Street Acceptance-Moved and seconded that the Town vote to accept the Layout of Rogers Way and Ryan's Lane Extension as Public Ways in accordance with the descriptions and plans on file at the office of Town Clerk and further to authorize the acquisition by eminent domain of the property within said ways and to authorize the Board of Selectmen and the Director of Public Works to take any and all

Actions necessary to accomplish the purposes of this article. 2/3 vote required. A 2/3 vote carried declared by the Moderator

Article 23-Drainage Easements Chestnut St.-Moved and seconded that the town vote to authorize the Board of Selectmen to receive as gifts, and to accomplish the receipt of these gifts to take, by eminent domain, drainage easements to facilitate the reconstruction of the road and integrated sidewalk on Chestnut Street as shown on a plan on file at the office of the Town Clerk, and to raise and appropriate the sum of \$100.00 for the purpose of this article, and further to authorize the Board of Selectmen to take any and all necessary acts to effectuate the purposes of this article. 2/3 vote required-- Motion carried unanimously

Article 24-Senior Tax Relief-Moved and seconded that the Town appropriate the sum of \$5,000 to fund the Senior Tax Relief Program to provide Senior Citizens with real estate tax vouchers for services rendered to the Town pursuant to an agreement between the Council on Aging and the Board of Selectmen and to meet said appropriation raise and appropriate the sum of \$3,000 and transfer the sum of \$1,000 from Article 20 March 1999 Annual Town Meeting Senior Tax Relief Program and to transfer the sum of \$1,000 From Article 11 March 1998 Annual Town Meeting Senior Tax Relief Program.

An amendment to increase the sum to \$10,000 failed.

Main Motion carried

Article 25-Council on Aging Revolving Fund-Moved and seconded that the Town vote to authorize a revolving fund pursuant to General Laws Chapter 44, section 53E 1/2 and credit all fees and charges received from the Senior Center Programs to such funds in an amount not to exceed \$10,000; said sum to be expended under the direction of the Council on Aging Director for Senior Center functions, supplies, or instructor fees.

Motion carried

Article 26-Fourth of July Parade-Moved and seconded that the Town vote to raise and appropriate the sum of \$10,000 to fund the Town "Fourth of July" parade and ceremony.

Motion carried

Article 27-Cable Com. Contract Negotiations-Moved and seconded that the Town vote to raise and appropriate the sum of \$15,000 to pay for professional legal services to negotiate a Cable Service Contract under the direction of the Town Manager with approval of the Board of Selectmen.

Motion carried

Article 28-Sewer Treatment Plant- Moved and seconded that the Town vote to appropriate the sum of \$3,100,000 to be expended under the direction of the Town Manager and Superintendent of Schools, with the approval of the School Committee for the construction of the Sewer Treatment Plant at Duxbury High School and to meet this appropriation the Treasurer, with the approval of the Board of Selectmen, is authorized to borrow the sum \$3,100,000 under Chapter 44 or 70B of the General Laws or any other enabling legislation. Said appropriation is voted in accordance with Massachusetts General Laws Chapter 59, section 21C(M) to be contingent upon the approval by Town voters of a Ballot Question at the Annual Town Election to be held on March 24, 2001, said Ballot Question to ask the voters to exempt from the provisions of Proposition 2 1/2, so called, the amounts required to pay for the bonds to be issued for the construction of said Sewer Treatment Plant. 2/3 vote required.

Motion carried unanimously

Article 29-North Hill Com. Plan- Moved, seconded and carried to indefinitely postpone.

Article 30 Recreation Dept- Com. Master Plan-Moved, seconded and carried to indefinitely postpone.

Article 31-School Dept Medicaid Reimbursement-Moved and seconded that the Town vote to raise and appropriate the sum of \$29,500 to reimburse the School Department for the cost of processing Medicaid reimbursement requests for certain Special Education related services and to pay the School 50% of the remaining balance of funds received.

Motion carried

Special Town Meeting March 10, 2001

The meeting was called to order after the Annual Town Meeting was recessed at 9:32 am and recessed at 1:07 pm for lunch until 2:30pm and adjourned sine die at 2:45 pm. The meeting was held on March 10, 2001 at the Duxbury Middle School, T. Waldo Herrick Memorial Gymnasium, St. George St., Duxbury, MA.

Article 1-Moved and seconded that the Town vote to appropriate the sum of \$39,436,000 for designing and constructing expanded school facilities in accordance with the Master Facilities Plan approved by the Duxbury School Committee, said sum to be expended under the direction of the Superintendent of Schools and the Town Manager, and with the approval of the School Committee and to authorize the Treasurer, with the approval of the Board of Selectmen, to borrow the sum of \$39,436,000 pursuant to Chapter 44 or 70B of the Massachusetts General Laws or any other enabling authority and further to authorize the Superintendent of Schools and the Town Manager to take all necessary actions to carry out this project, said appropriation in accordance with Massachusetts General Laws Chapter 59, Section 21c(m) to be contingent upon approval by Town voters of a ballot question at the Annual Town Election to be held on March 24, 2001, said ballot question to ask voters to allow the Town to exempt the debt from the provisions of proposition 2 1/2, so called, the amounts required to pay for the bonds to be issued for said design and construction.

- 1. An amendment -Move and seconded that the Performing Arts be deleted from the vote and divide the question first voting on the Performing Arts Center and secondly the rest of the question. Motion for an amendment failed.
- 2. A motion to move the amendment question -carried by the Moderator declaring a 2/3 vote-moved the amendment.
- 3. An amendment to move the previous question to end debate on the main motion. Failed to obtain a 2/3 vote. Yes 501 and No 364
- 4. An amendment to move the previous question carried by the Moderator declaring a 2/3 vote.

Vote on the Main Motion carried 2/3 vote required-Yes 694 and No 93.

Article 2-Moved and seconded that the Town vote to transfer the sum of \$5,000 from the Recreation Department Pool Department 631 of Schedule 5100 Salary Account to the Recreation Department Pool Department Schedule 5700 Expense Account for the Fiscal Year beginning July 1,2000.

Motion carried

Article 3-Moved and seconded that the Town vote to appropriate the sum of \$16,688 for the purpose of this article and to meet this appropriation to transfer the sum of \$16,688 from the appropriation voted in Article 6 of the 1998 Annual Town Meeting and further to authorize the Selectmen to accept any gifts for the purpose of a new Animal Control Shelter to be located as shown on a plan on file at the office of the Town Clerk and further to authorize the Board of Selectmen to apply for and receive any grants for the purposes of this article.

Motion carried

Article 4-Moved and seconded that the Town vote to authorize the Board of Selectmen to negotiate an Inter-municipal Agreement with the Towns of Pembroke and Hanson on terms and conditions deemed to be in the best interest of the Town for the purposes of acquiring, maintaining and operating Capital Equipment to be shared by the three towns.

Motion carried

Article 5-Moved and seconded that the Town vote to appropriate the sum of \$4,952.33 to pay the following bills of previous Fiscal Years which are legally unenforceable due to the insufficiency of an appropriation and to meet said appropriation transfer the sum of \$4,952.33 from Free Cash:

New England Marine	\$ 20.80
Snug Harbor Boat Works	696.00
Andrea's Police Supply	286.90

Ballot Questions

Question 1. Preservation Act

Shall the Town of Duxbury accept Sections 3 to 7, inclusive of Chapter 44B of the General Laws, as petitioned by Duxbury voters? A summary of which appears below:

Summary-Sections 3 to 7 inclusive of Chapter 44B of the General Laws of Massachusetts also known as the Community Preservation Act, which establishes a dedicated funding source to enable cities and towns to (1) acquire open space, which includes land for park and recreational uses and the protection of the public drinking water well fields, aquifers and recharge areas, wetlands, farm land, forests, marshes, beaches, scenic areas, wildlife preserves and other conservation areas, (2) acquire and restore historic buildings and sites, and (3) create affordable housing.

In Duxbury the funding source will be a surcharge of 3% on the annual property tax assessed on real property and annual distributions made by the state from a trust fund created by the Act. A taxpayer receiving a regular property tax abatement or exemption will also receive a pro rata reduction in surcharge. A Community Preservation Committee will be established by Bylaw to study community preservation resources, possibilities and needs and to make annual recommendations to Duxbury Town Meeting on spending funds. At least 10% of the funds for each fiscal year will be spent or reserved for later spending on each of the Act's three community preservation purposes: (1) open space, (2) historic resources and (3) affordable housing. Respectfully submitted,

Nancy M. Oates Duxbury Town Clerk

The House of Representatives -An Act Validating the action taken at the Annual Town Election held in the Town of Duxbury was signed on October 18,2001 by the House, by the Senate on October 22, 2001, and signed by Acting Gov. Jane Swift on October 29,2001. A procedural error in reposting the Election Warrant with the actual wording of all the questions necessitated the need for a Special Act-Chapter 120.

Special Town Meeting - June 11, 2001

A Special Town Meeting was held on June 11, 2001 at the Duxbury High School Auditorium, 130 Saint George St., Duxbury, MA at 7:30pm.

The Moderator called the meeting to order and dispensed with the reading of the call to the meeting and the return of service. All normal procedures were dispensed with and it was moved and seconded at 7:50pm to recess the meeting until Monday, June 25, 2001 at 7:30pm this place. The motion to recess carried.

On Monday, June 25, 2001, the Moderator called the meeting to order at 7:33pm and since the matter of the St. Margaret land purchase had been resolved, the meeting was indefinitely postponed sine die at 7:34pm.

Respectfully submitted,

Nancy M. Oates
Duxbury Town Clerk

Cable Advisory Committee

The Cable Advisory Committee assists the Board of Selectmen in administration of licenses between the Town of Duxbury and the cable communication providers. It supports and advises the Town in the negotiations of these contracts, and works as a liaison between the Town and the cable supplier in day-to-day operations. The cable committee oversees the operation of the Town's Public Access Channel and advocates for the Town's Government Channel. The advisory committee is the subscribers' ombudsman in dealings with the supplier.

Options for licensors are as rapidly changing as other facets of the telecommunication industry. Duxbury is preparing to enter into contract negotiations with future cable suppliers. In the spring, the committee met twice with the municipal liaison of the Cable Television Division of Department of Telecommunication and Energy to review methods and procedures for cable licensing. In preparation for the upcoming process, the committee met with several attorneys who specialize in telecommunications and cable license issues. The committee has worked with the Town Manager in the preparation of its recommendation for contract renewal procedures.

The committee monitors Duxbury cable customer satisfaction in areas such as broadcast quality, programming and service. In a project funded by the town, the University of Massachusetts conducted a scientific survey of Duxbury cable subscribers. The university conducted telephone interviews in March 2001, and delivered the final report with analysis in the summer. In September, the committee presented the survey results to the Board of Selectmen. Both The Duxbury Clipper and The Duxbury Reporter provided detailed coverage of the selectmen's meeting and the survey findings. In October, the Cable Advisory Committee conducted the third of its Annual Open Forums. At the forum, interested citizens joined with the Cable Advisory Committee and representatives of Adelphia to discuss the survey results. The subscribers focused on disappointment with programming and frustration with Internet service quality. Adelphia Manager, Deborah O'Brien, announced some long sought improvements in programming to begin February 2002. Adelphia's representatives acknowledged the problems with Internet service and assured attendees that the corporation was seeking solutions. The committee continues working with the cable supplier on these issues.

The committee regularly reviews the existing contract. It informs town departments, non-profit organizations and individuals of materials and services to which they are entitled. The cable committee has consulted with several town departments and has contacted all non-profit organizations to inform them of services available to them. The committee intervenes for the organizations to facilitate their obtaining services from the cable supplier.

The present license requires Adelphia to provide a public access channel (13), studio and staff. The committee monitors studio-user satisfaction, and advises on purchase and upgrade of equipment. The studio acquired additional digital editing equipment and a new bulletin board system for the channel. The Channel 13 viewers are familiar with the popular Young Adults Group filmmakers' programs and Oscar Night. The Public Eye, Professionally Speaking, Talking Wrestling and The Baptist Church Service remain local favorites. The committee recognizes the enthusiastic support of youth and community interest programming of Nancy O'Connell, Channel 13 Station Manager, and David Dondero, Assistant Manager.

The telecommunication environment in Southeastern Massachusetts is rapidly changing. Duxbury's committee meets with other cable committees in the region to foster exchange of ideas and information. The Duxbury Cable Advisory Committee continued its commitment to the regional cable committee concept by participating in several regional meetings held at Marshfield Town Hall, and attended by cable committee members from towns of Southeastern Massachusetts. As an extension of the coalition, committee members of Marshfield, Pembroke, Kingston and Duxbury attend neighboring towns' committee meetings and communicate frequently.

- The Cable Advisory Committee is pleased to welcome a new member, Jean Kennett.
- The committee thanks The Duxbury Clipper for carrying the popular newspaper column by Anne Sheehan.
- The committee is grateful to community volunteers and the Adelphia's staff for making possible the broadcast of the Selectmen's Meetings on the Town Government Channel (Channel 15). The committee has planned for the broadcast of other town committee meetings in FY 2003.
- Contact the committee through the Selectmen's Office or email Cable@Town.Duxbury.MA.US.

Respectfully submitted, Lynn Smith, Chairman John Sweeney, Vice Chairman William Holmes, Clerk

Ann Sheehan, Corresponding Secretary Mary Beth MacQuarrie, ad hoc Robert Knapp Charles Vautrain, ad hoc Jean Kennett Richard Miller Nancy Shine

Conservation Commission

The Duxbury Conservation Commission is pleased to report on its activities for year ending June 30, 2001. The Commission handled over 100 Notices of Intent and Requests for Determination on projects ranging from modest renovation, to pier construction, to subdivisions. These activities demand the most time of the Conservation Department.

The following table summarizes the department activity for the last five years. Please note that each activity requires a minimum of one public hearing and some require two or three to conclude our business.

Applications By Calendar Year

	1997	1998	1999	2000	2001	Comment
Notices of Intent	66	71	57	47	64	These are formal permits to control activities within 100 feet of Duxbury's protected wetland resource areas or within 200 feet of a river.
Determinations of Applicability	34	35	31	46	41	This is a less formal process, to determine whether the proposed activity will require a full permit.
Certificates of Compliance	37	45	34	35	22	This is the process which closes a permit upon successful completion of all required activities, within 3 years after the permit is issued.
Wetland Delineations	17	28	24	34	25	These are field inspections by the Conservation Administrator to determine the location of the wetland boundary by those seeking permits.
Permit Extensions	0	2	6	3	2	
Amended Permits	4	1	3	7	1	
Enforcement Orders	4	8	5	2	9	These are field formal citations by the Conservation Commission & Administrator, usually for disrupting wetlands.

The one significant acquisition completed was the 14.2 acre Merry parcel on West Street. Of note was the fact that this acquisition was not only a joint venture with the Water Department, but also we received \$35,000 from the Wildlands Trust of Southeastern Massachusetts. Finally, a Self-Help Grant from the Commonwealth of Massachusetts, Division of Conservation Services provided \$250,000 of the \$585,000 purchase price.

The Commission in a joint project with the towns of Kingston and Pembroke, help to secure a Conservation Restriction on 9.9 acres of land bordering the three towns acquired by the Jones River Watershed Association. Again, the Wildlands Trust was a participant with us.

In addition to the regulatory and land acquisition roles the Commission plays, we also manage over 2,300 acres of Conservation land. As part of that stewardship, we are in the process of publishing brochures describing parcels which lend themselves to hiking, boating or other public uses. During 2001, brochures for Duxbury Bogs and Round Pond were prepared and we are currently working on Trout Farm, Camp Wing, Bay Farm, and North Hill.

In another joint project with Hanson and Pembroke, the three towns received a grant for \$100,000 from the Commonwealth of Massachusetts for the purchase of a weed harvester to help with weed control in our numerous ponds.

The Commission and the Conservation Agent, Joe Grady, were proud to have been involved with both the Millennium Green project and the adoption at Town Meeting of the Community Preservation Act. The Green will serve the Town as an example of landowners and the Community working together for preservation of highly visible open space. The Community Preservation Act, while still in its infancy, holds the promise of stabilizing financial resources for future land acquisitions. The Commission, however, remains the only Town agency dedicated to land preservation and we intend to continue our acquisition program in support of the Community Preservation Committee.

All of the Commissioners, in addition to our bi-weekly hearings, have accepted responsibility for one of the following specific areas: Duxbury Beach Order of Conditions; Community Preservation Committee; Comprehensive Plan Zoning Bylaw Implementation Committee (CZBIC); Bylaw Review; Open Space Plan Revisions or Land Acquisitions.

We would be remiss if we did not mention the passing of three individuals who have played instrumentally in the Duxbury Conservation effort. The Reverend Canon Merry, Dr. Donald Muirhead, and Elden Wadsworth each made significant contributions and their support will be missed.

As usual a "tip of the hat" to both Peter Buttkus and Paul Balboni and their crews in the Department of Public Works for their help with maintenance work.

Finally, the Commission and the Town owe a debt of gratitude to Joe Grady, the Conservation Administrator, and Pam Johnson, Administrative Clerk, without their efforts much of the Commission's accomplishments would not have been possible.

Respectfully submitted,

Friend Weiler, Chairman Mark Mahoney, Vice Chairman Molly Bartlett Brendan Halligan Anne Hill Arthur Vautrain Sam Butcher

Community Preservation Committee

The March 2001 town election approved the Community Preservation Act (CPA). The CPA allows a town to impose a surcharge on property taxes and to receive matching state funds for specified uses. Duxbury began to collect CPA funds in July 2001. These funds are dedicated and are in an interest earning account. The state match will be received in October 2002.

As part of the requirements of the CPA, the March Duxbury Town Meeting approved a new bylaw establishing a Community Preservation Committee (CPC). The Community Preservation Committee's main responsibility is to make recommendations for Town Meeting approval to fund eligible projects using CPA funds. The CPA requires the CPC to study the needs, possibilities and resources of the Town regarding community preservation and to solicit input from its citizens and organizations. There are seven members on the Duxbury CPC, five representatives from existing town committees and two appointed by the Board of Selectmen.

The uses of CPA funds include "the acquisition, creation and preservation of open space, for the acquisition and preservation of historical resources, for the acquisition, creation or preservation of land for recreational use, for the creation, preservation and support of community housing and for rehabilitation or restoration of such open space, historic resources, land for recreational use and community housing that is acquired or created as provided in this section". The full text of the CPA, Chapter 267 of the Acts of 2000 is available at the library or on-line at http://www.communitypreservation.org/statelegis.htm.

Since June 2001, the CPC has been meeting in open session every two weeks in Town Hall. The CPC has been getting information from town officials and others on the existing resources and the needs of Duxbury relative to open space, historic resources, community housing and recreation. Citizens have attended.

As required by the CPA, the Committee held a public hearing on October 25 to allow interested parties to provide input. The CPC has also developed a means for organizations or citizens to submit a request to the CPC for CPA funding for a project. The *Funding Request Form* is available through the Selectmen's office. The CPC will review any submitted requests, communicate with the sponsor(s) to evaluate the request and decide if the CPC will recommend the request for town meeting approval. The Committee may be contacted through the Selectmen's office.

A number of funding requests have been submitted to the CPC. These requests will be evaluated to consider for recommendation to the March 2002 Town Meeting. This is an ongoing process that will go into the next few years. The Committee's goal is to be open, thorough, and deliberate and to recommend requests that provide long term value to the Town of Duxbury and its taxpayers.

Respectfully submitted,

Edward McGlinchey, Chair Art Vautrain, Vice Chair Diane Bartlett, Secretary Holly Morris, Treasurer Jody Hall George Wadsworth Jon Witten

Open Space & Recreation Committee

The Open Space & Recreation Committee had quite an active year. David Hines, a member of the Committee and former Chairman of the Land Acquisition Task Force did an outstanding job presenting the Task Force's findings which recommended the adoption of the Community Preservation Act (CPA) for open space preservation, historic preservation, and affordable housing. The Open Space & Recreation Committee voted to support the CPA and played an important role in educating the public. Upon passage of the Act, the Committee selected Holly Morris to serve as its designee on the Community Preservation Committee.

Dick Rothschild has been working with the Conservation Depa.tment reviewing drafts for trail maps. The Round Pond trail map, the first of six maps paid for by the Conservation Fund, was completed in time for the annual Fall Foliage Fiesta Walk.

The trail stewardship program was launched which has improved the condition of the trails. The Open Space Committee wishes to thank the many volunteers who are walking the trails and clearing trash and debris.

Much to the enjoyment of the Committee, two field days were dedicated to the clearing of brush on the Swanson Farm. The Open Space Committee wishes to thank Peter Buttkus of Lands and Natural Resources for providing us with a crew and chipper. The Conservation Fund was again drawn upon for this annual maintenance.

The Committee began the process of updating the Open Space Plan in April. Notices were sent out to the Boards and Departments and Committee members followed up by contacting the chairman of each group. Draft materials are currently being reviewed. The 2002 Open Space Plan is due to the Executive Office of Environmental Affairs by the end of December 2001.

The Committee wishes to thank former members Roger Erickson and John Pechalonis, who made important contributions to the 1997 Open Space Plan and organized fieldwork on the Bay Circuit Trail. We welcome Steve Berall, Steve Donovan, Paul Costello, and Doug Hart to the Committee.

Finally, the Open Space & Recreation Committee honors Pat Loring, recipient of the *Conservationist* of the Year Award. Pat conceived of the Millennium Town Green Project and brought it to completion after years of dedicated work. Pat's contributions have certainly made a difference to our Town.

Respectfully submitted,

Holly Morris, Chair Steve Berall Paul Costello Steve Donovan Doug Hart Pat Loring Dick Rothschild

Planning Board

The three major tools of any Planning Board are: 1) The Town's Rules and Regulations Governing the Subdivision of Land; 2) The Town's Master Plan; and 3) The Town's Zoning Bylaws. The Year 2001 was the sixth year of an aggressive campaign by the Planning Board to update these crucial documents. In 1996, the Planning Board revised the Rules and Regulations Governing the Subdivision of Land and, in 1999, adopted the Comprehensive Master Plan. In both 2000 and 2001, the Planning Board worked on the implementation of the Master Plan, which will lead directly to the revision of the Town's Zoning Bylaws. Also in 2001, the Planning Board completed additional fine-tuning of the Subdivision Rules and Regulations, to ascertain that they reflect current planning practices. The modified regulations will take effect in 2002, after an opportunity for additional public input.

The Comprehensive Master Plan spells out the Town's goals and policies for land use, housing, economic development, natural resources, open space, services, and traffic circulation. This formal statement of Duxbury's policies for planning, growth, and development relate to all Town Departments, defining a framework for reasonable growth while preserving and protecting the unique character and quality of the Town of Duxbury.

With the establishment of the Comprehensive Plan and Zoning Bylaw Implementation Committee (CPZBIC) we have begun the process of amending the Zoning Bylaw -- the key legal foundation of the Comprehensive Master Plan's implementation. This important committee was created by the Planning Board and Board of Selectmen with individual appointments made by major land-use boards and commissions. The thirteen-member Committee made great strides in 2001, and with the help of Planning Board funds, hired a consultant to assist with this major task. We repeat that with the arrival of the train from Boston, and the relocation of Route 44, the next decade will be decisive for Duxbury's future. If we are to maintain the charming, semi-rural character of the Town, then our Zoning Bylaw and other Town regulations must be made consistent with the Comprehensive Master Plan. This was our key priority for 2001 and began the second "five year" phase of the Planning Board's "More Than Just Business As Usual" agenda.

In 2001, we approved one preliminary subdivision plan with a total of 9 lots; approved one modification to an existing subdivision; and determined that 14 plans (creating 7 new lots) were "approval not required" (ANR) plans as defined by Massachusetts Law. Finally, one definitive subdivision plan was withdrawn by the applicant. Also in 2001, the Planning Board participated in the review of two Comprehensive Permit applications, with a total of 106 proposed dwelling units. The review of these two proposals will continue into 2002.

Long-time Planning Board member, Will Zachmann resigned from the Board at the end of 2000, due to a major increase in his business and professional obligations. The Board of Selectmen and Planning Board jointly appointed Mr. Aboud Al-Zaim to fill his position until the March 2001 election. The five-year term of our chairman, Peter F. Donahue, expired in March 2001. He sought and was elected to the remaining three years of Mr. Zachmann's term of office. Mr. Al-Zaim was elected to the five-year opening created by the end of Mr. Donahue's five-year term. Another change occurred in March when member Ann Weld resigned from the Board in order to pursue a position on the School Committee. Ms. Angela Scieszka was appointed to fill Ms. Weld's position until the election of March 2002. The Board then voted to leave its leadership structure in place, re-electing Peter F. Donahue as Chairman, George D. Wadsworth as Vice-Chairman, and David J. Matthews as Clerk.

Thanks to the essential and much appreciated professional support of Duxbury Planning Director Thomas A. Broadrick, AICP and Assistant, Barbara Ripley; and to the active, concerned participation of all our Members, the Duxbury Planning Board enjoyed another year of exceptional achievement in 2001. We look forward enthusiastically to 2002 as well.

Respectfully Submitted.

Peter F. Donahue, Chairman

George D. Wadsworth, Vice Chairman

Aboud J. Al-Zaim
David J. Matthews, Clerk

Robert G. Wilson Angela Scieszka

Amy M. MacNab

Comprehensive Plan/Zoning Bylaw Implementation

The Committee reluctantly accepted the resignations of Michael Okola due to illness and Thomas Tucker due to business commitments. The Committee thanks them for all their hard work and wishes them the best in their endeavors. Pat Loring, member at large and Steve Jones, ZBA appointee joined the Committee to fulfill the duties assigned.

The Committee operates under the auspices of the Planning Board and includes representatives from the Planning Board, Zoning Board of Appeals, Board of Selectmen, Conservation Commission, Board of Health, Design Review Board, and citizenry at large. The Committee has been charged with the following objectives:

- 1. To develop modifications to the Zoning Bylaw which will substantially reduce the final build-out density "built in" to the Zoning Bylaw.
- 2. To add controls for both neighborhood business district development and residential development that will make the Zoning Bylaw more consistent with the desires of the overwhelming majority of the Citizens of Duxbury as reflected in the 1999 Duxbury Comprehensive Plan.
- 3. To use this opportunity to do a broad revision of the Zoning Bylaw as a whole, making it more internally consistent and more up-to-date.

The committee began meeting in June 2000 and continues to meet on a weekly basis to complete the tasks enumerated above. Each member brings a unique perspective to the discussion table with various backgrounds represented. The meetings have been productive with the review of materials and in-depth discussions on the following issues:

- Density reduction and preservation of open space
- Water resource and wellhead protection issues
- Existing parcels zoned Planned Development and the attributes of each
- Housing diversification, including a presentation on affordable housing by Steve Dubuque from South Shore Housing
- Mansionization & tear downs, including participation by Jody Hall from the Historical Commission
- Open Space Residential Development as an alternative to conventional grid development
- Issues guidelines in neighborhood business districts with participation by the Duxbury Business Group
- Site Plan Review

The future protection of water quality and quantity has been a key focus of our discussion and will provide the basis for our ultimate recommendations regarding reduced density. We are especially concerned with activity in the Aquifer Protection Overlay District. We seek to reduce density while mitigating impacts on existing housing stock and affordability as much as possible. New, creative approaches to diversified housing as well as development designs that minimize sprawl are being explored. In January 2001 we began working with Jon Witten, J. D., AICP, a citizen of Duxbury and nationally known planning consultant, to develop proposals for changes to the Zoning Bylaw to be presented at a future Town meeting. Our meetings are held on alternative Tuesday and Thursday evenings and are open to the public. We encourage all interested to attend.

Respectfully submitted,

Members: Bridget O'Keefe, Chair; George Wadsworth, Vice Chair; William Billingham, Clerk, Steve Jones, James Lampert, Pat Loring, Amy MacNab, Mark Mahoney, Andre Martecchini, Dennis Nolan, Ruth Rowley, Michael Shane and Beverly Walters. Tom Broadrick, ex-officio staff member.

Historical Commission

The Historical Commission has three primary tasks: to increase awareness of Duxbury's heritage and of the value of historic preservation; to identify and protect Duxbury's historic resources; and to implement Duxbury's demolition delay bylaw, established through Section 609 of the Zoning Bylaws.

Toward our goal of increasing awareness of Duxbury's heritage, we held a public preservation forum in February. This educational workshop was held in the Merry Room of the Duxbury Free Library and was attended by approximately 50 people. Speakers were Joseph Cornish, of the Society for the Preservation of New England Antiquities; preservation architect Deane Rykerson; and Jamie McNab and Mark Landry, contractors specializing in old home restorations.

We also published the brochure "Welcome to Your New Old Home". This brochure, offering suggestions and resources to old home owners and potential owners, is available at the Duxbury Free Library, Duxbury Rural and Historical Society, Town Hall, and local real estate offices.

In the area of identification, preservation consultant Karen Davis completed the first stage of an inventory of Duxbury's historic resources in Spring of 2001. This fall, she began the second stage. This stage is scheduled for completion in Spring 2002. When it is complete, approximately 330 historic properties within Duxbury will have been inventoried. Copies of the completed inventory forms are available at the Duxbury Rural and Historical Society, the Duxbury Free Library, and Town Hall. Funding for the inventory has been supplied by the Town of Duxbury and via two grants from the Massachusetts Historical Commission.

Lastly, the Historical Commission reviewed 23 applications for demolition of all or substantial portions of the following structures: 66 Bay Ridge Lane (outbuildings); 285 Elm Street (garage bay); 252 Enterprise Street (portion of structure); 37 Fort Hill Lane (portion of structure); 749 Franklin Street (entire structure); 12 Grandview Avenue (entire structure); 133 Gurnet Road (entire structure); 137 Gurnet Road (entire structure); 388 Kingstown Way (entire structure); 350 Kingstown Way (entire structure); 362 Kingstown Way (entire structure); 364 Kingstown Way (entire structure); 30 Ocean Avenue (entire structure); 262 Parks Street (entire structure); 34 Pine Point Lane (entire structure); 59 Priscilla Lane (entire structure); 53 Surplus Street (portion of structure); 135 Surplus Street (portion of structure); 347 Tremont Street (entire structure); 19 Upland Road (portion of structure); 94 Valley St. (entire structure); 60 Winter Street (entire structure). We held no public hearings.

Respectfully submitted,

Martha Himes, Co-Chair Julia Kispert, Co-Chair Molly Foster Peter Stames Josephine Hall Marguerite Davis Susanna Sheehan

Town Historian

Over the past year this department's work, helping inquirers with their searches, encouraging students, and informing visitors about Duxbury's past, has been in collaboration with other individuals and groups, both within and outside Duxbury.

It has been a continuing pleasure to work with Karen Davis, the planner hired by the Duxbury Historical Commission to survey key houses in the community. Her detailed and thorough initial report is available at the Duxbury Free Library and the Duxbury Rural and Historical Society. In September, Ms. Davis arranged a very successful bus tour to Duxbury for the Cambridge Historical Society to see the local work of selected Massachusetts architects.

I have also continued to work with the Library and Archives Committee of the Duxbury Rural and Historical Society in organizing and analyzing local manuscripts and photographs. I also joined members of the historical society's Publications Committee in preparing a manuscript for publication this fall. The society, in conjunction with The Garden Club, was proud and pleased to publish Old Colony Wildflowers; Our Green Heritage, written by resident Dorothy Kelso, and illustrated with photographs by resident Charlotte Corey. Preliminary sales figures are evidence that the Duxbury community appreciates this attractive and helpful book.

Respectfully submitted,

Katherine H. Pillsbury Town Historian

Personnel Board

The year 2001 saw a continuation of the Personnel Board's traditional role of assisting the Town Manager in various human resources issues, including the implementation of personnel policies, the maintenance of non-unionized pay grades, the evaluation of jobs and the selection of key staff positions.

The most contentious issue of the year involved an attempt to alter the Personnel Plan to provide superior tuition reimbursement benefits to Library Personnel. The Board reviewed the matter and voted unanimously to reject this attempt to provide all employees covered by the Plan with equal benefits and stated that position in a report dated March 6, 2001.

Respectfully submitted,

Nan O'Neill Joanne Duffy Martin Campbell Wayne Heward Paul McDonough, Chairman

Public Safety

Pire Department
Harbormaster
Beach Operations
Shellfish Constable

Waterfront Advisory Committee
Highway Safety Committee
Inspectional Services
Board of Health
Zoning Board of Appeals
Sealer of Weights and Measures
Police Department
Animal Control Officer

Beach Committee

The Duxbury Beach Committee was created by Town Meeting in 1986 and increased from 9 to 12 members at the 1997 Town Meeting, (see Duxbury General by-laws, 6.6.1 and 6.6.2). Its principal charge is to advise the Selectmen, Town Manager, Finance Committee and other relevant agencies on matters pertaining to the leased portion of the Beach and the proper maintenance of the Powder Point Bridge. The committee must also prepare a Beach Management Plan for the state every five years. This is a requirement of the endangered species act, which is enforced by federal state and local environmental agencies. The Duxbury Beach Reservation has invested a considerable amount of time and finances in this effort and we have what may be considered one of the best plans in the state. The successful therefore application of this plan is carried out by our Harbormaster, Donald Beers, and his staff.

Two members of this committee serve on the Town Manager's "Beach Sticker Team", along with town officials and other residents. This team is trying to address some of the real and perceived concerns relating to the beach access and sticker sales.

Two members serve on the Town Beach Technical Committee, created by Conservation Commission's order of conditions SE 18-860. This committee works with the Reservation in hiring consultants for an ongoing study titled "Duxbury Beach Morphology and Process, with special reference to shorebird habitats and nesting patterns". The consultants are professors from Northeastern University, Boston University and Bridgewater State. The study is financed by the Reservation.

We have generated an emergency response plan, which involved collecting data from those involved in previous storm emergencies at the beach, in hopes of providing a useful reference in the event of future beach emergencies. We have also collected information relating to Coastal Oil Spills. This allowed us to generate a brief response guide which we hope will be helpful in the event of such a tragedy.

Committee members will continue to develop data on the following subjects; Beach Technical Committee, Mass. Audubon, Plymouth Beach Committee, The Powder Point Bridge, State Eminent Domain Taking of Beaches, Emergency Response Plan, Enterprise funds, and Beach Maintenance.

The committee accepted the resignation John Nash, one of the members representing the Duxbury Beach Reservation. John served on the committee for six years, two years as Chairman. The committee was truly enriched by his presence and he will be missed. He and his wife Polly are spending increasingly more time at their home in Maine and so can no longer remain as active in Duxbury affairs. John has been replaced by Joe Conway.

The Massachusetts Beach Buggy Association has been represented by David Cole, although they are not members, they regularly attend our meetings and are a valuable resource.

Respectfully submitted,

The Duxbury Beach Committee:

Ex officio: Don Beers, Harbormaster; Molly Bartlett, Conservation; Mark DeLuca, Police Chief

Reservation: Joe Conway, Kay Foster; Michael McLaughlin

Residents: Daniel Baker, Chairman; Karen Butcher, Secretary; Bill Benjes (Gurnet Road); Harriet Nichols; Susanna Sheehan; Stephen Woodworth

Fire Department

The year 2001 has been challenging for all of the members of the Duxbury Fire Department. Although the year started quite routinely, all aspects of how we go about our business changed on September 11, 2001. We now spend more time planning, training, and preparing for biological and chemical terrorism activities.

Our Firefighters responded to 1,617 emergency responses in FY 2001. We anticipate that number to continue to increase as our community grows.

Our Fire Prevention Officer, Lt. John Bowser, spent a considerable amount of time working with the new Senior Center and the two new school projects. We expect that the two school projects will consume a significant amount of time for him over the next two years.

We opened the new Ashdod Fire Station last year and that station has worked out very well for our residents. We have lowered response times and residents of the Ashdod neighborhood tell us they feel safer just knowing that there are firefighters on duty there each day.

In June, we received a Fire Safety Grant of \$30,000. from the Massachusetts Department of Public Safety that allowed us to purchase communications and safety equipment that had been in our Capital Improvement Program as a 3 year project. This allowed us to withdraw our budget request and allowed the Town to utilize that money for other programs. We completed our four-year replacement program of self-contained Breathing Apparatus so that our suppression forces now have modern, efficient equipment, which is so essential to their safety.

In September we ordered the new pumper that was approved at the Annual Town Meeting in March. We expect delivery of this new pumper in April, 2002.

I would like to extend our thanks to the citizens of Duxbury who support the fire department and its members throughout the year in so many ways. After the tragic events of September 11 at the World Trade Center, the support that you showed was overwhelming. Many citizens stopped by or sent cards to express their appreciation for the job that our firefighters are called upon to do each day. Your show of support was appreciated by all of our members. We will continue to provide the highest quality fire protection and emergency medical services to you in an effort to show our appreciation.

I would also like to thank all of the managers and employees of all other Town departments that we work so closely with during the year. My special thanks go out to the men and women of the Duxbury Fire Department who do such an outstanding job for our community each and every day.

William J. Harriman Fire Chief

Harbormaster

2001 was a tremendous year for the Harbormaster Department. The weather was outstanding during the entire year providing us with day after day of almost perfect seasonal weather. This enabled tremendous access to our shores and bay.

The Harbormaster Patrol Boat marine Unit 1, the 24-foot Coastal, had general repairs and maintenance completed before being launched on the first of April. She was hauled on the first of December. Patrol Boat Marine Unit 2, the 21-foot outboard, was launched in late March after general maintenance and repair and hauled in mid-December, and stationed at the waterfront, available for emergency off-season responses. Marine Patrol Boat Unit 3, the 18-foot ridged bottom inflatable outboard had minor repairs and maintenance completed before being launched in mid-March. This vessel was hauled in mid-December and is now stationed at Mattakeesett Court, attached to a department vehicle for quick emergency response. All the patrol boats had a very busy season and operated without a flaw.

The department repaired, rebuilt and secured day marks, speed buoys, aids to navigation and swimbuoys on location starting in early May into June, and were completely hauled in late December. The town floats were secured on location starting in April. With the exception of one float that is in for the winter, all were hauled out by mid-December. The town also took possession of two new tender floats approved at the annual town meeting. These floats were secured on location in the spring, and hauled the first of December.

The department's new Executive Officer, Dennis Pearse, developed a new mooring program. Simply, it created better accountability for all mooring locations in our waters, attaching names and addresses of applicants and types of vessels moored.

The department was involved in countless search and rescue operations that included emergency medical responses, possible drownings, missing persons, capsized vessels, vessels taking on water, boat fires, overdue vessels, etc. Departmental high visibility patrols, both on land and water, at all hours of the day and nigh, including outlying anchorages, were very effective against any kind of theft or crime along our shores. These high visibility patrols were carefully coordinated with the Police Department. Many coastal communities are plagued with these incidents; however, we seem to be very fortunate. Violations of the Harbor Rules and Regulations, including State boating laws, were again very low this year. The department's high visibility patrols are very successful in keeping these activities in check.

The weather cooperated day after day throughout the spring, peak summer months, and well into the fall and winter. Most of those encountered along Duxbury's coastline appeared to be enjoying this bountiful natural resource area and all she has to offer. It was a stellar year for the department.

The department personnel thank all the boards and committees, town departments and Duxbury residents for making this such a successful year.

Respectfully submitted,

Donald C. Beers, Harbormaster

Beach Operations

This division of the Harbormaster/Coastal Natural Resources Department had a very busy year in 2001. The outstanding weather and a good economy we suspect played a major role influencing guest attendance at the beach region this year. This was to our advantage and that of the guest, having beach attendance spread over the entire week, allowing the department to manage beach crowds very effectively.

This division's tasks and strategies are effectively in place, capitalizing on a well-coordinated effort along this shore and bordering waterways. Qualified and trained personnel are required to perform assignments inclusive to the entire department's operational goals and functions. Department shift strategies and the deployment of personnel and equipment are developed around access activities. All patrols, both on the shore of the beach and marine, are initiated at all hours of the day and night, and are carefully coordinated within our own ranks and the Police Department.

Other than public safety services, another primary task is to manage and orchestrate safe and reasonable access within the beach region. This guest access includes pedestrians, motor vehicles (parking lot and offroad), water craft and riders on horseback. Access is encouraged year-round. Aside from peak season access with its obvious lure, the off-season is rather unique in all it has to offer. With mild off-season weather, this access became very popular. The off-season provides seclusion and privacy. It also shows the guest first-hand how this incredible summer recreation area turns abruptly into our natural breakwater in the never-ending transition to protect us from the Atlantic.

In 1993, the department developed the Endangered Species Protection Program. This program is funded in large part by a grant established by the Duxbury Beach Reservation, Inc., and is augmented by department personnel and equipment. The purpose of this program is to develop reasonable, safe and appropriate access while in turn protecting the endangered species and their habitat. Endangered species on Duxbury Beach include the Piping Plover and Least Tern, which are protected by Federal and State laws. This unique management program is strongly encouraged by the Commonwealth to protect these threatened species because of the uses and types of access within this region. Without this program, it is very likely that conflicts between use and access and the protected species would force severe restrictions and extensive closures within the beach region. Beaches within the Commonwealth who that do not have this program are forced to close or severely restrict access and activities when endangered species are present.

The department works closely with the Reservations consultants, in an effect to study use and access, and the natural make-up of this barrier. Everything is being studied and provides a very comprehensive view of the beach.

In 2001 we again had a mild weather pattern during the fall, winter and spring. This gave the beach region another year to gain some much-needed ground in preparation for future storms.

Many guests visit Duxbury Beach at night. Activities are different from the daytime in that they include more of a "cookout" atmosphere. We suspect this access does in fact vent in some part the daytime pressure of going to the beach. This night access does created a trash and garbage issue that was solved by instituting new department directives on trash removal and supplying the department with a trash container to service the beach and waterfront.

The department is very fortunate that our guests are very well informed and extremely appreciative and protective of the beach region and all it has to offer. It is very rare today to have any incidents that effect public safety or the quality or enjoyment of this magnificent natural resources area. This year can certainly be considered one of the best yet. Credit can only go to all of the participants, including beach guests, who took on the challenges that made this year so successful.

I would like to thank the personnel of this department, other town departments, committees, boards, agencies, the Duxbury Beach Reservation and citizens that made 2001 so enjoyable and successful.

We appreciate your continued trust, assistance and guidance with this department's endeavors.

Respectfully submitted, Donald C. Beers, Harbormaster

Shellfish Constable

The Shellfish Department was very busy in 2001. Duxbury Bay and adjacent waters have abundant natural resources that make our shores very popular and enjoyable. Residents and non-residents alike took advantage of monthly shellfish seasons.

The outstanding weather allowed for increased harvesting access. The good weather, coupled with our plentiful shellfish resources, made this activity very popular. The Town was able to extend bonus shellfish seasons on both recreational and commercial harvesting of certain types of shellfish for most of the year. The recreational harvesting of soft-shelled clams (steamers) was extended beyond the routine annual seasons of April/May and September/October. Special temporary commercial soft-shell and quahog harvesting activities were also extended to include seasons that ran concurrently with those of the recreational soft-shell harvest. Commercial shellfish harvests help supply our local markets. It's important to note that only residents of the Town of Duxbury are allowed to take part in commercial shellfish activities. Proper shellfish management includes the thinning out of overpopulated species to lessen the likelihood of devastating diseases or blight and to turn over the tidal flat to make room for future stock. The obvious immediate benefit is the enjoyment of the harvest. The recreational digger never finds it difficult to harvest his or her legal limit. We suspect we saw an increase in recreational shellfish harvest activities this year. This prompted the department to initiate a field study to monitor these activities closely. This field study will continue, and we will review the data collected to better manage this fragile, limited natural resource. Commercial activities are monitored and managed carefully.

As expected the sale of shellfish permits were high this year. Shellfish harvesting in Duxbury is a regionally popular and important activity. Shellfish violations were minimal. Shellfish violations include: digging out of season; harvesting without a permit or license; harvesting in closed or restricted areas; use of illegal tools; harvesting undersized shellfish and harvesting over bag limits. The Department's rigorous daily high visibility patrols and enforcement policies, coupled with well-informed harvesters, attribute not only to decreasing violations but an overwhelming concern for the resources.

The Department works closely with the Massachusetts Division of Marine Fisheries, the Duxbury Board of Health and the Conservation Commission to insure and improve Duxbury's coastal water quality. Presently, the Division of Marine Fisheries and this department are involved in a unique program that conditionally reopens large tracts of shores that were once considered permanently closed to shellfish harvesting. The program initiates shore surveys, aggressive water sampling and daily rainfall monitoring to enable reopening when possible. This partnership of government agencies provides a tremendous effort to protect and utilize these very valuable natural resources.

With the provisions of our Shellfish Management Plan and the efforts of all involved, this wonderful natural resource will continue being a tremendous asset and tribute to this coastal community. It was a tremendous year for this department and for those we encountered on our shoreline. I would like to thank the citizens of Duxbury, and the Boards, Committees, Departments and Agencies that made 2001 so successful and enjoyable.

Respectfully submitted.

Donald C. Beers, Shellfish Constable

Shellfish Advisory Committee

The Shellfish Advisory Committee had a busy year in 2001. The activities of the committee included advising the Board of Selectmen on many very important matters. They included but were not limited to:

- Requesting approval of bonus shellfish seasons for the commercial harvesting of soft-shell clams and quahog, including the harvest areas, quantity limits, method of access, etc.
- 2. Requesting approval for bonus shellfish seasons on the recreational harvesting of soft-shell clams.
- 3. Reviewed and recommended revisions to the Board of Selectmen of the Shellfish Management Plan shellfish aqua cultural grant program including special shellfish rules and regulations and procedures
- 4. Reviewed shellfish aqua cultural grant applications and made comment to the Board of Selectmen.

The members of the committee look forward to the upcoming year and appreciate your support and guidance. Thank you.

Respectfully submitted,

Shellfish Advisory Committee

Waterfront Advisory Committee

The Waterfront Advisory Committee had a quiet year in 2001. Past hard work of the committee to review, amend and recommend to the Board of Selectmen the revised Duxbury Harbor Rules and Regulations are in good standing.

The committee members look forward to the coming year and appreciate your continued support and guidance.

Respectfully submitted,

Donald C. Beers, Harbormaster For the Waterfront Advisory Committee

Highway Safety Advisory Committee

2001 was another productive year for the Highway Safety Advisory Committee (HSAC). Construction of the new roundabout at Lincoln Street, West Street (Route 14), and Route 3 was completed. After many years of discussions and planning with State officials, the reality of a new and much safer intersection was realized. Through the efforts of the Massachusetts Highway Department and the construction work of the P.A. Landers, Inc., of Hanover, the South Shore's first roundabout was operational. After the first of many months' of use and a couple minor changes, this intersection allows for the safe and efficient flow of traffic. Hopefully, it will stay this way for many years to come.

Other major projects of the HSAC included the design and review of the school expansion projects at both Chandler and Alden and the new sidewalks on Chestnut Street. Although both projects are still under construction at the time of this report, we are confident that completion in 2002 will provide our residents with new and safe facilities for our bikers, walkers, and vehicles.

Still other accomplishments of the committee included a study of parking and traffic flow in and around the Duxbury Free Library and the Percy Walker Pool. Also, efforts to secure a radar trailer, continued study of bike path routes and expansion of sidewalks around town were successful.

We were saddened by the departure of long time DPW Director, Wally Tonaszuck, from the Town. Wally's professionalism, experience, and significant accomplishments over the past 12+ years will be remembered for years to come. He was a great asset to our committee and the Town. We thank him for his dedication and caring.

The HSAC also wishes to thank the Board of Selectmen, Town Manager Rocco Longo, and the Police, Fire, and Public Works Departments for their ongoing cooperation and assistance. Acting Public Works Director, Peter Buttkus, has replaced Wally Tonaszuck on the committee, and we welcome and value his presence and opinions.

Respectfully submitted,
Joe Shea, Chairman
Linda Garrity, Clerk
Jeff Lewis
Diane Bartlett
Peter Buttkus
Friend Weiler, Police Safety Officer
William Harriman, Fire Chief
Paul Brogna

Inspectional Services

The Inspectional Services Department offers this report for inclusion into the 2001 Town of Duxbury Annual Report.

New construction, additions, and renovations continue to be strong. Municipal construction, including the new Senior Center and additions/renovation to schools, set the pace for activity of the Inspectional Services staff.

In November, with Selectmen's approval, a new fee structure was implemented to coincide with the increased administrative costs of the department.

The statistical section of this report breaks down the types of construction. Twenty-seven new homes were permitted this year.

I would like to commend the Inspectional Services staff for outstanding work this year given the workload and demands during this economic boom and the support they give me, the Zoning Board of Appeals and the Board of Health.

Finally, to the Board of Selectmen and the Town Manager for the support given to the Inspectional Services Department which allows us to remain progressive and to continue to offer quality service to the public.

Respectfully submitted,

Richard R. MacDonald Director of Inspectional Services

Board of Health

The Board of Health consists of five members appointed for three-year terms by the Selectmen. The Board of Health oversees the licensing, approval and inspection of septic systems, restaurants, semi-public and public swimming pools, and recreational camps for children.

This year the Selectmen reappointed William Billingham.

The Septic Management Loan Program received an additional \$200,000 interest-free loan for failed septic systems from the Commonwealth of Massachusetts.

The Board endorsed the Alcohol-Drug Awareness Committee's Safe Home Program.

Massachusetts is one of only fifteen states that distribute vaccines free of charge to all public and private pediatric providers for immunization of all children through 18 years of age. The Duxbury Board of Health serves as the depot for distribution of these vaccines. During the year 2001, Duxbury received close to \$100,000 worth of vaccines, including state-supplied influenza vaccine, from the Massachusetts Department of Public Health, to be distributed to physicians and other providers in town.

Public Flu Clinics were held in November.

Becky Chin was appointed as the Duxbury Board of Health Representative to the Community Advisory Committee, being formed for the Southeastern Massachusetts Childhood Leukemia Study, conducted by the Massachusetts Department of Public Health. The Department has developed a protocol for a proposed case-control study of childhood leukemia in communities surrounding the Pilgrim Nuclear Power Plant.

Board members Becky Chin and Tom O'Regan were appointed to the Nuclear Advisory Committee.

West Nile Virus was found in Massachusetts this summer. While the risk to Massachusetts residents was minimal, the Department of Public Health decided to take a comprehensive response, which included public information, so that residents could protect themselves. Several birds tested positive in Duxbury; however, there were no infected mosquitoes detected. The Department of Public Health will work closely with local Boards of Health during the upcoming mosquito season.

The Bay Road septic project started on November 5, 2001.

The Board appreciates the support and assistance of the Board of Selectmen, Conservation Commission, Planning Board, the Board of Assessors, and all town offices and agencies.

Respectfully submitted,

William Billingham, Chair Jerome Janousek Thomas O'Regan Rebecca Chin Darren Meyer

Zoning Board of Appeals

The Zoning Board of Appeals consists of five Members: James B. Lampert, Chairman; Stephen Jones, Vice Chairman; Elizabeth Lewis, Clerk; Paul Kalous and Thomas McClure, and four Alternate Members: Wendy Keleher, Mary Jo Pierce, Thomas Tucker and Sally Wilson.

The Zoning Board of Appeals accepted 34 petitions of which there were 19 approvals; 1 denial; 2 withdrawals and 12 pending cases.

The Board is currently reviewing a Chapter 40B affordable housing project located at the Delano Farm, Old Cordwood Path area. The hearings are continuing into next year.

The former chairman, Thomas Tucker, resigned to become an alternate member and Paul Kalous, a registered architect, was appointed by the Selectmen to take Attorney Tucker's position.

Unfortunately, longtime member John (Jack) Canty passed away on August 13, 2001. Jack's commitment and dedication to the Zoning Board of appeals and to the Town of Duxbury were invaluable and he will be greatly missed. Attorney Thomas McClure was appointed to take the remaining term of Jack Canty.

Respectfully submitted, James B. Lampert, Chairman

Sealer of Weights and Measures

All required inspections have been performed on scales and motor vehicle fuel meters. These devices are subject to wearing out and/or just breaking down. The annual inspection insures that the devices perform as they are meant to, and within the established tolerances.

This year, four gasoline product delivery systems suffered from what we know as "creep". Those units were condemned and removed from service until repairs were made. Due to an internal failure, the gasoline that has been measured and that you have been charged for is very slowly sucked back into the underground tanks. If you pump your own gas and finish, but do not remove the nozzle from the vehicle, notice the meter and see if it "creeps" up very slowly. That is a problem; call the Inspectional Services Department and I will re-test that unit.

Scales also show use and suffer from wear and tear. Two digital scales were condemned and removed from service for failing to meet the standards of performance. The most common scales in town are electronic with a digital display. These can be very accurate and are held to very strict standards. Many of these scales have been in service long enough to require service calls to assure the accuracy they are capable of. Other than the two mentioned above, all scales in town are functioning within tolerances.

The oil trucks in town are inspected and tested annually in Quincy or Brockton. This is due to the specialized equipment needed for this test. All oil and propane delivery trucks in the Commonwealth are subject to annual testing and inspection.

Respectfully submitted, Joe Shea, Sealer of Weights and Measures

Police Department

I am pleased to report to the residents of Duxbury on the present status of the police department. The year 2001 reflected some significant changes. We lost one of our seasoned and most popular officers through retirement. Adhering to our new policy in the hiring of specials, seven were brought on board. They have agreed to be financially responsible for their own training and outfitting. This is a substantial savings for our budget.

We ended last fiscal year with a surplus of \$20,000.00 given back to the town. This was directly related to strict budget constraints along with a fully manned department thus eliminating costly overtime.

Our DARE Program, which is fully funded through government grants, introduced a new concept last year with successful results. DARE has now an outreach to all grade levels. The interaction with students and police has bridged a long-standing gap. Parents overwhelmingly have supported this. The Community Policing Grant was utilized through much needed training of our officers.

We have instituted a Computer Crime Investigative Unit. Our Detective Unit attended a lengthy training session held at Boston University. This already has proven invaluable in recent cases pending.

As the year winds down to a close, it appears that the accident rate has dropped from last year. Our crime reporting data reflects less serious crime over the past twelve months. This too relates directly to the men and women that patrol our streets twenty-four hours daily. A more comprehensive report will be available at a later date.

On a final note, along with the staff of the police department, we must credit our town government. It takes team effort to maintain a safe and secure community. Without their vigilant support, involving hours and hours of evening meetings throughout the year, we could not be successful. These are the men and women that are truly focused on public safety behind the scenes.

Respectfully submitted,

Mark DeLuca Chief of Police

Animal Control Officer

It has been a productive year for our department. An architectural firm was hired to draw the plans for the new shelter and now we can begin to raise the funds needed to put it out to bid. Our old van was retired and we now have a Ford Explorer with 4-wheel drive so we can respond in any weather, anywhere in town. We had one positive rabies case in a fox, but many positive birds with West Nile Virus. We continue to encourage pet owners to restrain their dogs and keep their cats in to further reduce interaction with the wildlife. Our total number of quarantines has dropped due to such diligence. Thank you pet owners. We welcome Matt Riggins as the new assistant ACO. September 11th brought a tear or two to my eyes and I am reminded of how much we consider our pets to be a part of our families. I hope we never again have a loss as great as this but while there isn't much we can do about old age in our pets, we can ensure their safety by keeping them supervised at all times and identifying them in the event they become separated from their loved ones. Remember help reduce pet overpopulation by spaying & neutering early. Love, License, ID and Leash your pet...They'll love you for it!

Respectfully submitted,

Haley-Dee Parlin, ACO

Public Works

Department of Public Works

Lands and Natural Resources

Highway Department

Cemetery Department

Water and Sewer Department

Water Advisory Board

Plymouth County Mosquito Control

Ad-Hoc Sidewalk Committee

Department of Public Works

The Department of Public Works has gone through some major changes this year. Most notable was the departure of long time Public Works Director, Walter J. Tonaszuck, PE. Wally was largely responsible for and very proud of the solid infrastructure he helped develop in Duxbury. He was especially proud of Duxbury's commitment to excellence and sense of community.

Major projects such as the rehabilitation of Chestnut Street, Chestnut Street Sidewalk, Bay Road Sewer Project and PCE Pipe Replacement continue to move forward. As Duxbury continues to grow the demands for superior services, along with the maintenance needs of municipal buildings and facilities constantly increase. The Department of Public Works will continue its commitment to recognizing these needs and solidifying the framework necessary to support this unique community.

The supervisors of each division within the Department of Publics Works have prepared reports of specific activities and achievements of their department. I'm certain that each of those supervisors, along with the Town Manager and Board of Selectmen join me in thanking the people of Duxbury for their cooperation and assistance, and the DPW crew and office staff for a job well done.

Respectfully submitted,

Peter Buttkus Acting Director of Public Works

Lands and Natural Resources

The Town of Duxbury was, for the tenth consecutive year, awarded the Tree City USA Award by the National Arbor Day Foundation and the USDA Forest Service. The annual award is presented to cities and towns with outstanding urban forestry programs. The Town was also presented an Achievement Award for a decade of recognition and also a Growth Award in the area of new programs.

Athletic Fields have had some major changes brought about by two large school construction projects at Lower Alden and Chandler. Due to the loss of playing area at Lower Alden Field the department, with the support of the Recreation and School Departments and Duxbury Youth Baseball, undertook a large expansion project at the Keene Street Field Complex, enlarging it by three times. This project will be completed in the Spring of 2002 and will be operational by mid-summer 2002.

The Department of Lands and Natural Resources continues its efforts, working with other departments and civic groups such as the Conservation, Coastal Resources, Recreation, Open Space Committee and Garden Club to ensure that our public lands, open spaces, facilities and scenic ways remain pristine.

Respectfully submitted,

Peter Buttkus Manager of Buildings and Grounds

Highway Department

This year's operations have been similar to previous years. Highway crews have provided road improvements, drainage corrections and repairs, street sweeping, catch basin cleaning and repairs, street sign repairs, traffic painting and snow & ice control.

The Department of Public Works received the following new pieces of equipment, which were instrumental in providing these services:

Highway Department
35,000 lb. Dump Truck with 10' Underscraper Blade and 11' Snowplow
Backhoe
Catch basin cleaner

Lands & Natural Resources Department 10,000 lb. 4 X 4 Dump truck with Snowplow

Water Department S-10 4X4 Pickup Truck

Transfer Station 45' Trash Trailer

Even though last winter produced an average amount of snowfall, crews had their hands full responding to icy conditions throughout the winter. There were 43 operations and 35.75 inches of snow.

Keeping up with the Road Rehabilitation Program, crews put down 18,848 tons of Type I -1 Bituminous Concrete Overlayment along with 15,380 square yards of Geotextile fabric on High Street and on Temple Street (between Church St. and West St.). Also 3,849 gallons of Crack Sealing were applied to various roadways throughout the town. In addition to overlayment, Duxborough Trail and Chestnut St. were completely rehabilitated with drainage corrections and grade changes. Additional work included the installation of granite curbing and an asphalt sidewalk on Chestnut Street.

Respectfully submitted,

Paul Balboni Operations Manager Department of Public Works

Cemetery Department

The main focus of our efforts this past year was to improve the general appearance of Mayflower Cemetery. The crews from the Lands & Natural Resources Department assisted us by removing some ten to fifteen large trees that had begun to show signs of being dangerously rotted. They also performed extensive trimming and pruning throughout the cemetery. The end result of this work was to give the cemetery a more open and airy feeling to the passers-by on Tremont Street. In addition, 6 new Kousa Dogwood trees were strategically placed to add color to the old section of the cemetery and at the main gate.

Lot sales continue to be on the upswing, with available lots in the older sections and niche wall spaces selling quickly. I have opened discussions with the Cemetery Trustees about expanding the niche wall area. Our newly installed computerized mapping system should be an excellent tool to begin laying out proposed plot plans for the section behind the niche wall which will probably be needed in the not too distant future. Demand for the large ten and twelve grave family plots that we opened last year was so great that we were forced to open eight more similar lots along Pine Avenue. Four of these sold almost immediately.

Our program to upgrade the crematory continues to show positive results. In accordance with our maintenance schedule, the two remaining retorts were completely re-bricked and have performed well as a result. At the last Town Meeting we appropriated funds to conduct an architectural study aimed at expanding and improving the crematory's physical structure. It is hoped that this study will show us methods to improve workflow and provide better services for the public using the facility.

Once again I would like to extend my thanks to the Cemetery Trustees and the cemetery crew for their dedication throughout the year and to the other DPW divisions that have been so helpful in making the Duxbury cemeteries among the best kept and most beautiful municipal facilities in the region.

Respectfully submitted,

Joseph A. Ziobro, Superintendent of Cemeteries

Water and Sewer Department

New Services Added to System: 28
Total No. Of Services: 5416

IMPROVEMENTS TO THE WATER SYSTEM INCLUDED:

Installation of 0.9 miles of new water mains to replace existing vinyl-lined asbestos cement water mains in the following streets:

Temple St.

Parting Rock Rd.

Clearwater Dr.

Sarah's Circle

Greenleaf Dr.

Bayberry Ln.

Installation of a new water main in Herring Weir Road

Installation of a new water main in Onion Hill

Renewal of all service connections and abandonment of the 6" water main in Cedar Street

Replacement of 9 damaged, broken or aged hydrants

A leak survey of the entire distribution system was conducted this year. This is a bi-annual requirement of the Massachusetts Department of Environmental Protection. The purpose of the survey is to keep water losses due to leakage to a minimum. Only minor leakage was found.

The summer of 2001 started out warm and extremely dry, prompting the imposition of voluntary outside water use restrictions on May 23rd. Fortunately rainfall returned to normal for the months of June and July, thus averting more stringent restrictions.

MAINTENANCE OF DUXBURY'S SEWER SYSTEMS INCLUDED:

A number of operational problems were experienced at the High School Complex sewer treatment facility this year. Plans to replace this facility have been completed and it is anticipated that the new plant will be complete and operational by September 1, 2002.

Construction of the Bay Road shared septic system commenced this fall and will be completed in the spring.

Respectfully submitted,

Carl Hillstrom Water/Sewer Superintendent

Water Advisory Board

The Water Advisory Board continued the review begun in 1998 of the Water Department's current rules and regulations. The Spring Town Meeting voted to pay for a main extension into a subdivision, setting a new precedent, and affecting the drafting of rules and regulations. The Damon #2 pump test has been completed, submitted and the Zone II approval for both Damon #1 and Damon #2 has been received, and Water Management Act permits have been obtained. The construction of Damon #2 well is scheduled shortly. The design and construction of these pumping facilities await decisions regarding the method of removal of MTBE. Since the presence of iron can foul the MTBE removal process, making it less efficient and more expensive, our consulting engineers, Camp, Dresser & Magee (CDM) have begun a pilot process for the removal of iron from Mill Brook #2 and the two Damon Wells. The preliminary design is to pump the water from the two Damon Wells to the Mill Brook Well #2 for the removal of iron prior to the removal of the MTBE. To date, very little iron has been found in any of these three wells.

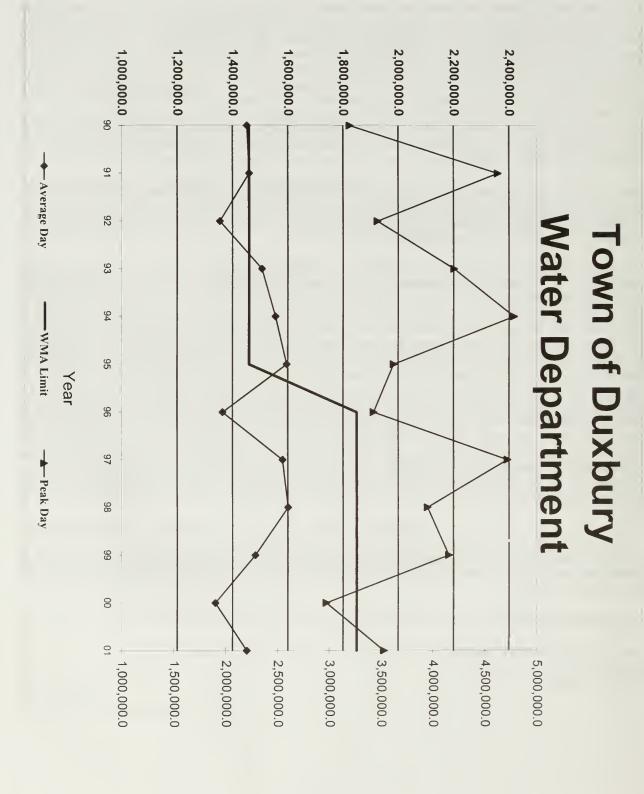

We continue to monitor the levels of MTBE at the Mill Brook Well. During the second half of the year, levels began decreasing into the single numbers. Currently Mill Brook #2 is being run to waste in order to examine levels of iron and MTBE under operating conditions. We are hopeful that treatment may not be necessary in the future as the product degrades and moves on.

Although this year has been normal in rainfall through August, it has been unusually dry and warm during the fall. A very hot early May suggested a hot dry summer. However this summer was fairly normal for both rainfall and temperature. Water production followed suit with the peak day recovering somewhat from 2000 extraordinarily low levels but remained below recent averages. The peak day is important to any water utility because these levels drive new water supply and main upgrading programs. Recent year (since 1990) levels do not suggest any particular trend in the near term. On the following page is a graph showing peak day and average day levels since 1990. Peak day levels are shown on the top with their values shown in the millions on the right ranging from three million to the high four millions. The average day levels are shown on the bottom with their values on the left ranging from just under 1.5 million to just above 1.5 million. The range is, as expected, narrow with no trend shown for the period graphed. The 1991 through 1994 average day numbers have been adjusted to reflect more accurate data calculated. As noted earlier, several flow meters were registering at too high a level after adjustments caused by maintenance. The middle graph is the approved average day limits for the average day increasing to a new level in 1996. Recently we are withdrawing well below the new approved levels, and, more importantly, demonstrating no particular trend over recent history. These limits are expected to remain at the current level until 2010, although they may be reviewed from time to time.

We also must note that vinyl lined AC water mains on 6 streets representing 4,587 feet were replaced in 2001, for a total to date of 47 streets representing 55,208 feet. Levels of PCE are now below detection levels in the majority of the remaining areas, and all streets with bleeders have had their mains replaced and bleeders shut down.

Respectfully submitted,

George D. Wadsworth, Chairman Freeman Boynton, Jr., Clerk Robert K. Keagy

Plymouth County Mosquito Control

The Project is a special district created by the State Legislature in 1957, and is now composed of 26 Plymouth County towns, the City of Brockton, and the Town of Cohasset in Norfolk County. On July 1, 2001, the Town of Bridgewater rejoined the Project. The Project is a regional response to a regional problem, and provides a way of organizing specialized equipment, specially trained employees, and mosquito control professionals into a single agency with a broad geographical area of responsibility.

The 2001 season began with an average water table for the region. Efforts were directed at larval mosquitoes starting with the spring brood. Ground and aerial larviciding was accomplished using B.t.i., an environmentally selective bacterial agent. Upon emergence of the spring brood of adult mosquitoes, ultra-low volume adulticiding began. The Project responded to 9,673 complaints.

The first Eastern Equine Encephalitis isolate obtained by the Massachusetts Department of Public Health was found in collections from Canton, in Norfolk County, on July 15, 2001. One EEE isolate was collected in Plymouth County from *Culiseta melanura*, a bird biting species, in Halifax on August 18. A three-year old girl visiting in Canton tested positive in late August for EEE, resulting in the only human EEE case in Massachusetts in 2001. The recurring problem of EEE and the increase in West Nile Virus to the Northeast continues to ensure cooperation between this Project and the Mass. D.P.H.

West Nile Virus activity increased in Massachusetts during 2001. Plymouth County's first infected bird was found in Lakeville on July 16, 2001. As of November 30, 257 infected birds had been found in 26 of the 28 communities serviced by the Project. During 2001, Plymouth County became the epicenter for WNV positive horse cases. Thirty of the 37 confirmed cases occurred in Plymouth County, with Middleboro having 18 WNV positive horse cases. To ascertain the risk to human health and horses, this Project placed mosquito traps in the infected areas. The mosquitoes collected were tested at the Massachusetts D.P.H. for WNV, but none were infected. In an effort to keep the public informed of WNV activity, updates were posted on our web site, www.plymouthmosquito.com and Massachusetts Department of Public Health at www.state.ma.us/dph/wnv.wnv1.htm.

Ochlerotatus japonicus was found for the first time in Plymouth County. This is a container-breeding mosquito which blood-feeds on vertebrates such as humans and birds. It was originally from Japan and was introduced several years ago in the New York City area. This mosquito is of interest as it is believed to transmit WNV. It was first found in Lakeville on July 19, 2001; then spread to Middleboro, Plympton, Brockton, Mattapoisett, Bridgewater and Wareham. We consider *Oc. Japonicus* to be well established in the county. The quick spread of this mosquito emphasizes the need to eliminate water-holding containers such as tires, buckets, old swimming pools, and boats from properties.

The figures specific to the Town of Duxbury are given below. While mosquitoes do not respect town lines, this information provides a tally of the activities that have had the greatest impact on the health and comfort of Duxbury residents.

Insecticide Applications: 6,884 acres (including multiple applications)

Catch Basin Treatments: 1,414 treated

Water Management: 330 linear feet of ditches/streams cleaned to prevent breeding

Response Time: Less than 2 days; more than 679 complaints answered

Mosquito Survey: Sampling indicates Aedes Vexans most abundant species,
followed by Coquillettidia pertubans and Culex pipiens.

Greenhead Fly Traps: 20 traps were placed in Duxbury marsh areas.

Kenneth W. Ludlam, Ph.D Commissioners: Carolyn Brennan, Chairman William J. Mara Superintendent Robert A. Thorndike, Vice Chairman Michael J. Pieroni

Leighton F. Peck, Jr., Secretary

Ad-Hoc Sidewalk Committee

The Ad Hoc Sidewalk Committee was appointed by the Selectmen in April of 2000. The purpose of the committee was to recommend polices regarding sidewalk construction along existing streets.

The committee met regularly from May 2000 to June 2001 and submitted a report to the Town in June 2001. The report recommends streets where the construction of sidewalks should be considered, a plan for implementation, construction standards, maintenance responsibilities and financing alternatives. Copies of the report are available for review at Town Hall and the Library.

Respectfully submitted, Jeff Lewis, Chair Phyllis Erickson Jack Hill Don Larose Laura Lawson

Library and Recreation

Duxbury Free Library
Recreation Department
North Hill Advisory Committee

Duxbury Free Library

This year the Duxbury Free Library began the process of implementing its long-range plan that was written and approved in 2000. The Board, along with new director, Elaine Winquist, reviewed existing policies, procedures, staffing levels, and financial support to determine what is necessary to support the goals and objectives included in the plan. The first half of the year was spent looking at the library organization and hiring qualified staff. Eight positions were filled: Assistant Director of Technology, Reference Librarian, Library Associate, 2 Library Assistants, 2 Library Pages, Library Custodian. All of these hires fill vacancies left by retirements and resignations, no new staff was added.

Because the Library is in its fourth year in the new building, all of the building's service contracts were reviewed and issues with the physical plant were identified. A plan was put in place to address these issues and ensure that the building and its systems will be adequately maintained. With advice and assistance from the Town, issues with the exterior of building and the grounds are being addressed. At the end of the year, the library welcomed a new café on the lower level run by Java Express of Kingston.

The library staff was recognized as a collective bargaining unit under Service Employees International Union, Local 285. Staff continues to provide an extremely high level of customer service. Through its membership in the Old Colony Library Network and the Southeastern Massachusetts Regional Library System (SEMLS), the library can provide its users with almost any library resource, either in print or online. All staff members are encouraged to develop their personal strengths and take advantage of workshops and training sessions that are available through SEMLS, the town, professional associations, and universities. Some of the results of these staff development efforts are the Library Poetry Circle, the Library Writer's Group, the Library Book Group, library displays, young adult activities, reader's advisory services, enhanced reference services and an outstanding library web site (duxburyfreelibrary.org).

After months of training and preparation, the library implemented a new online computer system in October, 2001. The new system includes staff components for circulation and cataloging of materials, as well as an online public catalog with a user-friendly graphical interface. All of the library's hardware and software was updated or replaced.

Library programming was formalized this year as part of the long-range plan. Program planners in each department did an outstanding job of offering creative, educational, and entertaining programs to the community. Programs for adults included an author series in collaboration with Westwinds Book Shop, an evening film series, participation in the Duxbury Cultural Alliance's annual event with author talks, storytelling, lectures, and displays. The Friends of the Duxbury Library presented the annual Seaside Storytelling Festival and a special program with best-selling author, Andre Dubus. Children's programs included the popular family sand castle evening, the annual pet show, the summer reading program (which broke records this year with the number of participants), family story times, regular weekly story times, and special programs to celebrate noted authors and books. Young Adult programs included a teen film series, quarterly coffee houses which provide a forum for teens and young adults to gather and perform, Oscar Night for the South Shore Teen Video Contest, summer reading contests and events, and regular meetings of the Digital Doritos and teen book discussion groups.

The library could not realize such great success without the continued support and advocacy of the Friends of the Library, Duxbury Free Library, Incorporated, and our dedicated volunteers.

Respectfully submitted Elaine W. Winquist, Library Director Board of Trustees:

Theodore J. Flynn, Chair Nancy Delano, John Hill, Carl Meier, Margaret Lougee, Lynne Walsh

Recreation

The Duxbury Recreation Department helped many residents enjoy their leisure time in 2001. The Percy Walker Pool was used by over 100,000 patrons, the playing fields hosted 6,000 users and golfers at North Hill Country Club played 28,000 rounds.

This year the Department assisted the Department of Public Works with the last phase of the Keene Street Field renovation. This project will add three baseball and two multi-purpose fields to our inventory.

At our Town owned golf course, North Hill Country Club, excitement was created as we opened our new clubhouse. The Town also renovated three sand traps, built a new tee box and hole #1, installed a cart path on hole #7, and replaced all the windows in the residential house.

The year 2001 marked the third of a ten-year agreement between the Town of Duxbury and Johnson Golf Management. The Manager pays the Town \$101,000 per year and built the Town a new clubhouse and Title V septic system. In addition, the Manager pays real estate taxes, liquor license and other assorted fees to the Town each year.

The Percy Walker Pool continues to be a focus of leisure time activities for residents and non-residents alike. Memberships at the pool increased to over 750 in number. The pool is home to six swim teams including the Duxbury High School boy's and girl's teams. The pool also was made available to the entire 4^{th} grade for a Monday through Friday, six week swim program.

Revenues at the pool for FY01 were \$271,225 with an Operating Budget of \$245,000 for the FY01 fiscal year. Breakdowns of revenues for FY01 are as follows:

Memberships:\$120,171Lessons:\$66,528Daily:\$12,504Rentals:\$72,022

I would like to thank my staff, the Department of Public Works, Town Manager, Recreation Activities Committee and North Hill Advisory Committee for their support and assistance throughout the year. We look forward to meeting the needs of our citizenry in 2002!

Respectfully submitted,

Gordon H. Cushing Recreation Director

North Hill Advisory Committee

The highlight of the year was the grand opening of the clubhouse in early March. With the addition of the clubhouse, the response of the public has been excellent and revenues for the year are substantially up over the 2000 season. The management of the course and the clubhouse continues to improve.

There have been several specific improvements on the course. Johnson Management has put in a new tee on the first hole. Traps have been renovated on the second and the fifth holes. A new cart path has been established behind the seventh tee. Unfortunately, North Hill was the site of a major lightning strike on August 10th that felled a hundred-foot pine tree on the third hole and seriously damaged the irrigation system. The irrigation system has been repaired and the tree on the third hole will be replaced. Environmental tests on the water are done four times a year and there are no traces of any compounds.

In conclusion, the prospects for next year are excellent and we are pleased with the results.

Respectfully submitted,

North Hill Committee

Council On Aging

The year 2001 has been both an exciting and rewarding one. As Chairman of your Council On Aging, and one who has never been a part of Town Government before, it has been a real challenge. My job was made easier through the competence of my predecessor, Susan Hammond, the dedication of our Director Kristin Andrews, the wisdom of the Chair-elect, Woody Woodruff, and the guidance extended by the Council on Aging Board. Without their combined talent and friendship many of our accomplishments would perhaps not have been realized. The next challenge will come in the months ahead as we adjust to our new 'home.'

The new building has come to fruition through the efforts of many people. Bill Campbell heads the list followed by Architect John Catlin, Contractor Neil Murphy, Interior Furnishings by Susan and Wesley Horton, Friends President Jack Hamilton, Selectman Margaret Kearney and our Town Manager, Rocco Longo. There are many other unsung heroes, members of the various committees who worked hard to make our dream come true. A special mention does need to go to the late Jack Canty, who chaired our Building Committee, and in every way possible made Duxbury a better community in which to live. The plaque in the front hall lists the names of many people who contributed to provide the furnishings for the new center. What it doesn't reflect are the many people who could not give a major sum but gave financially what they could, or gave of their time, because they believed in our dream.

The staff, and the many volunteers who support them, have worked hard this past year. They have delivered over 10,400 meals to homebound seniors many of who would not have a nutritional meal otherwise. Our volunteer drivers have provided rides for over 550 seniors to Medical appointments. Our bus provided transportation to many people who would be homebound without our service. Our part-time Outreach Worker increased her caseload by 110 new clients over last year's numbers. We have provided many activities of both a recreational and educational nature, in both the "Old Town Hall" and at various other locations due to our cramped quarters.

Our staff and volunteers have done a wonderful job in filling the needs of seniors. However, not nearly as good a job as they will be able to do in the new facility you, the town of Duxbury, have provided. Our new Center includes classrooms, health office, counseling office, a fitness area, computer room, some staff offices, a combination dining and assembly room with a capacity of 150 people and a full kitchen. There is also a cheerful lounge area. This is a major improvement over our 1 room center of the past few years.

After seeing the response on the day of Dedication we are convinced that we have not overbuilt. We had over 400 people attend the ceremonies and stay for the tours held later. Besides serving the seniors of our town, we will also make the facility available after hours to others to help defray our operational costs. The new senior center is now a great asset to the town of Duxbury and we are committed to making it an integral part of the whole community.

There are many hurdles facing seniors in both the present and the future; Regional Transportation, Affordable Housing, Affordable Medical & Prescription Coverage, Social Security availability, just to name a few. I'm pleased to report that our Regional Transportation problem may be resolved within the upcoming year. We are certain with numerous great people working toward our goals these hurdles will be overcome.

Respectfully submitted,

Henry Milliken, Chairman Oliver (Woody) Woodruff, Chair-elect Shirley Oktay, MD Anita Haffey Donna McClusky Patricia Ryan Michael Vidette, Esquire Alec Clement Rev. Robert Walsh James Taylor

Duxbury Cultural Council

The Duxbury Cultural Council (DCC) awards funds from the Massachusetts Cultural Council (MCC) to support cultural endeavors in the community. Duxbury Cultural Council received 49 applications by its Mid-October deadline. At its public granting meetings, the council awarded the following 21 applicants a total of \$5773.*.

Applicant	Project	Amount
Creative Arts Council	Gideon Freudmann / Cello	\$300.00
North River Arts Society	NRAS Festival of the Arts-2002	\$200.00
The Art Complex	Japanese Cultural Exposure / Tea Ceremony	\$250.00
Bay Players Inc.	Fall Theatre Production	\$300.00
Duxbury Art Association	2002 Midsummer Art and Craft Show	\$450.00
Duxbury Art Association	2002 Winter Juried Show	\$400.00
Duxbury Art Association	Rotating Art Exhibits	\$400.00
Alden School	Family Stories: A Performance and Workshop Residency	\$300.00
Snug Harbor Chorus	Holiday Concert	\$250.00
Duxbury Art Association	Chinese Art Class for Children	\$100.00
Cambridge Society for Early Music	Early Music Chamber Concert	\$273.00
Council On Aging	Arts of the Native American	\$150.00
Council On Aging	Demonstration of the Art of Caning	\$100.00
Council On Aging	Introductory Lecture on Music Appreciation	\$150.00
Helen Porter Philbrick	Duxbury Historical Biography	\$250.00
The Helen Bumpus Gallery	Water painting Color Demonstration by Peter Spataro	\$150.00
Plymouth Philharmonic Orchestra	Duxbury Concerts	\$450.00
The Art Complex Museum	Artistic Problems + Math Solutions	\$300.00
Alden House Museum	Archival Alden Museum Exhibit	\$200.00
Duxbury Middle School	Moscow Nights	\$500.00
Patty Carpenter	Music For Seniors	\$300.00

^{*(}The total reflects the MCC 2001 allotment of \$4520 plus \$1253 from expired grants of previous years.)

It has been a busy and challenging year for the local cultural council. Throughout the year, council members processed reimbursement requests from grantees. The DCC publicized its September community input and grant-writing meeting both in local newspapers and by postcards to previous applicants and community organizations. The meeting drew a dozen participants. Following the formal session, members of the council met individually with potential grant applicants to review council guidelines and expectations. Mid-October marked the deadline for applications for the current granting cycle. The DCC met on December 5, to begin the review of applications. Because of the delay in the passing of the commonwealth's budget, local cultural councils did not receive verification of their allocation of funds until late in December. The budget delay resulted in the cultural council's meeting in January 2002, to complete granting, when the council awarded the above listed grants to successful applicants. By the late January deadline, DCC submitted all successful applications and supporting material to the MCC. Duxbury Cultural Council is indebted to the Massachusetts Cultural Council's representatives for their continued guidance and support as the local council performs its functions, especially in the unusual budgetary circumstances presented to the council this year.

In September, the council was pleased to welcome Robert Burgess and William Holmes to the committee. With regret, the council accepted the resignation of Christine Swem. Massachusetts Cultural Council continues to designate the Duxbury Cultural Council as a "streamlined council," a classification given to cultural councils who have demonstrated a history of sound judgment in granting practices, and whose members have completed all required training courses.

The members of the Duxbury Cultural Council are pleased to support this important part of community life and encourage inquiries and applications from organizations and private citizens. The council will host the next grant-writing seminar in September 2002.

Respectfully submitted,

Lynn Smith, Chairman Allison Cowen, Treasurer Lyell Franke, Recording Secretary Olga Rothschild, Corresponding Secretary Robert Burgess William Holmes Nicky Kispert Janet Ritch

Housing Authority

During October 2001, the Department of Housing & Community Development released new figures relative to the Chapter 40B subsidized housing inventory for all towns and cities in the Commonwealth. These figures showed a decrease in the percentage of subsidized housing for the Town of Duxbury from 3.56% to 3.37%. The lack of affordable housing in town continues to be a major concern of this Board and other concerned citizens in town.

During the year, members of the Housing Authority Board, together with a representative from the South Shore Development Corporation, met with town officials, including the Selectmen, to address this issue. The Housing Authority is planning to work in partnership with the South Shore Development Corporation and, hopefully with the town, to develop affordable elderly and family housing in town. If funding becomes available next year, we plan to conduct further studies to ascertain the types of affordable housing needed.

The wait list for apartments at our elderly complex remains steady with about one hundred thirty names waiting for units. Fifty percent are persons under the age of sixty and handicapped. We also have approximately thirty individuals on our wait list for the Massachusetts Rental Voucher Program. Our wait lists for Family Housing and Federal Section Eight Vouchers remain closed.

We continue the operation of the fifty-two-unit elderly/handicapped complex located at Duxborrough Village plus eight units at 75 Merry Avenue for individuals with special needs. In addition, we administer thirteen Federal Section Eight Vouchers, three Massachusetts Rental Vouchers, and own and maintain six scattered site units located in the town, which serve the needs of low-income families.

We would like to take this opportunity to thank the citizens of Duxbury and the various Boards and Committees of the town for the continued support of our efforts to meet the housing needs of the town. Special thanks are always in order to the Fire, Police, and Highway Departments for their dedication and outstanding service to our elderly and handicapped individuals who reside at Duxborrough Village.

Respectfully submitted,

Diane Bartlett, Chairman
Linda Garrity, Vice Chairman
George Shamma, State Appointee
Brendan Keohan, Member

Donald Ducharme, Executive Director

Municipal Commission on Disability

The Municipal Commission on Disability (MCD) met monthly during the year except in July. A meeting on August 22, 2001 was in response to a request by the Duxbury School Department.

The MCD focuses on four main goals. The first is as a resource for people who have issues regarding activities, programs or services which impact persons with disabilities. MCD encourages people to contact us through Town Hall.

The second is to work with the Massachusetts Office on Disability (MOD) to share ideas and information with other Commissions on Disability across the state. This process will help us identify problems and solutions. There are several MOD meetings throughout the year.

The third goal is to fulfill our role in a subsection of the State Building Code regarding the Architectural Access Board (AAB). The purpose of the AAB is to "provide persons with disabilities full, free and safe use of all buildings and facilities so that all such persons may have the educational, living and recreational opportunities necessary to be as self-sufficient as possible and to assume full responsibilities as citizens." When the AAB reviews requests for variances by architects, they seek input from several entities including the local disability commissions. This year we've been involved in several variance requests. We work with the Building Inspector and try to communicate with all parties before the formal process begins.

The fourth goal is to continue to assist the town in achieving compliance with state and federal laws and regulations, which impact people with disabilities. The MCD has worked cooperatively with the town manager and other town officials and employees towards achieving this goal. The multi-million dollar project to construct additions to the Chandler and Alden Schools is a major event for everyone who is involved. The project is extremely challenging, but the School Department, under Dr. Eileen Williams and Mickey McGonagle continue to lead the team and have worked to address interests and concerns of MCD. We have entered into an ongoing discussion with the school building team towards creative solutions to any issues, which may impact disabled students, teachers, parents or other town residents (voting locations).

MCD has worked with several groups on access issues this year. The Senior Center updated the MCD as the building plans were developed. The MCD has provided funding for some adaptive equipment to assist the Center as it enters into full operation in its new location. In addition, MCD has provided some funding to the Playground Committee to assist them in purchasing adaptive recreational equipment for a new playground. Also, the Duxbury Bay Maritime School has piloted a new sailing program called Accessail. They have aggressively pursued the establishment of this program, which will provide tremendous opportunities for disabled persons who are interested in sailing recreationally or competitively. Finally, we continue to work with the Town Clerk and Moderator to help all Town Meeting attendees know there are assistive listening devices to help people participate in the town meetings.

The MCD's current members are: Tina Bruce, Patty Cristoforo, Rocco Longo, Ian MacKay, Bridget O' Keefe, Pat Randall, Joe Shea, Nancy Shine and Lynn Smith. Eleanor Murray, one of our original members, submitted her resignation this year. MCD is sorry to lose her but hope she will continue to share her thoughts with us as we face challenges in the year ahead.

Respectfully submitted,

Nancy L. Shine, Chairperson

Old Colony Planning Council Area Agency on Aging

The OCPC-AAA is responsible for planning, coordinating and funding elder services under the Older Americans Act in the 23-community region served by the program. The OCPC-AAA, in conjunction with input from the 23-community Advisory Committee, has focused its efforts on developing a network of services and programs to serve the unmet needs of elders from throughout the region. In fiscal year 2001, the OCPC-AAA provided grant funding to various service provider agencies for the following types of programs and services:

- Multi-Purpose Senior Center Services
- Mental Health Services
- Services for Disabled Elders
- Legal Services
- Nutrition Education & Counseling
- Congregate and Home-Delivered Meals
- Long-Term Care Ombudsman Program
- Outreach
- Personal Care and Respite
- Transportation
- Emergency Intervention Service
- Senior Aide Employment Program

The OCPC-AAA Advisory Committee Delegates and Alternates play a key role in the development and support of elder services and programs in the region. Committee members from each of the 23 communities assist the AAA in assessing elder needs in the region, recommending funding priorities, and recommending sub-grantee funding awards to the Planning Council. The support and cooperation of the Delegates and Alternates and their respective communities is acknowledged with gratitude by the Old Colony Planning Council Area Agency on Aging. The OCPC-AAA also wishes to extend sincere thanks to Chairwoman Phyllis Hancock of Brockton and Vice-Chairwoman Josephine Hatch of Pembroke for their leadership during the past fiscal year.

Respectfully submitted,

Marjorie McLean, Delegate Kristen Andrews, Alternate

Plymouth County Cooperative Extension

The role of UMass Extension, Plymouth County is to deliver research-based information to specific groups of people through informal methods. The local staff work in concert with UMass Amherst faculty and staff on behalf of the United States Department of Agriculture to provide valuable information in Extension's four program areas. The Extension System is supported by County, Federal and State funds, and operates under Federal and State laws and agreements. Educational programs focus on four major program areas: Agroecology; Natural Resources and Environmental Conservation (grant funds); 4-H youth, volunteer and family development; and federally funded Nutrition Education initiatives. Volunteer advisory groups work with staff on developing specific programs. Programs include: Pruning demonstrations; Pesticide applicator trainings and licensing exams; The Annual UMass Extension Garden Calendar; Educational resource materials; Training and resources for agencies serving youth; Accredited overnight summer camps; Teacher workshops and resources; and Food Safety Certification Courses. Local citizens, appointed by the County Commissioners, serve as County Extension Trustees, directing the overall program. New research findings are translated into practical applications and shared with people and communities through workshops, conferences, field demonstrations, technical assistance, newspaper articles, radio and television. Publications such as regular newsletters and booklets, fact sheets, and home study courses, bring information directly to those who need it.

In Plymouth County, the Extension outreach office is located on High St. Hanson. There is a satellite office in the City of Brockton, for the grant-funded Family Nutrition Program. In Southeastern Massachusetts regional programs are often conducted. UMass also operates the Cranberry Experiment Research Station, located in Wareham. Currently the Plymouth County field staff consists of two 4-H Youth Development Specialists and a Landscape/Nursery Specialist. For a more detailed program brochure on Cooperative Extension programs contact the county office at Box 658, Hanson, MA 02341. (781)293-3541 or 447-5946. (also info on the Web http://www.umass.edu/umext/)

Board of Trustees oversees the work of Cooperative Extension. They are as follows:

County Commissioner Robert J. Stone - Whitman (term expires 3/31/02)

Jere Downing - Marion (term exp. 3/31/02)

Claire Jesse - Plymouth (term exp. 3/31/02)

Wayne Smith - Abington (term exp. 3/31/02)

Joseph Freita

Dominic A. M

Janice Strojny

Chris Wicks - Middleboro (term exp. 3/31/02)

Joseph Freitas – Plympton (term exp. 3/31/03) Dominic A. Marini- E.Bridgewater(term exp. 3/31/04) Janice Stroiny - Middleboro (term exp. 3/31/04)

Phil Wyman – Hanson (term exp. 3/31/03)

Town Directors:

M.G.L. Ch. 128 outlines the Cooperative Extension System functions. It allows for Town Directors to serve in the capacity as a local liaison. These towns contribute additional funds to assist Cooperative Extension programs. Annual Cooperative Extension reports are published in their town documents. Directors are: James Franey, Abington; Richard Wyman, Bridgewater; Dorothy Angley, Carver; Lindsay Blake, Duxbury; Dominic Marini, E. Bridgewater; Kozhaya Nessralla, Halifax; Marjorie Mahoney, Hingham; Valerie Dennehy, Kingston; James Archer, Marion; David Blanchard, Middleboro; E. Dana Cashin, Norwell; Edward Kierstead, Plympton; Georgia Chamberlain, Rochester; Jerrilyn Quinlan, Scituate; and Clifford Carlson, W. Bridgewater.

Members of the County Staff: Amy McCune, 4-H Youth/Family Development Robert O. Mott, 4-H Youth/Family Development Deborah C. Swanson, Landscape and Nursery Team Betty Ann Francis, Executive Assistant

Staff funded by Federal or State Program Grants: Andrea B. Gulezian, Nutrition Education Program Supervisor Maria Pique, Nutrition Educator Faith Burbank, Water Quality & Natural Resources

Joyce Rose, Nutrition Educator Anita Sprague, Senior Clerk (2 days/wk)

Veterans' Services

As the one-stop center for Veterans in the Town, this office continues to provide services for veterans, their spouses and dependents. The veteran and dependent population in Duxbury is 3,562 people.

On the Federal level, we seek benefits in such areas as medical/hospital treatment, Veterans Administration compensation and pensions, education, on-the-job training, home loans, substance abuse treatment, and vocational rehabilitation. At the Federal level, VA compensation to the veterans in Duxbury amounted to \$1,568,370.

On the State and local levels, we seek benefits for financial assistance, medical treatment, fuel assistance, tax abatement, housing, employment and counseling. The State program is 75% reimbursable to the Town.

This year I coordinated Health Fairs in Duxbury to orient veterans on the VA benefit program and their entitlements. I urge all veterans to register with the VA for the medical benefits to which they are entitled.

This year I was tested and certified by the Commonwealth of Massachusetts as a Director/Veterans Service Officer.

I attend all appeals by veterans and dependents that are litigated through the Massachusetts Department of Veterans Services, the Division of Administrative Law Appeals, or at the State level.

I also act as a liaison between veterans or veterans' organizations and the elected officials in the municipality or district.

I attend Department of Veterans Services training sessions and meetings of Veterans' organizations, Veterans' Agent Association, and town or city government meetings whenever veterans' matters are on the agenda.

I wish to once again thank the members of the American Legion Post #223 and their auxiliary for their continued support, and also for the help provided this office by the personnel in the town.

Our hearts and prayers are with the families of those killed in the terrorist attacks at the World Trade Center, the Pentagon, and in Pennsylvania on September 11. Let us pray for the well-being of all our Military personnel serving in and around Afghanistan in the war on terror.

Respectfully submitted,

Robert Lyons Director/Agent Veterans' Services

Duxbury Public Schools

Report of the Superintendent of Schools

School Department

It is my pleasure to submit to the community the annual report on the accomplishments of the Duxbury Public Schools. Implementation of the Education Reform Act and the achievement of the objectives of our annual Action Plan continue to provide us with challenges in continuously improving our programs and services. Our mission is to provide an educational program of the highest quality to enable all students to develop to their full potential. Our dedicated and professional faculty and support staff work daily to fulfill that mission.

A major focus for this past year was the approval and implementation of the Master Facility Plan for the Duxbury Public Schools, which was approved by the School Committee on March 15, 2000. The plan was the result of a comprehensive study of projected enrollment and programmatic needs and addresses issues including increasing enrollment, class size and full day Kindergarten as well as other needs.

Funds for architectural design were approved at the Special Town Meeting in June 2000 and approval for the construction funding was overwhelmingly approved at the Annual Town Meeting in March 2001. A successful debt exclusion election was conducted two weeks later. I would like to thank the many people who supported the school department in our efforts to secure these approvals, those that opened their homes, made phone calls, assisted with public information and got out the vote. It was gratifying to see the hundreds of people who attended coffee hours and other public meetings to learn as much as possible about our proposed plan, asked many questions, and provided input for the design. Through the hard work of the School Building Committee, the DRA architectural firm, and especially School Business Manager, Mickey McGonagle, we were successful in completing the approval of our projects by June 30, 2001 in order to secure a 67% reimbursement rate from the state, a figure which decreased for our community on July 1, 2001 under new regulations.

The general goals for the projects are: provision of space to support high quality education; completion of projects on time and on budget; continuation of the collaborative effort already begun in the pre-design process; and resultant buildings that work and are easily maintained. Much progress has been made since approval of the project and groundbreaking ceremonies were held at the Chandler and Alden sites on September 28, 2001. It was quite a picture to look out over a sea of children in yellow plastic construction hats! The students were the prime participants in these events as these facilities are for them, in support of the best educational environment in which they can learn and grow.

We have awarded construction contracts to Peabody Construction for the Alden and Performing Arts Center projects and to AMG for the addition to Chandler. The wastewater treatment project has also been contracted to D and C Construction. Our website (www.duxbury.k12.ma.us) contains timely information regarding the timeline and progress of construction. It contains written information and pictures which we hope will help to keep you informed and interested in the work which you have set in motion.

Respect and responsibility remain a focus for our school system and we are very proud of our participation with the Selectmen, Interfaith Council and others within the community in making Duxbury a "No Place to Hate" community. Our children at all grade levels continue to participate in community service activities. Opportunities for student leadership at DMS and DHS have been greatly increased. At no time has it been more important for our children to understand their responsibilities toward others in the school, the community and the world. The events of this fall have caused us all to look deeper into ourselves to find courage and wisdom and compassion and we assist our students to find these qualities within themselves each day at whatever their developmental level.

Together with parents, we have faced some challenging issues during the past year including Internet safety and health education. It is an uncertain time in which to raise children and it is inevitable that there will be diverse viewpoints on the best answers to problems. Public schooling means a diversity of experience and opinion, which brings richness to the discussion. As stated in the American School Board Journal of June 2001, "We should be teaching children that in a heterogeneous society, some people

believe things other people do not; that in an open society, people sometimes hear things that they don't like; that in a society of laws, people sometimes have to do things that they don't want to do or face the consequences; and that in a democratic society, everyone has the right to try to influence collective decisions..." Respectful exchange of ideas and participation of others in the problem-solving process take time but usually result in better decisions. The Duxbury Public Schools will continue to work with parents and community members to provide the best possible school experience for the children of this community.

In another effort to keep the community involved and to remain accountable for our performance, we will soon be piloting a "report card" on the school system. Last spring we surveyed families to determine what information they would like to have about the school system. Responses included technology, test results, faculty experience and preparation, and cocurricular and athletic opportunities to mention a few. We will be mailing the first such document to each home in the community in early winter and will be requesting feedback on content and format. We hope that you will find the time to learn more about the Duxbury Public Schools.

Each year presents its own challenges. Our continued success is due to the dedication of our faculty, support staff and administrators. The commitment of these people to our students is what continuously moves the school system forward. As always, we depend on the extensive support and commitment provided by parents and community to our students and staff. Individual volunteers, PTA and PTO, Music Promoters, athletic booster groups, the Duxbury Education Foundation, local businesses, and many others support our programs and services on a daily basis. School Council members spend many volunteer hours in writing the yearly School Improvement Plan and overseeing its accomplishment. The cooperation of other town departments is essential to us and we appreciate their assistance.

We wish a healthy and happy retirement to some dedicated members of our school community, Helen Barrow, J. Foster Cass, Nancy Christo, Ann Collins, Meredith Lehman and Carolyn Schindler, representing 163 years of service to Duxbury students. These committed educators have touched the lives of many children in a positive manner and have earned our gratitude and admiration. We would also like to remember Jack Canty who for many years offered guidance and support to the Duxbury Public Schools, most recently as a member of our School Building Committee. His influence and wisdom will continue to guide our project.

Finally, I would like to express my appreciation to the School Committee for its constant commitment to children and its willingness to make difficult decisions regarding the instructional program. I am continually impressed with their dedication in performing what is often a very unappreciated role. Their leadership is essential to the fulfillment of our mission and goals.

Respectfully submitted,

Dr. Eileen C. Williams Superintendent of Schools

Assessing Department

Calendar 2001 was another eventful year. Included among its notable activities, the Assessing Department:

- Completed its annual in-house Town-wide revaluation of the Town's real and personal property and assisted in the issuance of timely tax bills.
- Performed the necessary planning and administrative work to enable the full implementation of the tax administration and accounting components of the Community Preservation Act (CPA).
- Prepared warrant articles for the 2002 Annual Town Meeting designed to alleviate the tax burden on the Town's elderly citizens.
- Commenced a procedure whereby a portion of the Town's annual tax increase could be spread across all four quarterly tax bills instead of just the last two.
- Underwent training to prepare for the major upgrade of its computerized assessing system that is scheduled to officially commence in January, 2002.
- Conducted a complete from-a-boat review of the Town's waterfront properties.
- Cooperated with representatives of several other Town departments to hire a "Geographic Information System" ("GIS") consultant. This led to the production of a detailed survey of virtually all Town departments and the development of a comprehensive three-year GIS plan of action.
- Began participating in the administration of the new Town web site.
- Collaborated with the Cable TV Advisory Committee to share information and conduct a thorough review and inventory of the Town's taxable cable TV property.
- Re-established a "Payment In Lieu Of Taxes" program with respect to the Town's non-profit organizations.
- Cooperated with citizens and other Town departments to review and improve the accuracy of the Assessors maps.

Notable Assessment Statistics

Assessment Data	FY 2002	FY 2001
Taxable Real Estate	\$2,272,505,900.00	\$2,027,631,754.00

 \$4,796.00

Respectfully submitted, Board of Assessors

June E. Albritton, MAA, Chair J. Thomas Marquis, V. Chair W. Neal Merry, MAA, Clerk

Finance Committee

The Finance Committee's responsibility is to help the population of the Town, The Selectmen, The Town Manager, The Department Heads, and the Fiscal Advisory Committee make sound financial decisions that will take Duxbury through the next year and years to come.

The town's free cash as of July 1, 2001 has been certified at \$1,965,103.00

The Water Enterprise Fund balance is a deficit of \$48,645.00. Spending more on projects out of Water Free Cash than was available caused this deficit. Current receipts have cleared the deficit.

The Stabilization Fund is at \$1.3 million and we hope to build that in the next years to \$2 million.

As we proceed at our Town Meeting, the Finance Committee urges all of you to attend the meeting and vote your conscience. Your town committees spend a tremendous amount of volunteer hours preparing the budgets and reviewing capital request. We have offered what we all feel is the best for the Town. Any one of you can form a strong coalition that can override the recommendations of the committees but we ask you to vote what is best not for your group but what is best for the Town of Duxbury.

Respectfully submitted,

Jackson S. Kent, Jr. Chairman 1351 Tremont St. Duxbury

Members of the Finance Committee for FY 2003

Joseph Lewis, Vice Chair Frank Mangione Gregory Hunter Paul Desmond Brian Watts Gail Willauer Betsy Sullivan Kenneth Mattern

Fiscal Advisory Committee

The Fiscal Advisory Committee is responsible for reviewing the town's capital budget items, land acquisition and the town imposed fee structures. In addition the committee monitors long-term revenue and expense trends.

The upcoming fiscal year will present a number of challenges that we have not experienced in a number of years. The combination of economic slowdown, uncertainty of state reimbursement, and continued rising costs will force difficult decisions on capital expenditures over the next few years.

The school renovation project was voted on and approved at Town Meeting in March of 2001 for approximately \$40 million dollars.

The Community Preservation Act was voted on and approved at town meeting in March of 2001. The 3% tax surcharge will be generating an estimated \$1.6 million dollars (\$800,000 from the town and \$800,00 matching from the state) which is dedicated to land acquisition, affordable housing and historic preservation. The town will be voting on projects presented for use of these funds at town meeting n March 2002.

The Community Senior Center will be operational by the beginning of 2002. The center will be used by the Council on Aging during the weekdays and be available for profit and non-profit organizations to rent in the evening and weekends. The fees for the center are being finalized and we will be working with the Council on Aging to project revenues for this facility.

Fees have also been modestly increased at the Percy Walker Pool to offset continued capital improvement and maintenance of this facility.

The committee has focused this year on documenting and updating the capital assets within the town, especially the vehicles and large equipment. With the various department heads, we will be updating the data including expected replacement date that will in turn create a consolidated long-range capital replacement program.

Duxbury continues to maintain a strong credit rating and a reasonable debt level. The challenge over the coming years will be to provide the continued excellent programs and services that the town has come to expect in more financially uncertain times.

Respectfully Submitted,

James W. Merlin Chairman

Information Services

Information Services has enjoyed another successful year. Continued hardware and software upgrades comprised some of the many activities, which took place in 2001. Many of the upgrades are part of a cyclical replacement plan for older pieces of hardware and software. There were also some more notable upgrades. They were a hardware/software upgrade for the Police and Fire departments and a software upgrade in the Assessors office. In addition to upgrades, troubleshooting and general support constitutes a major element of Information Services responsibilities. Characteristically, these responsibilities are a significant portion of Information Services.

One component of an Information Services operation includes review, analysis and planning for future technology. As part of this review, analysis and planning, a Geographical Information Systems (GIS) study was conducted. A GIS system would assist various departments in their day-to-day operations and management. It would integrate information resources and systems together by geography. The results of the study will allow the Town to better plan the resources to implement a GIS system in the future.

Late in 2001, the Town of Duxbury introduced a web site. The web site offers a very exciting way for the Town of Duxbury to communicate with the citizens of Duxbury. By increasing our ability to communicate within the community of Duxbury, we should advance the mission of the Town of Duxbury - "providing excellent services to the community in the most responsible and innovative manner".

In addition to the work of Information Services, I have also had the opportunity to serve on committees within Duxbury. Through this committee work, I have had the opportunity to work on some very exciting projects for Duxbury with some very dedicated citizens and employees of the Town of Duxbury.

I have enjoyed the opportunity to assist in the advancement of the technological services offered throughout the Town of Duxbury and I look forward, with anticipation, to the many opportunities that will arise in 2002.

Respectfully submitted,

Mary E. MacQuarrie IS Administrator

Accounting

The Town of Duxbury continues to retain a strong financial position and an excellent credit rating. During 2001, the Town borrowed \$2,844,000 to finance the new Senior Center and other projects. Presentations were made to Moody's and Standard and Poor's by key town management personnel in an effort to obtain the best possible credit ratings and corresponding favorable interest rates. Ultimately Moody's assigned the town a continued AA2 rating, with the outlook upgraded to 'positive' from stable; and Standard and Poors' ranked the Town AA+. The presentations involved significant efforts and we appreciate the contributions of all involved.

The Town approved new school construction and remodeling projects totaling \$39,436,000 at the Special Town Meeting, as well as \$3,100,000 in sewer projects within the Annual Town Meeting. In addition, the Town adopted the Community Preservation Act with a 3% surcharge and no exemptions. We continue to plan for the longer-range fiscal impact of these decisions. The economy has been slowing throughout 2001 and has been affected significantly by the events of September 11. The Town's revenues have been impacted and we will need to be conservative in the 2003 (and subsequent) budget process to protect our financial stature while accomplishing all of our goals.

I was fortunate to be invited to participate in the hiring process for both the Water Department Office Manager and the Treasurer/Collector. Both Louise Hatfield and Gloria Williams have already made contributions to the Town's Financial Team and I look forward to working with both of them.

Within the Accounting Department we have implemented bi-weekly pay for all Town Departments. Many thanks to Elsie Vuilleumier for all of her efforts to accomplish this significant change! Thank you also to Carolyn Govoni and Sara Jones for implementing a procedure for Town-wide purchase orders. The annual audit was completed timely (before the end of September) and the management letter disclosed only one minor new comment - which has already been corrected.

Government Accounting Standards Board (GASB) Statement 34 will be implemented in fiscal 2003, however, we will begin assembling the required fixed assets information during fiscal 2002.

Respectfully submitted,

Treasurer/Collector

During this past fiscal year, the position of Treasurer/Collector was vacant due to the retirement of John N. Ferguson. During this interim time, the core treasury functions ere executed by Ann Marie Ellis-Stetson as Acting Treasurer and Nancy Boulanger as Acting Collector. I acknowledge and express special thanks for their efforts, contributions, and cooperative assistance.

On a go-forward basis, the focus in Treasury will encompass (1) automation of cash management processes; (2) greater utilization of technology to streamline departmental functions and/or enhance financial controls; and (3) review of existing policies in order to optimize departmental efficiency and customer service. Efforts in this regard are currently underway, and I look forward to a productive and rewarding fiscal 2002!

Treasurer's Bank Balances

Respectfully submitted,

Treasurer's Receipts and Disbursements

Gloria Williams Treasurer/Collector

9/30/01 Balances reflect new issue of \$2,844,000 General Obligation Bonds.

- (1) Principal amount only. Excludes lease and installment purchase obligations, overlapping debt and unfunded pension liability.
- (2) At the present time the normal General Debt Limit is \$94,639,795 and the Double General Debt Limit is \$189,279,590.
- (3) \$1,670,676 has been exempted from the provisions of Proposition 2 1/2.
- (4) Represents the following: \$950,000 from article 13 voted on March 8, 1999; \$81,600 from Article 10 voted on March 13, 2000;
- \$3,100,000 from article 28 voted on March 12, 2001. All of these authorizations are expected to be issued at a later date.
- (5) Represents the following: \$561,000 from article 10 and \$95,000 from article 16 voted on March 12, 2001. Both are expected to be issued at a later date.
- (6) Represents article 1 voted March 10, 2001 and Question 1 voted March 24, 2001. This is expected to be issued at a later date.
- (7) Represents \$500,000 from article 22 voted March 16, 1999; \$20,000 remaining from article 6-6 voted March 11, 2000;
- \$12,000 remaining from article 6-2 voted March 11, 2000; and \$285,000 from article 6 voted March 10, 2001.
- All of these amounts are expected to be issued at a later date.
- (8) Represents article 5 voted on June 12, 2000; It is not certain whether this will be issued at a later date or rescinded.
- (9) Represents article 6-4 voted on March 10, 2001 which is expected to be issued at a later date.
- (10) Includes article 6-7 voted on March 10, 2001 which is expected to be issued at a later date for \$408,000.
- (11) \$81,600 maturing 6/27/02 and \$1,351,500 maturing 6/26/02.

Trust Funds

Balances may be found in the Accounting records

JONATHAN AND RUTH FORD TRUST FUND

"Net income only, of said funds, is to be paid by said Town from time to time each year to or for the benefit of those residents of said Town who are, in the sole discretion of said Town, financially unable to secure badly needed medical and/or nursing care, supplies, hospitalization, operations, x-rays, and/or assistance (including dental work) deemed necessary by said Town in any case."

LUCY HATHAWAY TRUST FUND

"Income to be 'applied for the purpose and in the proportion hereinafter specified':

- (a) One-fourth of said income to be applied to the care and improvement of the public streets in said Town of Duxbury;
- (b) One-eight of said income to be applied to the care of shade trees within the limits of the public highways in said Town of Duxbury;
- (c) One-sixteenth of said income to be applied to the care and improvement of Mayflower Cemetery in said Town of Duxbury;
- (d) One-fourth of said income to be applied to the support of the public schools in said Town of Duxbury;
- (e) One-sixteenth of said income to be applied to the purchase of books for the public library in said Town of Duxbury;
- (f) One-eight of said income to be applied to the care and maintenance of the public landings in said Town and the approaches thereto;
- (g) One-eighth of said income to be applied to the maintenance and care of public bridges in said Town."

KING CAESAR POOR AND HOSPITAL FUND

"To provide for relief of the poor and elderly citizens of said Town; and to assist any citizen of said Town who is, in the judgment of the Selectmen, otherwise unable to pay in obtaining proper medical, dental, psychiatric and nursing care by establishing, equipping and maintaining, through the Plymouth Community Nurse Association or otherwise, a program or programs of preventative medicine and a clinic or clinics for furnishing such care at convenient and accessible locations in said Town and by other appropriate means. Within 90 days following the payment to the Selectmen, they shall submit to the trust a written report as to the objects or purposes for which said payment has been or is to be expended."

MYLES STANDISH HOMESITE FUND

"Annual Meeting, Town of Duxbury 3/1/30 - Article 15 - Voted unanimously that the Town accept the homesite of Myles Standish at Standish Shore and send thanks to the Trustees of the Standish Monument Association."

Annual Meeting, Town of Duxbury 3/7/31 - Article 30 - Voted unanimously that the Town accept the gift of \$1,133.16 from the Standish Monument Association, the income from this amount to be used for the care of the lot at Standish Shore where the original Myles Standish house was located.

Annual Meeting, Town of Duxbury 3/12/60 - Article 21 - Voted to authorize the Town Treasurer to accept from time to time any and all money which may be donated to the Myles Standish Monument Fund."

THOMAS D. HATHAWAY FUND

"Income to be expended annually in the purchase, planting and replanting of shade and ornamental trees and shrubbery on and in the several Town ways and highways in said Town of Duxbury and in the care of the same, but should the Selectmen of said Town in any year or years think there was more money from said income than could be well expended for the foregoing purposes they may expend a portion of said income as shall seem to them expedient in improving the sidewalks in said Town of Duxbury."

WILLIAM PENN HARDING LIBRARY FUND

"Income to be paid by the Town Treasurer to the trustees of the Public Library of said Town, sometimes called the 'Wright Memorial Library' to be expended by them in the month of May each year, in the purchase of recent books on Science, Art or Travel of a popular and instructive character, which books shall be place in said library for general circulation. Said bequest shall be designated as 'William Penn Harding Library Fund' which designation shall be printed or written in all books so purchased when placed in said Library."

BRIDGE PROJECT

"Gift to assist in renovation of Powder Point Bridge".

ISABELLE V. FREEMAN POWDER POINT TRUST

"Income to be expended under direction of the Selectmen for Ambulance Services only".

ESTATE OF GERTRUDE B. COFFIN

"Gift of Use of Duxbury Library in Memory of Ida Burleigh"
"Gift for Addition to Emergency Fund Duxbury Fire Department"

AGNES E. ELLISON FUND

"The income to be used for the under-privileged children in need of medical attention, particularly to alleviate blindness and deafness."

MARIETTA F. RUSSELL SCHOOL LIBRARY FUND

"Received from the Estate of Marietta F. Russell, check for \$1,500.00 bequeathed to the Town of Duxbury by said Marietta F. Russell, under and in accordance with the provisions of Paragraph 14 of her Will, in memory of her parents, Edward B. Russell and Katherine A. Russell, to be held in Trust, and the income therefrom to be used annually for the purchase of books for the Library of the Duxbury High and Elementary Schools."

MARIETTA F. RUSSELL SCIENCE MATERIAL FUND

"Received from the Estate of Marietta F. Russell, check for \$500.00 bequeathed to the Town of Duxbury by said Marietta F. Russell, under Paragraph 34 of her said Will, the income therefrom to be used for the purchase of science materials for the Elementary and High Schools."

HARRY C. & MARY E. GRAFTON MEMORIAL SCHOLARSHIP FUND

"To establish two one-year scholarships for needy Duxbury High School seniors who plan to continue their education. The Trustees contemplate that this will be an annual award, and that each recipient will be supported for up to four consecutive years (at \$1000 per year upon satisfactory completion of the prior year) for college, or vocational training. Thus, future grants from the Grafton Trust to the Town for this purpose could be increased to a total of \$8,000 in a given year".

MARY E. CARR NEPTON SCHOLARSHIP FUND

"Terms of Will- Clause 6. All the rest, residue and remainder of my estate, both real and personal, I give, devise and bequeath to my Trustee hereinafter named, in trust as follows:

- (a) To establish a fund to be called 'The Mary E. Carr Nepton Scholarship Fund of the Town of Duxbury'.
- (b) The said fund to be held by the Town Treasurer of Duxbury, Massachusetts, as a trust fund, the net income therefrom to be used from time to time for the payment of a part or all of the tuition of needy male students at a recognized college or other institution of higher learning."

ANNIE DREW DUNHAM SCHOLARSHIP FUND

"Under term of Will (Accepted ATM 3/14/64, Art. 45) Article Sixteen: (b) Three-fourths thereof I give to the Town of Duxbury, in trust, nevertheless, to invest, reinvest, and from time to time to change the investments at the discretion of said trustee, and annually (January first to December first) to pay the net income therefrom derived in a scholarship to, or on behalf of, a student selected as hereinafter provided, in furtherance of his or her education in any branch of learning which such student prefers, and which student is a resident of Duxbury who is graduating from, or has graduated from, Duxbury High School (or if Duxbury no longer shall have its own high school, then the regional or district high school of which Duxbury is a participant). Selection of such student (preferably one in the then-current graduating class) shall be made before June first of each year by a group made up of the following members: The Superintendent of Schools of the Town of Duxbury (or if Duxbury shall no longer have its own school superintendent, then the superintendent of the regional or district school of which Duxbury is participant); the Principal of the Duxbury High School (or if Duxbury shall no longer have its own school principal, then the principal of the regional or district school of which Duxbury is participant); and the members of the Duxbury School Committee.

Should the group herein before provided, or any of them, be unwilling to accept the responsibility of selecting students, to receive such scholarships, the Town of Duxbury, may, at any regular or special Town Meeting, appoint alternates for said principal, Superintendent, and members of the School Committee, and such alternate or alternates may substitute for the person or persons unwilling or unable to participate in such selection.

The fund hereby created shall be known as "The Annie Drew Dunham Scholarship Fund", and the scholarship shall be known as "The Annie Drew Dunham Scholarship".

HARRIETT S. CROZIER SCHOLARSHIP FUND

"Under term of Will -

22nd, A. Scholarship Fund of the Town of Duxbury, Massachusetts, in memory of my late sister, Marion A. Crozier".

BENJAMIN M. FEINBERG TRUST FUND

"I give and bequeath to the inhabitants of the Town of Duxbury, Massachusetts for educational purposes the sum of fifteen hundred (\$1,500) dollars. Said sum shall be held in trust by the Town of Duxbury and the Principal thereof shall be invested so that the members of the School Committee of said Town may make an annual award to a member of each year's graduating class of the high school, who intends to pursue his or her education further, either in a college, university, trade school or other institution of higher learning. It is my desire that preference be given to a student who may be in need of financial assistance. The amount of such award shall be determined by the Trustees and shall be paid out of the annual income or out of the undistributed income of the Fund."

"The term 'Annual Income' shall be the 'net income' as herein defined, for the 'fiscal year' of the Fund which ends prior to the date of graduation for which such award is to be made. The term 'net income' as herein used shall include income received from all sources, other than gains from sales or exchanges of property, held by such Fund, after deducting all expenses property chargeable against income. Any gains or losses from sales or exchanges of property held by such Fund shall be regarded as an addition to or as a charge against Principal. The fiscal year of such Fund shall be the twelve-month period commencing with the first day of the month in which such fund shall be created."

LUCY E. EWELL TRUST FUND

"Income to be paid over" annually to the authorities in charge of the 'Upper Cemetery' on Keene Street in the part of the Town of Duxbury called ASHDOD, to be expended by them for the care, improvement and embellishment of said cemetery."

EDWARD P. HOBART SCHOLARSHIP FUND

As per Will of Ruth C. Hobart-

"Article Fifth: I give and bequeath unto the Town of Duxbury, a municipal corporation within said County of Plymouth and Commonwealth of Massachusetts, the sum of Ten Thousand dollars (\$10,000), IN TRUST NEVERTHELESS, the net income to be paid in annual scholarships to be determined by the amount of income available for distribution in each year. Any excess over the amount necessary to make one or more full scholarships of Five Hundred Dollars (\$500.00) each shall be paid in conjunction with income earned in the year following, or subsequent years, to aggregate a full Five Hundred Dollars (\$500.00) scholarship."

"Such scholarships shall be known as EDWARD P. HOBART SCHOLARSHIPS and shall be paid in furtherance of the education of each recipient in any branch of learning chosen by such recipient. Students receiving this scholarship shall be deserving male or female graduates of Duxbury High School, or in the event that Duxbury shall discontinue having its own public high school, then male or female graduates of the public Regional High School in which Duxbury is a participant, recipients to be selected only from among those in need of financial assistance who are residents of the Town of Duxbury, and shall be designated annually by the Principal of such school".

"In any year in which, due to circumstances, any scholarship awarded is not paid, or any part of the Five Hundred Dollars (\$500.00) from such scholarship is not fully expended, or the student subsequently fails to use the scholarship aid after its award, such sums are thus turned back or available through failure to use the same, shall be returned to income for payment in conjunction with other current income or accrued income for the scholarship fund for current or subsequent years."

ARTHUR D. EATON CEMETERY FUND

Last Will and Testament of Arthur D. Eaton - Article Tenth:

"All the rest, residue and remainder of my estate to the Town of DUXBURY, a municipal corporation within said County of Plymouth, and Commonwealth of Massachusetts, IN TRUST NEVERTHELESS, the income therefrom to be expended annually by the Cemetery Trustees of said Town, insofar as may be necessary for the perpetual care of said Eaton Lot, so-called, being Lot #1259 in Mayflower Cemetery, wherein is buried the body of my late Mother, Edna L. Eaton, and in which my body is to be buried as aforesaid, and for flowers and the placing thereof annually in front of the monument on said lot on Memorial Day, and for a wreath and the attaching thereof, annually, to said monument on Christmas Day, the balance of said income in each year to be used for the general care, improvement, and the embellishment of the 'old portion' so-called, of said Mayflower Cemetery: said fund to be known as the "Arthur D. Eaton Fund".

LADIES UNION FAIR ASSOCIATION OF DUXBURY TRUST FUND

Accepted at Annual Town Meeting, March 14, 1964, Article 32. Income to be used for the general care of the old section of Mayflower Cemetery.

NELSON T. SAUNDERS MEMORIAL TRUST

Special Town Meeting held April 28, 1990, Article 9, moved and seconded that the Town vote to approve the establishment of the Nelson Saunders Memorial Trust Fund of which the principal and interest may be used for shellfish propagation and cultivation for the Town of Duxbury as approved by the Board of Selectmen on the advice of the Shellfish Advisory Committee.

MARGERY S. PARCHER MEMORIAL TRUST FUND

Special Town Meeting held November 23, 1987, Article 18, it was moved and seconded that the Town vote to approve the establishment of the Margery Parcher Memorial Trust Fund, said Fund to be used to enhance the Town of Duxbury's Annual Fourth of July activities as directed by the Board of Selectmen on the advice of the Fourth of July Committee.

EDMUND A. DONDERO SCHOLARSHIP FUND

Special Town Meeting held May 5, 1986, Article 5, it was moved and seconded that the Town appropriate and transfer \$1,000.00 from Free Cash to establish a scholarship fund, in the name of and to honor Edmund A. Dondero, the income from which is to be used toward the payment of college tuition and expenses for a deserving student interested in pursuing a career in government service, with the scholarship funds to be administered and applied under the Board of Selectmen.

WILLIAM P. ELLISON CHARITABLE TRUST

Special Town Meeting held March 11, 1984, Article 4, moved and seconded that the Town vote to accept a gift from the estate of William P. Ellison and authorize the Board of Selectmen to establish procedures and decide upon uses of said gift that are to be for exclusively public purposes. The Board of Selectmen voted March 27, 1989 to approve the use of the Ellison gift for lights at Chandler Field.

RICHMOND D. WIGHT FUND

Annual Town Meeting held March 11, 1989, Article 36, moved and seconded that the Town accept a gift from the Estate of Richmond G. Wight and authorize the Board of Selectmen to establish procedures regarding the use of said gift in accord with the provision of the Will of Richmond G. Wight. "The gift to the Town of Duxbury is in trust, the income, current and accumulated, to be used in the discretion of the Selectmen or such other persons as may be designated by the Town to exercise such authority, for those proposed beneficial to the Town and its inhabitants for which adequate public funds are not available. Preference shall be given, but not limited, to uses related to the history of the Town, the preservation of historical places and buildings, and the encouragement of all forms of art and artistic appreciation and endeavor within the Town. Payment may be made to charitable organizations for such purposes."

EBEN H. ELLISON TRUST FUND

"Annual Town Meeting, April 28, 1990, Article 36, moved and seconded that the Town vote to accept a gift from Eben H. Ellison Trust and authorize the Board of Selectmen to establish procedures regarding the use of such gift in accordance with Article 36 of the warrant:

"To see if the Town will vote to accept a certain sum of money from the Eben H. Ellison Trust to be invested by the Treasurer, in which no more than one-half the income derived there from shall be disposed of for the support and maintenance of the William P. Ellison Playgrounds, and the remaining income to be used for a worthy Town need or project.

All funds are to be allocated at the discretion of two Trustees, Elton F. Drew and Clarence W. Walker, or their successors.

All funds not so expended in any given year shall be reinvested by the Treasurer. The sum of Five Hundred (\$500.00) dollars, Two Hundred Fifty (\$250.00) dollars per trustee per year, from the income shall be paid to the Trustees."

HERITAGE FUND

The Board of Selectmen voted to adopt the following motion at their meeting of July 9, 1990:

"Moved the Town Accountant be authorized to transfer \$14,000 from the Excess and Deficiency (E & D) Fund to Duxbury Heritage Fund to be established by the Town Treasurer. Said action being consistent with the Motions adopted under Article 14 of the Special Town Meeting of March 1988, and Article 2, of the Special Town Meeting of November 1988.

The Duxbury Heritage Trust Fund shall be for promotion of the Town of Duxbury's natural, historical and cultural heritage. The Board of Selectmen shall enact rules and regulations to govern the Fund and may accept contributions to the Fund and may expend investment earnings of said Fund. Said Fund is established with the \$14,000 contribution given to the Town on behalf of the Town's 350th Anniversary Celebration.

The Town Treasurer shall each year submit to the Board of Selectmen a written account summarizing the assets, contributions and expenditures of said fund. The Selectmen may appoint a committee to advise and assist the Board in the administration of said Fund."

HELEN DELANO HOWE SCHOLARSHIP FUND

"Twenty-sixth: I give and bequeath the sum of One Hundred Twenty-Five Thousand (\$125,000) to the Town of Duxbury to establish in this Massachusetts town, a separate fund to be known as the Helen Delano Howe Scholarship Fund, the income of such fund to be awarded annually on an objective and non-discriminatory basis, in one or more scholarships, to students residing in said town who desire to continue their education after high school in an educational institution, as defined in Section 170 (b) (1) (A) (ii) of the Internal Revenue Code of 1986, as amended (the 'Code'), with preference to those students intending to enter the teaching profession. Said scholarships are to awarded and administered by the process usually employed in the selection of scholarship candidates in named Town. Such awards may be made to students upon their graduation from high school and the recipients thereof shall continue to be eligible for annual awards, providing that student remains

academically and personally qualified and worthy, in the discretion of the awarding authority until the student has received the bachelor's degree."

MOLLY HOPKINS TAFT LIBRARY SERVICE SCHOLARSHIP AWARD

"To provide a living memorial and at the same time to encourage academic excellence by Duxbury High School students, and especially those who are active in school library activities.

Basis for Selection of Recipient:

Academic excellence is required. If there is a Library Service Club, or equivalent student activity in assisting with the maintenance of library systems, selection should focus on a college-bound student who has participated in such activities. Demonstrated knowledge of library access procedures and unusual familiarity in the use of reference material could aid in selection in lieu of library service although library service is preferable. Performance, not "need" is to be prime consideration. Special consideration is to be given to a student who qualifies well in the two foregoing conditions and has been accepted by Wellesley College, Molly's alma mater.

In the event the student who is thought to most nearly meet the above described conditions elects to not accept this award it should be allowed to accumulate that year, since it is intended that the recipient be selected on academic excellence and library service or unusual facility with and knowledge of reference material accession. Also, in the unlikely event that there is no suitable candidate the fund should be allowed to accumulate.

The award is to be made to reach recipient only one time; it is intended for college expenses during the first year. In the event that the designatee cannot attend a school of higher learning in the same calendar year in which the award was made -- for whatever reason--the amount awarded is to be held in the Fund for up to three years for that person's use when electing to go forward with his education. If not claimed by the end of the three-year period, the award is voided and amount of the award reverts unconditionally to the Fund.

If there is a direct descendent of Molly Hopkins Taft (Molly Malvina Taft) who wishes to participate in the selection of the recipient, that person will, after obtaining School Department recommendations, have the right to determine who will be selected for the award, since it is believed that such person is more likely to understand the intent of this Fund."

WESTON-THOMPSON FUND

"To the Town of Duxbury, Massachusetts, the sum of Ten Thousand Dollars, to be held and administered by the Town Treasurer, with the advice and consultation of the Trustees of Trust Funds, as an endowment to be known as the "Weston-Thompson Fund". The income from said endowment shall be used to provide scholarships for graduates of Duxbury High School who wish to pursue their education in the vocations, such as, but not limited to, carpentry, plumbing, electrical work, auto mechanics, and electronic services, and who would, without financial assistance, be unable to advance in their chosen fields. The selection of the recipient or recipients of this award each year shall be made by the principal of Duxbury High School and the superintendent of the Duxbury school system."
